## **REPORT OF THE TRUSTEE TO THE UNITHOLDERS FOR THE YEAR ENDED 31st MARCH, 2010**

**Dear Unitholder,**

It gives us great pleasure to enclose schemewise audited financials as on 31<sup>st</sup> March, 2010. This Report is in continuation of the 'Performance and Portfolio of the Schemes' Report as on 31<sup>st</sup> March, 2010 published by us earlier.

### **1. Scheme Performance, Future Outlook and Operations of the Schemes**

**The year that was:**

**Equity:**

At the start of the financial year FY10, the world was still reeling from the after effects of the Lehman collapse in end-2008 and the global financial crisis. In response to the global situation, the Indian government had unleashed a set of fiscal and monetary measures to provide stimulus to the economy in such a tough phase. In Apr'09, in its Annual Monetary policy announcement, the RBI announced a further cut in repo (rate at which it lends) and reverse repo (rate at which it absorbs excess cash) by 25 basis points to 4.75% and 3.25% respectively.

Meanwhile, the Indian equity markets saw significant recovery in line with the improving global markets and with improving growth prospects in the domestic economy. Emerging markets including India bottomed out in Mar '09 with BSE Sensex moving from a level of 9709 (Mar 31, '09) to close at 17528 (Mar 31, '10), a gain of 80.5% during FY10. The CNX Mid cap index did better than the broader BSE Sensex and the BSE Small cap index out performed the Mid cap index thus reflecting improved risk appetite in the system. The valuation differential which had increased between the large cap stocks and the smaller stocks during the fall got bridged to some extent in the rally during the year. As has been seen in the past rallies deeply under valued stocks have given the highest returns and needless to say most of these have been in the small and mid cap category. After the initial up trend the markets moved into a range from September '09 with uncertainty on China's growth, concerns on sovereign default in Dubai, parts of Europe etc. However the market has been displaying strength by remaining near the upper end of the band most of the time and not having corrected below approximately 15500. During the year FIIs invested about \$4.5Bln in the Indian market a major reversal from the last year. There has been good money flow into emerging markets given the high liquidity in the global financial system and as risk appetite improved with economic recovery.

The Indian economy bounced back extremely well from the global economic crisis which hit most countries in 2008. Even in FY09, amidst the global economic crisis, our economy had grown by 6.7%, which was quite commendable especially when so many developed economies went through a recession. During FY10, the Indian economy continued to recover, with the Indian GDP growing at a rate of 6.7% for the period Apr – Dec'09, and when the final numbers are out for FY 10(Apr'09-Mar'10), it is expected to grow by 7% plus. Also, optimism on Indian economic growth is back, with the Economic Advisory Committee of the Prime Minister of India expecting the economy to grow at 8% plus in FY11.

An extremely significant event during the period under review was the comeback of Congress led UPA, to power at the Centre, in May '09. In fact the month of May '09 would go down in history as one of the best months for the Indian equity market with both the key indices gaining 28%. UPA, with a decisive mandate and unencumbered by the restraining hand of the Left Parties came in with a clear focus on growth and development with special emphasis on the rural sector and faster execution in infrastructure development. In order to keep a check on the high fiscal deficit, the Indian government also announced an aggressive divestment plan which would be led by its paring its holdings in Public Sector Units and would also seek to list all unlisted public sector undertakings with positive net worth and which have been profitable in the last three years.

A big challenge for the Indian economy last year was high inflation, with the Mar'10 figure of Wholesale Price Index (WPI) growing at 9.9% y-o-y. Inflation was benign during the first few months of FY10, but started rising from July'09 onwards and led by food articles, remained at an elevated level towards the end of FY10. Though partly high inflation can be ascribed to supply side issues, the Reserve Bank of India has taken some significant steps since Jan 2010 to tackle this, including increasing the cash reserve ratio (CRR) by 100 bps to 6% in order to withdraw the excess liquidity from the banking system and also raise repo and reverse repo rates by 50 bps to 5.25% and 3.75% respectively, by end-Apr'10.

The budget speech presented to parliament on Feb 26, 2010 focused on continued growth with emphasis on consumption led by India's demographic dividend and thrust on infrastructure investments. The Government continued with its focus on agriculture, rural and social sector investments with increased planned allocation into infrastructure related sectors. The Government affirmed its intent to reduce the fiscal deficit for FY 11 to 5.5% of GDP and further to 4.8% (FY12) and 4.1% (FY13). In terms of increase in revenue sources, the FY11 divestment target for the Public Sector Enterprises is INR 400 bn vis-à-vis' the divestment achievement of INR 250 bn in FY10. The 3G auction which was budgeted to collect INR 350 bn for the government in FY11 has now netted about INR 670 bn as on May 19, '10, (last date of the auction), which should help the Government in achieving its fiscal deficit number for FY11. Also in order to broad base tax collection, additional services have also been brought under the ambit of Service Tax. Robust sentiments on the back of a Union Finance Budget saw the S&P upgrading of India's rating outlook from negative to stable while affirming both long-term and short-term sovereign ratings at BBB- and A3.

A quick analysis of Q4FY 10 corporate results shows that broadly the results of corporate India have been in line with expectations, and the robust growth in revenue figures of companies pretty much captures the strong economic growth in India, that has bounced right back after the slowdown witnessed in late-2008 and early-2009. The first two quarters of the year were like an extension of the scenario that

unfolded in the second half of the previous year. Most economic indicators had turned for the better for example the index of industrial production growth. However the slow recovery and the high base led to weak corporate performance in the first half of the year. But the second half was just the opposite. Corporate performance recovered strongly on the back of the global recovery as well as the boost in consumption from the government through fiscal and monetary measures. The low base of last year also played a role in the growth looking much better than expected. Given the current trends we expect the economy to continue to grow at a high pace in the current year as well if there is no further damage to global economic recovery from the western world.

**Debt:**

The global economy after suffering one of the worst recessions in FY 2008-2009, started to recover in FY 2009-2010, on the back of massive stimulus by governments across the major economies. However, compared to developed economies, the emerging economies fared well. The GDP growth in India, which had slumped to 6.7% during 2008-2009, grew by 7.4% in FY 2009-10.

The financial market during 2009-10 was characterised by prevalence of comfortable liquidity conditions in money markets despite large government borrowing programme and rising pressure on medium to long-term government bond yield on the back of rising inflationary pressure.

During the year the headline Wholesale Price Index (WPI) inflation, firmed up significantly. While the initial inflationary pressure was largely due to rising food and fuel prices, reflecting the impact of a deficient monsoon on agricultural output and the increase in international crude prices, in the second half of the year, the inflation became increasingly generalized due to persistent supply side pressures. This was evident from the acceleration of inflation in non-food manufactured products from -0.4% in November 2009 to 4.7% in March 2010. These inflationary conditions, coupled with the stronger growth, forced RBI to reverse the accommodative monetary policy. RBI started the reversal of its accommodative policy by hiking CRR by 75 basis points and Repo and Reverse Repo by 25 basis points in Q4 of FY 2009-10.

During the year due to ample liquidity, the call rate hovered around the lower range of the Liquidity Adjustment Facility (LAF) corridor throughout the year. However, longer end of the yield curve continued to shift upwards indicating market concerns of fiscal deficit and rising inflationary pressures. While the medium to long-term bond yields, in general, moved up during the year, reflecting inflation and fiscal deficit concerns, the short-term yield softened till Q3 of 2009-10, reflecting the surplus liquidity conditions, followed by a hardening trend in Q4 as the surplus liquidity reduced and there was a general shift in the interest rate environment. The benchmark 10 year yield which was at 7.01% at the beginning of the year touched at high of 8% in Q4 of 2009-10, before closing at 7.84% towards the end of the year. The corporate bonds were stable, with 5 year AAA yield averaged around 8.25% and closed the year at 8.55%. However, the spread between the 5 Year AAA bond, which had hit a high of around 400 bps at the height of credit crisis in FY2008-09, narrowed down considerably to close the year at 101 bps,.

**Tata MIP Plus Fund:** (Monthly income is not assured and is subject to the availability of distributable surplus)

Outperformed the benchmark due to aggressive investment approach based on robust economic growth and world wide easy liquidity in the system.

**Performance at a glance (% as on 31<sup>st</sup> March, 2010)**

	Last 1 year	Last 3 years	Last 5 years	Since Inception (17/03/04)
Tata MIP Plus Fund	17.20	8.16	7.67	7.00
Crisil MIP Blended Index	14.25	8.47	8.41	7.43

**Past performance may or may not be sustained in future.**

Return for period upto 1 year is absolute and for more than one year is compounded annualised. Returns are for growth option.

**FUTURE OUTLOOK:**

**EQUITY**

In the near term, global issues like central bank policy in developed nations and speed of withdrawal of stimulus measures by governments will concern markets. Sovereign debt issues in Greece, Ireland, Italy, Portugal and Spain etc. will continue to impact overall risk appetite of investors across the world. Amongst the domestic issues, monsoon prediction from the Indian Metrological Department suggests normal rainfall. Indian companies continue to show robust revenue buoyancy but the main challenge for them would be to maintain their margins in light of high inflation and renewed wage hike pressures. A significant contribution to forecasted earnings growth in the next financial year comes from the beaten down sectors like real estate and commodities. The commodities space has high linkages to the global economy and therefore a strong economic recovery is critical for the sector to do well and contribute as expected. Also, even though our economy is relatively less affected by global events our markets are integrated with global markets and thus India is not decoupled completely.

The government has taken some bold steps to reduce fiscal deficit like partially de controlling the petroleum sector. In this regard the huge sum collected through the 3G and Broadband Wireless Association (BWA) auctions would help significantly, as also the proceeds from divestment of profitable public sector undertakings. Therefore the macro situation seems to be getting better helped also by moderate

commodity prices. In such a scenario Indian companies should perform and grow at a fast pace. However, valuations may not get re-rated in the near term with lingering global economic uncertainties. Such a scenario would offer a number of opportunities to invest with strong growth yet reasonable valuation.

In the medium to long term, we remain sanguine on India's growth prospects, though India's challenge would be to keep inflation under leash without hurting growth. The four drivers of economic growth in India – consumption growth led by India's demographic dividend, thrust on infrastructure roll out, financial intermediation, and India's leading position in the outsourcing markets are very much in place. All these structural forces are expected to play out in the medium to long term. Therefore notwithstanding any short term volatility in the Indian stock market, there is no material change to our broad Fund strategy, though we may continue to restructure the portfolio on a stock specific basis depending upon emerging opportunities.

## **DEBT OUTLOOK**

Going ahead, we expect the RBI to continue with its policy of normalizing the accommodative monetary policy by hiking the Repo and Reverse Repo further during FY 2010-11. As a result of this, we expect that the easy liquidity conditions that prevailed in last year expected to reverse and the short term rates to move upward. However, the long term yield curve is expected to remain steady at higher levels in the initial period, before trending downwards in the later part of the year, as inflation cools off and the majority of the borrowing programme gets completed.

## **FUNDS UNDER MANAGEMENT - OPERATIONS**

Tata Mutual Fund today manages thirty-nine open ended schemes of which sixteen are equity schemes, two are balanced schemes, twenty are debt schemes, one is Equity Linked Saving Scheme (ELSS) and nine are close ended schemes of which one is an equity scheme, three are balanced schemes, three are debt schemes, and two are Equity Linked Saving Scheme (ELSS). The average net assets under management were around Rs 21935.17 crores as on 31/03/10 which have increased from Rs. 17029.87 crores as on 31/03/09 showing an increase of Rs 4905.30 crores. The AMC's continued focus on marketing and sales efforts has been showing good results and the total average net assets under management as on 31/05/10 were Rs 22673.43 crores.

## **2. Brief Background of Sponsors, Trust, Trustee Co. and Asset Management Company (AMC).**

### **a) Tata Mutual Fund**

Tata Mutual Fund (TMF) was set up as a Trust by the Sponsors and the Settlers, Tata Sons Limited (TSL) and Tata Investment Corporation Limited (TICL) on 9<sup>th</sup> May, 1995 with Tata Trustee Company Limited as a Trustee in accordance with the provisions of the Indian Trusts Act, 1882 and is duly registered under the Indian Registration Act, 1908. The Trustee has entered into an Investment Management Agreement dated 9<sup>th</sup> May, 1995 with Tata Asset Management Limited to function as the Investment Manager for all the Schemes of Tata Mutual Fund (TMF). TMF was registered with SEBI on 30<sup>th</sup> June, 1995.

### **b) Tata Trustee Company Limited**

The Trustee is the exclusive owner of the Trust Fund and holds the same in trust for the benefit of the unitholders. The Trustee has been discharging its duties and carrying out the responsibilities as provided in the Regulations and the Trust Deed. The Trustee seeks to ensure that the Fund and the Schemes floated there under are managed by the AMC in accordance with the Trust Deed, the Regulations, directions and guidelines issued by the SEBI, the Stock Exchanges, the Association of Mutual Funds in India and other regulatory agencies.

### **c) Asset Management Company**

Tata Asset Management Limited (TAML) is a company incorporated under the Companies Act, 1956 on 15<sup>th</sup> March, 1994, having its Registered Office at Mafatlal Centre, 9<sup>th</sup> Floor, Nariman Point, Mumbai – 400 021. TAML has been appointed as the Asset Management Company for Tata Mutual Fund by the Trustee vide Investment Management Agreement (IMA) dated 9<sup>th</sup> May, 1995, and executed between TTCL and TAML.

The Trustee Company has appointed TAML as the Asset Management Company for TMF. The shareholders of TAML are TSL and TICL. TAML has entered into an Investment Management Agreement dated 9<sup>th</sup> May, 1995 with TTCL, pursuant to which TAML will run the operations of TMF and manage the assets of TMF's Schemes. TAML, having its registered office at, Mafatlal Centre, 9<sup>th</sup> Floor, Nariman Point, Mumbai – 400 021 is a Company incorporated under the Companies Act, 1956 on 15<sup>th</sup> March 1994 and was approved to act as an Asset Management Company for TMF by SEBI on 30<sup>th</sup> June, 1995. The networth of TAML as on May 31, 2010 is approximately about Rs. 133.41 crores. TAML is currently managing thirty-nine open-ended schemes and nine close ended schemes.

## **3. Investment Objectives of the Schemes**

**TMFP:** An open ended income scheme. (Monthly income is not assured and is subject to the availability of distributable surplus). To provide reasonable and regular income along with possible capital appreciation to its Unitholders.

## **4. Significant Accounting Policies:**

Accounting policies are in accordance with Securities Exchange Board of India (Mutual Fund) Regulations 1996.

**5. Unclaimed Dividend & Redemptions:**

Scheme	Unclaimed Dividend		Unclaimed Redemptions		Total	
	Amount (Rs.)	No. of Investors	Amount (Rs.)	No. of Investors	Amount (Rs.)	No. of Investors
TMPF	0	0	520,648	22	520,648	22

**6. Statutory Information:**

- a. The Sponsors are not responsible or liable for any loss resulting from the operation of the Schemes of the Fund beyond their initial contribution (to the extent contributed) of Rs. 1 lakh for setting up the Fund, and such other accretions / additions to the same.
- b. The price and redemption value of the units, and income from them, can go up as well as down with fluctuations in the market value of its underlying investments.
- c. Full Annual Report shall be disclosed on the website ([www.tatamutualfund.com](http://www.tatamutualfund.com)) and shall be available for inspection at the Head Office of the mutual fund. Present and prospective unit holder can obtain copy of the trust deed, the full Annual Report of the Fund / AMC at a price.

