   In the absence of a quoted price on the valuation date for debt securities (other than Government Securities), the last available quoted price within a period of fifteen days prior to the valuation date is used for valuation purposes.

   ii. **Thinly Traded Securities :**
   Thinly traded equity / equity related securities are those securities whose trade in a month, are both less than Rs.5 lacs and the total volume is less than 50,000 shares. These have been valued on the basis of valuation principles laid down by SEBI for the same.
   Debt securities (other than Government Securities) are considered as thinly traded if on the valuation date, there are no individual trades in those securities in marketable lots (presently Rs.5 crores) on the principal stock exchange or any other stock exchange. These have been valued on the basis of valuation principles laid down by SEBI for the same.
   iii. **Non-Traded Securities :**
   Non – traded debt securities of over 182 days to maturity are valued in good faith on a yield to maturity basis by Tata TD Asset Management Private Limited (TTDAMPL).
   The non – traded debt securities have been classified by TTDAMPL as "investment grade" and "below investment grade" as on 30th September 2003. The values applied by TTDAMPL for "investment grade" debt securities are on the basis of valuation yields determined by CRISIL (Credit Rating Information Services Of India Limited). In the opinion of TTDAMPL, these yields determine fair and reasonable values and such basis of valuation is approved by the Tata TD Trustee Company Private Limited. The aggregate fair value of "investment grade" debt securities as on 30th September 2003 is given below:
