REPORT OF THE TRUSTEE TO THE UNITHOLDERS OF TATA MUTUAL FUND FOR THE YEAR ENDED 31ST MARCH, 2005

Dear Unitholder,

It gives us great pleasure to enclose schemewise audited financials as on 31st March, 2005. This Report is in continuation of the 'Performance and Portfolio of the Schemes' Report as on 31st March, 2005 published by us earlier.

Report of the Trustee on the operations of various schemes of the fund and the fund as a whole during the year and the future outlook of the fund

(I) FUNDS UNDER MANAGEMENT

Tata Mutual Fund today manages twenty four open ended schemes of which twelve are equity schemes, two are balanced schemes and ten are debt schemes, and One close ended scheme. The total net assets under management were around Rs 6784.04 crores as on 31/03/05 which has increased from Rs.4013 crores as on 31/03/04 showing an increase of Rs 2771.04 crores. The AMC's continued focus on marketing and sales efforts has been showing good results and the total assets under management as on 31/08/05 were Rs 10462.37 crores.

The Year that was:

Equity :

The rally we saw in FY'04 continued for the second consecutive year with the BSE Sensex gaining 16% YoY. Though the market moved up almost throughout the year, there was a brief period of extreme volatility in May and June with an unanticipated change in government at the centre and expectation of a reversal of fund flow post a hike in interest rate by the US Fed. Although returns were lower compared to the previous year, the index finally broke out of the four year range within which it was moving. Over the last several years, earnings growth was strong with companies restructuring, low interest rates etc, while valuations lagged behind. What we saw in FY'04 & FY'05 were valuations trying to catch up with earnings growth. This process was aided by the strong liquidity from both domestic and overseas investors. FIIs pumped in close to \$8Bln of money during the year. The out-performance of the mid-cap range of stocks continued in a more pronounced manner with a growth of 74% in the CNX Midcap Index and this is a trend seen in other markets of the World as well. Even rising oil prices and a below normal monsoon failed to dampen sentiment in the market as the market climbed the wall of worries. The infrastructure theme did well from the last quarter of the year with increased momentum in spend.

FUTURE OUTLOOK:

EQUITY FUNDS

The current year so far has seen continuance of the rally with both the infrastructure and consumption themes playing out well. Indian corporates continue to show good growth benefiting from both these themes. The monsoon has been good this year and with a boost in agricultural production, the Indian GDP growth this year may reach 7.5% which augurs well for the market. High and rising crude oil price is the most important concern as this could affect corporate earnings growth and lead to higher interest rates. Liquidity from overseas and domestic investors continues to be positive with FIIs having brought in almost \$7Bln so far. The favorable tax structure announced by the government has contributed to the flow of money in the market from domestic investors and this is likely to continue in the foreseeable future. Returns from the market may, from now on, equal earnings growth as there seems to be no further case for valuation re-rating. However, we believe that the Indian market is in the midst of a multi year bull run reflecting favorable demographics, a pick up in industrial activity through spend on infrastructure & capacity creation and increasing propensity to invest in the equity market by Indian households. Whilst, there could be correction and consolidation in the short to medium term we are positive on the long term prospects of the Indian equity market.

A note on the scheme wise investment objective, policy of investment and performance has been appended at the end of the trustee report.

(II) CONSTITUTION OF THE FUND

Tata Mutual Fund (TMF) has been constituted as a Trust in accordance with the provisions of The Indian Trusts Act, 1882 (2 of 1882) and is registered as a Trust under The Indian Registration Act, 1908. TMF was registered with the Securities & Exchange Board of India (SEBI) and commenced operations by launching its first scheme on 30th August, 1995. Tata Sons Limited (TSL) and Tata Investment Corporation Limited (TICL), are the Settlers and Sponsors of Tata Mutual Fund. TSL and TICL, have made an aggregate initial contribution of Rs.1 lakh towards setting up of TMF. Tata Trustee Company Private Limited is the Trustee Company and Tata Asset Management Limited (TAML) is the Asset Management Company of Tata Mutual Fund.

The shareholding pattern of Tata Asset Management Ltd (TAML) and Tata Trustee Company Private Ltd (TTCPL) as on 31st March, 2005:-

	TAML	TTCPL
Tata Sons Ltd	67.91%	50%
Tata Investment Corporation Limited	32.09%	50%

The main object of TMF is to formulate and devise various collective Schemes of savings and investments from the general public and to provide them with reasonable income / returns and ensure liquidity of investments as applicable, for the Unitholders.

Tata Infrastructure Fund:

The investment objective of the Scheme is to provide income distribution and / or medium to long term capital gains by investing predominantly in equity/equity related instrument of the companies in the infrastructure sector. The scheme will invest 70% of its assets in equity and equity related instruments of the companies in infrastructure sector. Further the scheme may also invest not exceeding 30% of the scheme's assets in debt and money market instruments. This scheme has performed better than the benchmark index viz BSE SENSEX.