7. Disclosure of Investors Complaints:

**Redressal of Complaints received against Mutual Funds (MFs) during 2009-2010:**

**Name of Mutual Fund : TATA Mutual Fund**

**Total Number of Folios: 1662754**

Com-plaint code	Type of complaint#	(a) No. of complaints pending at the beginning of the year	Action on (a) and (b)									
			(b) No of complaints received during the year	Resolved				Non Action-able*	Pending

**Abbreviations of the Scheme Name:**

TMPF - Tata MIP Plus Fund: (M) – Monthly Dividend, (Q) – Quarterly Dividend, (HY) – Half Yearly Dividend, G – Growth.

## AUDITORS' REPORT

### TO THE BOARD OF DIRECTORS OF TATA TRUSTEE COMPANY LIMITED

We have audited the attached Balance Sheet of **TATA MUTUAL FUND – TATA MIP PLUS FUND** ("the Fund") as at 31st March, 2010 and the Revenue Account of the Fund for the year ended on that date, annexed thereto, and report thereon as follows:

- a) The Balance Sheet and the Revenue Account dealt with by this report have been prepared in accordance with the accounting policies and standards specified in the Ninth Schedule of the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996. These financial statements are the responsibility of the Managements of the Trustee and the Asset Management companies.
- b) Our audit was conducted in accordance with the generally accepted auditing standards in India. These Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and the disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by the Management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
- c) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- d) The Balance Sheet and the Revenue Account dealt with by this report are in agreement with the books of account of the Fund.
- e) Non - traded securities have been valued in accordance with the guidelines notified by the Securities and Exchange Board of India. In our opinion, these valuations are fair and reasonable.
- f) Without qualifying our opinion, we draw attention to Note No. 14 of Schedule VIII Part B wherein the Managements of the Tata Asset Management Limited and Tata Trustee Company Limited have explained their rationale regarding certain Accounting Standards issued by the Institute of Chartered Accountants of India as not being applicable to mutual funds.
- g) In our opinion and to the best of our information and according to the explanations given to us, the said accounts give the information required by the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 and give a true and fair view in conformity with the accounting principles generally accepted in India:
  - (i) in the case of the Balance Sheet, of the state of affairs of the Fund as at 31st March, 2010 and
  - (ii) in the case of the Revenue Account, of the surplus of the Fund for the year ended on that date.

# **TATA MUTUAL FUND**

**Schedule VIII - Statement of significant accounting policies and Notes forming part of the Accounts of Tata MIP Plus Fund (TMPF) for the period ended 31<sup>st</sup> March, 2010.**

## **A. SIGNIFICANT ACCOUNTING POLICIES**

### **1. INCOME RECOGNITION :**

- a) Dividend income is accounted on ex-dividend dates.
- b) Profit or loss on sale of investments is recognised on trade dates. The cost of investments sold is determined on “weighted average cost basis”.
- c) Interest on investments is accounted on an accrual basis. Interest on an investment that is past due for three months is accrued and a full provision is made against all outstanding interest on that investment .
- d) Discount / premium to the redemption value on fixed income securities are amortised on a straight-line basis over the period upto redemption.
- e) Other income of a miscellaneous nature is accounted when it is received on grounds of prudence.

### **2. EXPENSES:**

- a) All expenses are accounted on an accrual basis.
- b) Expenses not identifiable with any particular scheme are generally allocated to the schemes in proportion to their net assets. Investor related expenses viz: Registrar expenses, investor communications, investor meets etc. are allocated to the schemes in proportion to the number of live folios in the schemes.

### 3. INVESTMENTS :

- a) Purchase and sale of investments are recorded on the date of the transaction, at cost and sale price respectively, after considering brokerage, commission, stamp charges and any charge customarily included in the broker note.
- b) Rights entitlement pending formal allotment is accounted as investments at issue price plus acquisition cost, if any.
- c) Bonus entitlement is recognised on ex- bonus dates.
- d) Entitlement on sub-division of shares is recognised on Ex-date.

