REPORT OF THE TRUSTEE TO THE UNITHOLDERS FOR THE YEAR ENDED 31ST MARCH 2007

Dear Unitholder,

It gives us great pleasure to enclose schemewise audited financials as on 31st March, 2007. This Report is in continuation of the 'Performance and Portfolio of the Schemes' Report as on 31st March, 2007 published by us earlier.

Report of the Trustee on the operations of various schemes of the fund and the fund as a whole during the year and the future outlook of the fund

(I) FUNDS UNDER MANAGEMENT

Tata Mutual Fund (TMF) today manages twenty six open ended schemes of which thirteen are equity schemes, two are balanced schemes, eleven are debt schemes. TMF also manages eleven close ended schemes of which seven are debt schemes, two are equity schemes, one is Equity Linked Saving Scheme (ELSS) and one is Balanced Scheme. The net assets under management were around Rs. 12624.47 crores as on 31/03/07 which have increased from Rs.9716.68 crores as on 31/03/06 showing an increase of Rs. 2907.79 crores. The AMC's continued focus on marketing and sales efforts has been showing good results and the total assets under management as on 31/07/07 were Rs 20480.52 crores.

The Year that was:

Equity :

During the last financial year, the BSE Sensex was range bound with two corrections in between. The year started off well with almost 10% return in April over March closing with the index continuing on its upward trend since the mild October 2005 correction. However, May and June saw a shakeout in the market with risk appetite falling sharply. What started as a fall in the Chinese market shook most equity markets and ours was no exception. The positive aspect of this correction was that since the correction in May, on a closing basis, the index gained consistently every month till January / February 2007. The range bound nature of the market becomes clear with the fact that the April high was broken only in September '06 despite rising month on month. February and March '07 were again correction months. The year FY2007 thus saw the market giving a return of 15% from open to close. More importantly, the breadth of the market was very poor with few stocks participating in the rally. Even within the index, there were several underperformers.

FII flows into the Indian stock markets continued to be quite healthy and India did attract one of the best flows within the emerging markets in the current calendar year CY07. After attracting FII flows of over USD 8 bn in the calendar year CY06, the Indian market has already seen FIIs put in over USD 10 bn in the first seven month of the current calendar year CY07, upto July'07.

The Indian economy sustained its broad based growth momentum at a stepped up rate for the fourth year in succession during FY'07. Powered by robust industry and services sector performance, Indian economy grew at 9.4% during FY07, which maintains India's status as one of the fastest growing economies in the world. The fast pace of growth in the economy though did cause some overheating resulting in higher inflation in the early part of this calendar year CY07, calling for policy response in the form of higher interest rates. However, for now, the interest rates seem to have stabilized as WPI inflation has now come down to around a level of 4.5%, a level which is comfortable with the RBI. Corporate India continues to grow and expand at a fast pace, utilizing the momentum in the economy. The leading companies in India have seen rising cash balances, and strong balance sheets. This year also saw marked strength in the India rupee, which touched a nine year high of Rs 40.3 to a US Dollar, a level which Rupee should find hard to breach further in the short term as the Indian government may not be comfortable with the Rupee further strengthening at such a fast pace. After lot of promise for years, we did see a step up in the FDI flows to India. The foreign exchange reserves of India have now crossed USD 220 bn. The year also saw the upgrading in India's sovereign rating. India is now rated Investment Grade by all the three leading rating agencies viz. S&P, Moody's and Fitch, which is an acknowledgement of India's improving economic prospects.

Debt:

The year 2006-2007 saw a mindset change from RBI, the central bank switched the operating rate from reverse repo to repo rate. RBI hiked the repo rate five times by 25 basis points from 6.5 % to 7.75 % levels, reverse repo rates two times from 5.5 % to 6 % and CRR three times from 5 % to 6.5 %. Call rates in the second half of the financial year continued to stay above the repo rate for considerable period of time as liquidity became tight due to hikes in CRR. The ten year yield closed at 8 % levels from 7.40 % levels prevailing at the beginning of the year. One year corporate bond yields moved in double digit to 10.50 % with the spread between one year Government Securities and Corporate bond moving to 275 basis points. The ten year corporate bond yields traded in the range of 10 % - 10.25 % levels, a spread of 200 basis points over Government securities of similar maturity.

FUTURE OUTLOOK:
EQUITY AND BALANCED FUNDS

The GDP growth rate for FY08 is estimated in the region of 8-9%, which should continue to maintain its status as one of the fastest growing economies in the world. However, industrial growth decelerated to around 9.8% level in June'07. For two consecutive months the industrial production numbers have seen moderation. Although capital goods production - up 29% in June'07 - remained strong, the deceleration was due to the slowdown in the interest rate-sensitive sectors. The Industrial growth over the next few months is expected to be in the region of 8-10%. The services sector is expected to again grow at 10% plus in FY08 and the evidence of that is in the continued uptrend in sectors like telecom, insurance, media, in-bound tourism etc. The agriculture sector should also grow at a moderate positive rate thanks to the good rainfall in the ongoing monsoon season.

The corporate results for the quarter ended June'07, were good and continued to surprise positively. Sectors like industrial capital goods, telecom, energy, financials and materials reported good results. While the IT sector results disappointed primarily because of appreciation in the Indian Rupee. Though, for many companies in other sectors, profits were buoyed by currency gains on foreign exchange loans. We expect that while sectors focused on infrastructure and domestic consumption would continue to record robust growth in the current fiscal year, export oriented sectors and interest rate sensitive sectors would have a near term challenge at their hands.

The Indian Mutual Funds have raised around USD 2 bn in their equity schemes in the last couple of months. The common Indian person is very much under-invested in equities and we believe that over a period of time, the percentage of India's savings going into equities would nudge up. Already Systematic Investment Plans of Mutual Funds in India have started attracting equity inflows at the run rate of around USD 125 mn/month.

In the current calendar year 2007, India has seen one of the strongest FII flows amongst all emerging markets. Although India still trades at premium to most of its emerging market peers given its above average growth and Return on Equity (ROE), the valuation gap has narrowed down of late. India witnessed record FII flows in July'07, with FIIs being massive buyers in the cash equities segment to the tune of around USD 5.8 bn, which took the cumulative FII buying in the cash equities segment in India in the current calendar year so far (Jan-Jul'07) to around USD 10.2 bn (as against FII investments of USD 8 bn in the cash equities segment in India for the whole of calendar year CY06). Clearly, these are very strong flows to the Indian bourses. Such a massive pouring of money into India by FIIs indicate that there are lots of new set of investors who are realizing the importance of investing in India in the overall global economic landscape.

In the near term, the biggest concern for the Indian equity market as well as global equity markets stems from the implications of deepening US sub prime crisis. If the crisis worsens further, in the short term, we could see liquidity outflows across emerging markets, including India. However, over the medium to longer term, we believe that global investors would want a bigger pie of higher growth economies and India stands a good chance to attract a decent share of those flows. In the last few years, directionally, we have seen several global equity markets move almost in tandem, though the pace of movement has differed. The different pace of growth in equity markets may be attributed to the differential rate of growth being witnessed in different regions of the world. The US sub-prime crisis may further reinforce the feeling that a part of the global liquidity should be diversified away from US. Sovereign funds of various countries like Singapore, Saudi Arabia, Kuwait, China and other oil or trade surplus nations are increasingly investing into equities of various forms – both listed and private equity and are an important source of global liquidity today. The new sources of funds could redirect some of their investments in US and other markets at risk into emerging markets and other stable oil/resource rich countries.

BSE Sensex, as of 7th August quotes at around 18 times FY08e earnings, which is at a slight premium to its long term average of 16 times forward earnings. Strong earnings growth, breadth of sectors & stocks to invest and better return ratios will help the Indian market continue to get above average valuations.

DEBT OUTLOOK

Indian rupee has appreciated due to stock market related Inflows and External Commercial borrowings (ECB) money coming back into the system. The rupee touched a high of 40.30 levels from 43 levels prevailing at the beginning of the current fiscal year against the US dollar. RBI has been intervening in the forex market to control rupee appreciation. As the reverse repo was capped at Rs 3000 Crores, call rates came down to 0.02 % levels as liquidity in the system increased due to RBI Intervention. RBI forex reserves are around US\$ 220 billion from 192 billion prevailing at the beginning of this fiscal. To sterilise the rupee inflow due to forex intervention, RBI has done Market Stabilisation Scheme (MSS) to the extent of Rs. 40000 Crores, hiked CRR by 100 basis points to suck out liquidity to the extend of Rs 32000 Crores. RBI also bought restriction on ECB borrowing of corporates. Due to these developments, corporate bonds yields have moved up with the one year rates trading at 9 % levels and 10 year corporate bond yields trading at 10 % levels.

Banks have considerably drained down their SLR holding in the last 3 years. Banks have abstained from purchasing Government securities as they had excess SLR and as lending rates was attractive compared with buying G sec. Most of the banks have now come near the statutory limits of 25 %. Banking sector demand along with Insurance companies demand has led to the ten year

Government securities yields fluctuating between 7.80 % - 8.25 % levels. Statutory demand will intensify as bank deposit accretion is happening at a robust pace.

U.S yields are trending lower, due to sub prime problem spills over into the real economy, GDP growth is expected to average around 2 – 2.5 % for the current year, and credit spreads are expected to widen as banks become choosy when they lend to corporates and individuals. This will lead to sub par growth in the U.S, which could necessitate cuts in fed fund rates in the coming quarters. Due to these developments, the 2 year government securities yields are trading around 4.20 % levels and the ten year rates are trading around 4.70 % levels. Commodities are showing a downward trend due to unwinding of speculative positions.

In India, credit demand is expected to be robust in the coming months. Corporate bond yields are expected to be range bound or move slightly higher due to expected tightness in liquidity. Since, global markets have turned bond market positive, the rise in yields could be capped. G sec yields are expected to be range bound due to SLR demand; rates are expected to move up only if SLR is cut from 25 %. Yields can then move up by 50 basis points from the current level of 7.92 % levels.

A note on the scheme wise investment objective, policy of investment and performance has been appended at the end of the trustee report.

LIABILITIES AND RESPONSIBILITIES OF TRUSTEES

Tata Mutual Fund was constituted as a Trust in accordance with the provisions of the Indian Trust Act 1882 and is registered as a Trust under The Indian Registration Act 1908. Tata Sons Limited and Tata Investment Corporation Limited are the Sponsors and the Settlers have made an initial contribution of Rs 1 lakh towards setting up of Tata Mutual Fund. The Trustee i.e Tata Trustee Company Private Limited is accountable for the funds and property of the respective schemes of Tata Mutual Fund which it holds in trust for the benefit of the unitholders in accordance with the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 and the provisions of the Trust Deed. The Trustee Company has appointed Tata Asset Management Limited to manage the schemes of Tata Mutual Fund. The Trustee Company is responsible to ensure that the asset management company fulfils the various functions assigned to it under the Securities & Exchange Board of India (Mutual Fund) Regulations 1996 and the Trust Deed .

(II) CONSTITUTION OF THE FUND

Tata Mutual Fund (TMF) has been constituted as a Trust in accordance with the provisions of The Indian Trusts Act, 1882 (2 of 1882) and is registered as a Trust under The Indian Registration Act, 1908. TMF was registered with the Securities & Exchange Board of India (SEBI) and commenced operations by launching its first scheme on 30th August, 1995. Tata Sons Limited (TSL) and Tata Investment Corporation Limited (TICL), are the Settlers and Sponsors of Tata Mutual Fund. TSL and TICL, have made an aggregate initial contribution of Rs.1 lakh towards setting up of TMF. Tata Trustee Company Private Limited is the Trustee Company and Tata Asset Management Limited (TAML) is the Asset Management Company of Tata Mutual Fund.

The shareholding pattern of Tata Asset Management Ltd (TAML) and Tata Trustee Company Private Ltd (TTCPL) as on 31st March, 2007:-

	TAML	TTCPL
Tata Sons Ltd	67.91%	50%
Tata Investment Corporation Limited	32.09%	50%

The main object of TMF is to formulate and devise various collective Schemes of savings and investments from the general public and to provide them with reasonable income / returns and ensure liquidity of investments as applicable, for the Unitholders.

We also take this opportunity to express our sincere thanks to you, our valued customers as also the various regulatory authorities, and our co-partners in Mutual Fund operations viz. our Intermediaries, Agents, Bankers, Auditors, Solicitors, Registrars, Custodians and Brokers for their valuable support throughout the years.

With best wishes,

**On behalf of the Board of Directors of
Tata Trustee Company Private Limited**

Susim M. Datta
Director

Date : 29th August, 2007

Encl. Schemewise Audited Accounts and Auditor’s Report

NOTE

The price and redemption value of the units, and income from them, can go up as well as down with the fluctuations in the market value of its underlying investments.

Note:

- 1) A copy of the Annual Report of the Fund will be posted to all the unitholders. In case of non-receipt a Unitholder on request can obtain from the Fund a copy of the Annual Report of the scheme in which he has invested.
- 2) The Annual results have been placed by the Tata Asset Management Ltd. before the Board of the Trustee Company and approved by the Trustee Company on 12th June, 2007.
- 3) The Annual Report of the Asset Management Company has been displayed on our website www.tatamutualfund.com. A copy of the same shall be provided to the unitholders on request on payment of nominal fees, if any.
- 4) On a written request, present and prospective unitholders /investors can obtain copy of the Trust Deed, the annual report (at a price)and the text of the relevant scheme.

Abbreviations of the Scheme Name:

TSIPF1 - Tata SIP Fund Scheme 1 this scheme has two options namely Dividend Option and Growth Option. Dividend option is denoted by D, Div and Growth Option is denoted by G, GR.

INVESTMENT OBJECTIVES, POLICY OF INVESTMENT AND PERFORMANCE

Tata SIP Fund Scheme I :

The Primary Investment Objective of the Scheme is to achieve a long term growth. The scheme seeks to achieve investment objective by investing systematically in the Equity /Equity related instruments. However there can be no assurance that the investment objective of the scheme will be realized, as actual market movements may be at variance with anticipated trends.

Performance at a glance (% as on 31st March, 2007)

	Since Inception
Tata SIP Fund Scheme I	0.60 (5/03/07)
BSE SENSEX	5.29
Benchmark SIP Returns	0.56

Performance at a glance (% as on 31st July, 2007)

	Since Inception
Tata SIP Fund Scheme I	4.26 (5/03/07)
BSE SENSEX	25.26
Benchmark SIP Strategy Returns	4.21

Return for period upto 1 year is absolute and for more than one year is compounded annualised.

Past performance may or may not be sustained in future.

It is assumed that instead in investing into Tata SIP Fund Scheme I (the Scheme), the investor is opting to keep entire money (i.e amount which otherwise would have been available for investment in the Scheme) in the bank account and is withdrawing this amount in 36 equal monthly installment to buy sensex. It is assumed that the funds kept in Bank account will yield return @ 6% p.a. The purpose of this illustration is to explain the advantage / disadvantage of investing in the scheme vis a vis opting for simple Systematic Investment Plan.

As on 31 July 2007, the combined returns earned on equity and bank account is 4.21%.

AUDITORS' REPORT**TO THE BOARD OF DIRECTORS OF
TATA TRUSTEE COMPANY PRIVATE LIMITED**

We have audited the attached Balance Sheet of **TATA MUTUAL FUND – TATA SIP FUND SCHEME-1** ("the Fund") as at 31st March, 2007 and the Revenue Account of the Fund for the period from 15th January, 2007 (date of commencement) to 31st March, 2007, annexed thereto, and report thereon as follows:

- a) The Balance Sheet and the Revenue Account dealt with by this report have been prepared in accordance with the accounting policies and standards specified in the Ninth Schedule of the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996. These financial statements are the responsibility of the Managements of the Trustee and the Asset Management companies.
- b) Our audit was conducted in accordance with the generally accepted auditing standards in India. These Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by the Management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
- c) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- d) The Balance Sheet and the Revenue Account dealt with by this report are in agreement with the books of account of the Fund.
- e) Non - traded securities have been valued in accordance with the guidelines notified by the Securities and Exchange Board of India. In our opinion, these valuations are fair and reasonable.
- f) In our opinion and to the best of our information and according to the explanations given to us, the said accounts give the information required by the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 and give a true and fair view in conformity with the accounting principles generally accepted in India:
 - (i) in the case of the Balance Sheet of the state of affairs of the Fund as at 31st March, 2007 and
 - (ii) in the case of the Revenue Account, of the surplus of the Fund for the period from 15th January, 2007 (date of commencement) to 31st March, 2007.

SCHEDULE VIII: Statement of significant accounting policies of Tata SIP Fund Scheme - 1 (TSIPF1) and Notes forming part of the Accounts for the period from 15th January, 2007 (date of commencement) to 31st March, 2007.

A. SIGNIFICANT ACCOUNTING POLICIES

1. INCOME RECOGNITION:

- a) Dividend income is accounted on ex-dividend dates.
- b) Profit or loss on sale of investments is recognised on trade dates. The cost of investments sold is determined on "weighted average cost basis".
- c) Other income of a miscellaneous nature is accounted when it is received on grounds of prudence.

2. EXPENSES:

- a) All expenses are accounted on an accrual basis.
- b) Expenses not identifiable with any particular scheme are generally allocated to the schemes in proportion to their net assets.

3. DEFERRED REVENUE EXPENDITURE:

This being a close ended hybrid scheme the initial issue expenses are written off equally over the close ended period viz. 3 years. The unamortised portion of the initial issue expenses Rs. 176,016,312/- is included in the NAV.

4. INVESTMENTS:

- a) Purchase and sale of investments are recorded on the date of the transaction, at cost and sale price respectively, after considering brokerage, commission, stamp charges and any charge customarily included in the broker note.
- b) Rights entitlement pending formal allotment is accounted as investments at issue price plus acquisition cost, if any.
- c) Bonus entitlement is recognised on ex-bonus dates.

5. PORTFOLIO VALUATION FOR NAV CALCULATION

i. Traded Securities :

Traded Securities are valued at year-end closing market rates on the principal stock exchange on which the security is traded (excluding accrued interest, if any, which is accounted separately).

In the absence of a quoted price on the valuation date for equity instruments, the last available quoted price within a period of Fifteen days prior to the valuation date is used for valuation purposes.

ii. Thinly Traded Securities :

Thinly traded equity / equity related securities are those securities whose trade in a month, are both less than Rs.5 lacs and the total volume is less than 50,000 shares. These have been valued on the basis of valuation principles laid down by The Securities and Exchange Board of India (SEBI) for the same.

iii. Non-Traded Securities :

Non-Traded/Thinly Traded Debt Securities/Asset Backed Securities of over 182 days to maturity are valued in good faith on a yield to maturity basis by Tata Asset Management Limited (TAML).

The non – traded debt securities have been classified by TAML as "investment grade" and "below investment grade" as at 31st March, 2007. The values applied by TAML for "investment grade" debt securities are on the basis of valuation yields determined by CRISIL (Credit Rating Information Services of India Limited). In the opinion of TAML, these yields determine fair and reasonable values and such basis of valuation is approved by the Tata Trustee Company Private Limited. The aggregate fair value of "investment grade" debt securities as at 31st March, 2007 is Rs. 532,578,531/-. The value of "below investment grade" debt securities as at 31st March, 2007 is Rs. Nil. The balances existing as maturity proceeds due but not received and fully provided Rs. Nil.

These securities have been valued on the basis of valuation principles laid down by SEBI for the same.

Non – traded debt securities with residual maturity of upto 182 days are valued on the basis of amortisation (cost plus accrued interest till the beginning of the day plus the difference between the redemption value (inclusive of interest) and the cost spread uniformly over the remaining maturity period of the instrument).

This basis of valuation is in accordance with SEBI guidelines.

iv. Money Market Securities :

Money Market instruments which are not traded are valued on the basis of amortisation (cost plus accrued interest till the beginning of the day plus the difference uniformly amortised over the remaining maturity period of the instrument).

For Money Market Instruments which are traded, the difference between the traded price and the cost plus accrued interest is booked as unrealised gain or loss on that day and from the next day the unrealised gain or loss is amortised over the remaining period to maturity in such a manner that on the maturity date, the value of security matches the face value.

v. Pass-Through Certificates :

Pass-Through Certificates (non coupon bearing) are valued at discounted value of future cash inflows whereas coupon bearing Pass-Through Certificates are valued at cost.

vi. Reverse Repo Investment :

Investment bought on Repo basis are valued at cost.

vii. Unrealised Gain / Loss in value of Investments :

Following the issue of the Guidance Note on Accounting for Investments in the Financial Statements of Mutual Funds by the Institute of Chartered Accountants of India (pursuant to the Eleventh Schedule of SEBI Regulations), the appreciation / diminution in investments is worked out on individual basis. The value of diminution as at the year end is reflected in the Revenue Account. Unrealised appreciation as at the year end is also routed through the Revenue Account but is reduced from the distributable income at the time of income distribution.

6. INCOME EQUALISATION RESERVE :

Income Equalisation Reserve is being maintained by crediting / (debiting) the equalisation account in respect of sale / (repurchase) of units by an appropriate amount which represents the distributable income at the time of sale / (repurchase). It is reflected in the Revenue Account after the net excess / deficit of the scheme is determined.

7. UNIT PREMIUM RESERVE AND ACCUMULATED LOAD :

On repurchase / redemption / resale of units, the difference between the unit face value and the NAV (after adjusting income equalisation reserve) is disclosed as "Unit Premium Reserve", while the difference between the NAV and the repurchase / resale price is disclosed as "Accumulated Load" which is not considered for computation of the Net Asset Value. The accumulated load of Rs. Nil is utilised by the Fund to cover the cost of raising / redeeming units on a continuous basis by way of providing redemption / distribution related services to the Fund relating to the sale, promotion and marketing of the scheme and costs associated with liquidating the Fund's investment securities, including payments for postage, application processing, disseminating NAV related information etc and also payments to brokers for their services in connection with the distribution / redemption of the units.

B. Notes attached to and forming part of the accounts for the period from 15th January, 2007 (date of commencement) to 31st March, 2007

1. The aggregate value of purchase and sale of investments for the period from 15th January, 2007 to 31st March, 2007 expressed as a percentage of average weekly net assets is as under :

Particulars	As at 31-3-07	
	Value*Rs.	%
Aggregate value of Purchase	33,256,542,796	1099.87
Aggregate value of Sale	30,423,331,133	1006.17

*The amounts do not include reverse repo transactions.

2. Investments made in group / associate companies is Rs. Nil.
3. Investments made by the schemes of Tata Mutual Fund in companies or their subsidiaries (to the extent of information available) that have invested more than 5% of the net assets as at 31st March, 2007 of any scheme of the fund, in terms of Regulation 25 (11).