AUDITORS' REPORT

**TO THE BOARD OF DIRECTORS OF
TATA TRUSTEE COMPANY PRIVATE LIMITED
TATA MUTUAL FUND – TATA INFRASTRUCTURE FUND**

We have audited the attached Balance Sheet of Tata Mutual Fund – Tata Infrastructure Fund (the “Fund”) as at 31 March 2005 and the related Revenue Account for the period 31 December 2004 to 31 March 2005 annexed thereto. These financial statements are the responsibility of the Managements of the Trustee and the Asset Management companies. Our responsibility is to express an opinion on the financial statements. We report as follows:

- a) Our audit was conducted in accordance with generally accepted auditing standards in India. These Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
- b) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- c) The Balance Sheet and the Revenue Account dealt with by this report are in agreement with the books of account of the Fund.
- d) The Balance Sheet and the Revenue Account dealt with by this report have been prepared in accordance with accounting policies and standards as specified in the Ninth Schedule of the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996.
- e) Non - traded securities have been valued in accordance with the guidelines notified by the Securities and Exchange Board of India. In our opinion, these valuations are fair and reasonable.
- f) In our opinion and to the best of our information and according to the explanations given to us, the said accounts give the information required by the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 and give a true and fair view:
 - i. in the case of the Balance Sheet of the state of affairs of the Fund as at 31 March 2005 and
 - ii. in the case of the Revenue Account, of the excess of income over expenditure for the period 31 December 2004 to 31 March 2005.

Schedule XI - Statement of significant accounting policies of Tata Infrastructure Fund (TISF) and Notes forming part of the Accounts for the period ended 31st March, 2005.

A. SIGNIFICANT ACCOUNTING POLICIES

1. INCOME RECOGNITION:

- a) Dividend income is accounted on ex-dividend dates.
- b) Profit or loss on sale of investments is recognised on trade dates. The cost of investments sold is determined on "weighted average cost basis".
- c) Interest on investments is accounted on an accrual basis. Interest on an investment that is past due for three months is accrued and a full provision is made against all outstanding interest on that investment.
- d) Other income of a miscellaneous nature is accounted when it is received on grounds of prudence.

2. EXPENSES:

- a) All expenses are accounted on an accrual basis.
- b) Expenses not identifiable with any particular scheme are generally allocated to the schemes in proportion to their net assets.

3. DEFERRED REVENUE EXPENDITURE:

Initial issue expenses are written off over a period of five years. The unamortised portion of the initial issue expenses is included in the NAV.

4. INVESTMENTS:

- a) Purchase and sale of investments are recorded on the date of the transaction, at cost and sale price respectively, after considering brokerage, commission, stamp charges and any charge customarily included in the broker note.
- b) Rights entitlement pending formal allotment is accounted as investments at issue price plus acquisition cost, if any.
- c) Bonus entitlement is recognised on ex-bonus dates.

5. PORTFOLIO VALUATION FOR NAV CALCULATION

i. Traded Securities :

Traded Securities are valued at year-end closing market rates on the principal stock exchange on which the security is traded (excluding accrued interest, if any, which is accounted separately).

In the absence of a quoted price on the valuation date for debt securities (other than Government Securities), the last available quoted price within a period of fifteen days prior to the valuation date is used for valuation purposes.

In the absence of a quoted price on the valuation date for equity instruments, the last available quoted price within a period of thirty days prior to the valuation date is used for valuation purposes.

ii. Thinly Traded Securities :

Thinly traded equity / equity related securities are those securities whose trade in a month, are both less than Rs.5 lacs and the total volume is less than 50,000 shares. These have been valued on the basis of valuation principles laid down by SEBI for the same.

Debt securities (other than Government Securities) are considered as thinly traded if on the valuation date, there are no individual trades in those securities in marketable lots (presently Rs.5 crores) on the principal stock exchange or any other stock exchange. These have been valued on the basis of valuation principles laid down by SEBI for the same.

iii. Non-Traded Securities :

Non – traded debt securities of over 182 days to maturity are valued in good faith on a yield to maturity basis by Tata Asset Management Limited (TAML).

The non – traded debt securities have been classified by TAML as “investment grade” and “below investment grade” as on 31st March, 2005. The values applied by TAML for “investment grade” debt securities are on the basis of valuation yields determined by CRISIL (Credit Rating Information Services Of India Limited). In the opinion of TAML, these yields determine fair and reasonable values and such basis of valuation is approved by the Tata Trustee Company Private Limited. The aggregate fair value of “investment grade” debt securities as on 31st March, 2005 is Rs.656,379,476/-. The value of “below investment grade” debt securities as on 31st March, 2005 is Rs.Nil.

These balances exclude redemption proceeds due but not received and fully provided Rs.Nil.

These securities have been valued on the basis of valuation principles laid down by SEBI for the same.

Non – traded debt securities with residual maturity of upto 182 days are valued on the basis of amortization (cost plus accrued interest till the beginning of the day plus the difference between the redemption value (inclusive of interest) and the cost spread uniformly over the remaining maturity period of the instruments).

This basis of valuation is in accordance with SEBI guidelines.

iv. Money Market Securities :

Money Market instruments are valued on the basis of amortisation (cost plus accrued interest till the beginning of the day plus the difference uniformly over the remaining maturity period of the instrument).

v. Government Securities :

Government securities are valued at the prices released by CRISIL, which is currently the only approved agency suggested by Association of Mutual Funds in India (AMFI).

vi. Unrealised Gain / Loss in value of Investments :

Following the issue of the Guidance Note on Accounting for Investments in the Financial Statements of Mutual Funds by the Institute of Chartered Accountants of India (pursuant to the Eleventh Schedule of the SEBI Regulations) the appreciation / diminution in investments is worked out on individual basis. The value of diminution as at the year end is effected in the Revenue Account. Unrealised appreciation as at the year end is also routed through the Revenue Account but is reduced from the distributable income at the time of income distribution.

B. Notes attached to and forming part of the accounts for the period ended 31st March, 2005.