### 4. PORTFOLIO VALUATION FOR NAV CALCULATION

#### i. **Traded Securities (Other than Floating Rate Debt Securities):**

Traded Securities are valued at year-end closing market rates on the principal stock exchange 'The National Stock Exchange of India Ltd.' on which the security is traded (excluding accrued interest, if any, which is accounted separately).

In the absence of a quoted price on the valuation date for debt securities (other than Government Securities), the last available quoted price within a period of fifteen days prior to the valuation date may be used for valuation purposes as per Securities Exchange Board of India (SEBI).

In the absence of a quoted price on the valuation date for equity instruments, the last available quoted price within a period of thirty days prior to the valuation date is used for valuation purposes.

#### ii. **Thinly Traded Securities (Other than Floating Rate Debt Securities):**

Thinly traded equity / equity related securities are those securities whose trade in a month, are both less than Rs.5 lacs and the total volume is less than 50,000 shares. These have been valued on the basis of valuation principles laid down by The Securities and Exchange Board of India (SEBI) for the same.

Debt securities (other than Government Securities) are considered as thinly traded if on the valuation date, there are no individual trades in those securities in marketable lots (presently Rs.5 crores) on the principal stock exchange or any other stock exchange. These have been valued on the basis of valuation principles laid down by SEBI for the same.

iii. **Non-Traded Securities (Other than Floating Rate Debt Securities):**

- a. Non-Traded/Thinly Traded Debt Securities/Asset Backed Securities of over 182 days to maturity are valued in good faith on a yield to maturity basis by Tata Asset Management Limited (TAML).

The non – traded debt securities have been classified by TAML as “investment grade” and “below investment grade” as at 31<sup>st</sup> March, 2010. The values applied by TAML for “investment grade” debt securities are on the basis of valuation yields determined by Credit Rating Information Services of India Limited (CRISIL). In the opinion of TAML, these yields determine fair and reasonable values and such basis of valuation is approved by the Tata Trustee Company Limited. These securities have been valued on the basis of valuation principles laid down by SEBI for the same.

Non – traded debt securities with residual maturity of upto 182 days are valued on the basis of amortisation (cost plus accrued interest till the beginning of the day plus the difference between the redemption value (inclusive of interest) and the cost spread uniformly over the remaining maturity period of the instrument).

This basis of valuation is in accordance with SEBI guidelines.

- b. **Valuation of non traded/thinly traded debt securities with floating rate of interest upto 182 Days to the Interest Reset Date/Maturity Date :**

The non-traded / thinly traded floating rate debt securities with a residual maturity / next reset date upto 182 days are valued on the basis of amortisation (cost plus accrued interest till the beginning of the day plus the difference between the redemption value and the cost spread uniformly over the remaining maturity / interest reset period of the instruments) in the absence of any other standard benchmarks in the market.

- c. **Floating Rate Debt Securities with Put/Call options :**

The floating rate debt securities with put/call options shall be valued in terms of the Valuation Guidelines specified above taking into consideration the next interest rate reset date instead of the final maturity date in the absence of any other guidelines from SEBI.

The aggregate fair value of these non-traded “investment grade” debt securities as at 31<sup>st</sup> March, 2010 is Rs.78,307,951/- (previous year Rs.85,615,468/-). The scheme does not invest in “below investment grade” debt securities. These balances exclude redemption proceeds due but not received and fully provided Rs.Nil (previous year Rs. Nil).

iv. **Money Market Securities :**

Money Market instruments which are not traded are valued on the basis of amortisation (cost plus accrued interest till the beginning of the day plus the difference uniformly amortised over the remaining maturity period of the instrument).

For Money Market Instruments which are traded, the difference between the traded price and the cost plus accrued interest is booked as unrealised gain or loss on that day and from the next day the unrealised gain or loss is amortised over the remaining period to maturity in such a manner that on the maturity date, the value of security matches the face value.

**v. Investment in Reverse Repo :**

Investment bought on 'Repo' basis are valued at cost plus accrued interest.

**vi. Investment in CBLO:**

CBLO investments are valued at cost plus amortisation.

**vii. Government Securities :**

Government securities are valued at the prices released by CRISIL, which is currently the only approved agency suggested by Association of Mutual Funds in India (AMFI) and approved by Securities Exchange Board of India Ltd ( SEBI ).

**viii. Unrealised Gain / Loss in value of Investments :**

Following the issue of the Guidance Note on Accounting for Investments in the Financial Statements of Mutual Funds by the Institute of Chartered Accountants of India, the appreciation / diminution in investments is worked out on individual basis. The value of diminution as at the year end is reflected in the Revenue Account. Unrealised appreciation as at the year end is also routed through the Revenue Account but is reduced from the distributable income at the time of income distribution.

**ix. Derivatives :**

Traded derivatives are valued at year-end closing market rates on the principal stock exchange on which the security is traded. On an ongoing basis, in the absence of a quoted price on the valuation date for derivatives, the last available quoted price within a period of thirty days prior to valuation date is used for valuation purposes.

Non – traded derivatives are valued in good faith by Tata Asset Management Limited on the basis of valuation principles laid down by SEBI.

**5. INCOME EQUALISATION RESERVE :**

Income Equalisation Reserve is being maintained by crediting / (debiting) the equalisation account in respect of sale / (repurchase) of units by an appropriate amount which represents the distributable income at the time of sale / (repurchase). It is reflected in the Revenue Account after the net excess / deficit of the scheme is determined.

**6. UNIT PREMIUM RESERVE AND ACCUMULATED LOAD :**

On repurchase / redemption / resale of units, the difference between the unit face value and the NAV (after adjusting income equalisation reserve) is disclosed as "Unit Premium Reserve", while the difference between the NAV and the repurchase / resale price is disclosed as "Accumulated Load" which is considered for computation of the Net Asset Value. The accumulated load of Rs.830,867/- (previous year Rs.Nil) is utilised by the Fund to cover the cost of raising / redeeming units on a continuous basis by way of providing redemption / distribution related services to the Fund relating to the sale, promotion and marketing of the scheme and costs associated with liquidating the Fund's investment securities, including payments for postage, application processing, disseminating NAV related information etc. and also payments to brokers for their services in connection with the distribution / redemption of the units and an amount of Rs. 2,369/- representing exit load in excess of 1% is transferred to "Other Income" in terms of SEBI Circular dated 30<sup>th</sup> June, 2009. The utilisation of the load reserve is disclosed in "Accumulated Load" account in Schedule II.

**B. Notes attached to and forming part of the accounts for the period ended 31<sup>st</sup> March, 2010.**

1. The aggregate value of purchases and sales (including redemptions) of investments for the year ended 31<sup>st</sup> March, 2010, expressed as a percentage of average net assets is as under :

Particulars	As at 31-3-10		As at 31-3-09	
	Value* Rs.	%	Value* Rs.	%
Aggregate value of Purchases	3,396,986,325	755.22	1,739,229,198	477.32
Aggregate value of Sales (including redemptions)	3,335,954,062	741.66	1,793,502,330	492.21

\* The amounts do not include CBLO and reverse repo transactions.

2. Investments made by the schemes of Tata Mutual Fund in companies or their subsidiaries (to the extent of information available) that have invested more than 5% of the net assets as at 31<sup>st</sup> March, 2010 of any scheme of the fund, in terms of Regulation 25 (11). (Refer Annexure 2).
3. Statement of Portfolio with industry wise classification as at 31<sup>st</sup> March, 2010. (Refer Annexure 3).
4. In accordance with the Rules and Regulations of the scheme, Management Fees are paid as under:

Current Year			Previous Year		
Dates		% of Daily Net Asset	Dates		% of Daily Net Asset
From	To		From	To	
01-04-09	31-03-10	1.1000%	01-04-08	15-12-08	0.6500%
			16-12-08	31-03-09	1.1000%

Trusteeship Fees are paid at the rate of 0.0010% of the daily net assets (previous year : 0.0010% of the daily net assets) In addition to the trusteeship fees debited in the scheme's books for the year ended 31<sup>st</sup> March, 2010, additional trusteeship fees has been paid directly by Tata Asset Management Limited to Tata Trustee Company Limited to the extent of Rs. 17,993/-.

5. Contingent liabilities as at 31<sup>st</sup> March, 2010 are Rs.Nil (previous year Rs. Nil).

6. Disclosure under Regulation 25(8) of the SEBI Regulation have been made in respect of amounts paid to parties associated with sponsors in which the Asset Management Company or its major shareholders have a substantial interest.  
(Refer Annexure A).
7. Disclosure have been made in the table below in respect of amounts paid to parties in which the Asset Management Company or its major shareholders have a substantial interest.

Name of the Company	Nature of Payment	2009 – 2010 Rs.	2008 – 2009 Rs.	% equity capital held by the sponsors and its subsidiary / associates as at 31 <sup>st</sup> March, 2010
Tata Asset Management Limited	Management Fees	4,947,893	2,782,249	100%*
Tata Trustee Company Limited	Trusteeship Fees	4,498	3,593	100%**

# Extent of holding by principal shareholders of the sponsors and its subsidiary / associates not available.

\* Tata Sons Limited – 67.90% and Tata Investment Corporation Limited – 32.10%

\*\* Tata Sons Limited – 50.00% and Tata Investment Corporation Limited – 50.00%

8. Net Asset Value Per Unit (Rs.) :

Particulars	As at 31-03-10		As at 31-03-09	
Face Value	10.0000		10.0000	
Net Asset Value	Monthly	11.1962	Monthly	10.1353
	Quarterly	11.0998	Quarterly	10.0471
	Semi	11.7578	Semi	10.5574
	Growth	15.0531	Growth	12.8408

9. Unprovided diminution and unrealised appreciation in the value of investments.

Particulars	2009 – 2010 Rs.	2008 – 2009 Rs.
Unrealised appreciation	13,532,854	3,705,059
Unprovided diminution	0	0

10. There are no unit holders holding over 25% of the Net Asset Value of the Scheme as at 31<sup>st</sup> March, 2010.

11. Unclaimed redemption/dividend amount, since the inception of the scheme has been invested separately, only in money market instruments and the investors who have claimed their dividend amount have been paid alongwith the appreciation earned on this amount as per SEBI circular MFD / CIR/9/120/2000 dated 24<sup>th</sup> November, 2000. As at 31<sup>st</sup> March, 2010 the unclaimed redemption amount is Rs.520,648/-for 22 investors (previous year.Rs.520,648/- for 22 investors) and the unclaimed dividend amount is Rs.Nil for Nil investors (previous year Rs.Nil for Nil investors).
12. In accordance with Regulation 44 (1) of the SEBI (Mutual Funds) Regulations, 1996, securities purchased should be held in the name of the scheme.As at 31<sup>st</sup> March, 2010 government securities aggregating to Rs.Nil (previous year Rs.99,640,000/-) and reverse repos aggregating to Rs.197,006,602/- (previous year Rs.9,329,907/-) are held in the name of Tata Trustee Company Limited A/c Tata Mutual Fund.
- 13.
14. The Expert Advisory Committee (EAC) of the Institute of Chartered Accountants of India (ICAI) has opined that the Accounting Standards on Cash Flow Statement (AS-3), Segment Reporting (AS-17) and Related Party Disclosures (AS-18) issued by the ICAI are applicable to financial statements of schemes of mutual funds. The Management of Tata Asset Management Limited (AMC) is of the view that mutual funds are governed by a self contained regulatory framework, i.e. the SEBI Regulations, the Ninth and Eleventh Schedules of which lay down the specific Accounting Policies and Standards to be adopted and the disclosures to be made. Accordingly, the financial statements have been prepared only on the basis of **The Securities and Exchange Board of India ( SEBI )Regulations.**
15. The figures for the previous year have been regrouped and reclassified wherever necessary **to confirm with the current year figures.**

On behalf of the Board of Directors  
of **Tata Trustee Company Limited**

**Director**

**Tata Asset Management Limited**

**Authorised Signatory**

**Fund Manager**
