**I. INTRODUCTION**

**A. RISK FACTORS**

**Standard Risk Factors:**

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down.
- Mutual Fund investments are subject to market risks, read all scheme related documents carefully.
- Mutual Funds and securities investments are subject to market risks and there can be no assurance and no guarantee that the Scheme will achieve its objective.
- As with any investment in stocks, shares and securities, the NAV of the Units under this Scheme can go up or down, depending on the factors and forces affecting the capital markets.
- Past performance of the previous Schemes, the Sponsors or its Group / Affiliates / AMC / Mutual Fund is not indicative of and does not guarantee the future performance of the Scheme.
- Investment in equity and equity related securities including option contracts involve high degree of risks and investors should not invest in the schemes unless they can afford to take the risk of losing their investment.
- The sponsors are not responsible or liable for any loss resulting from the operations of the scheme beyond the initial contribution of Rs. 1 lakh made by them towards setting up of the mutual fund.
- Tata Index Fund- Sensex is only the name of the Scheme and does not in any manner indicate either the quality of the Scheme, its future prospects or the returns. Investors therefore are urged to study the terms of the Offer carefully and consult their Tax and Investment Advisor before investing in the Scheme.
- Tata Index Fund-Sensex is not guaranteed or assured return scheme.

**Scheme Specific Risk Factors:**

- The deviation of the NAV of the plan from the Sensex is expected to be in the range of 2%-3% per annum. However, it may so be that the actual tracking error can be higher or lower than the range given.
- In case of investments in derivative instruments like index futures, the risk/reward would be the same as investments in portfolio of shares representing an index. However, there may be a cost attached to buying an index future. Further, there could be an element of settlement risk, which could be different from the risk in settling physical shares and there is a risk attached to the liquidity and the depth of the index futures market as it is an untested market.
- Tracking errors are inherent in any indexed fund and such errors may cause the scheme to generate returns which are not in line with the performance of the SENSEX or one or more securities covered by / included in the SENSEX. To the extent that some assets/ funds may be deployed in Stock Lending / Money Market Operations, the Scheme will be subject to risks relating to such deployment / operations and may also contribute to tracking errors.

### Investment Risks

The price of securities may go up or down depending on a variety of factors and hence investors may note that AMC/Fund Manager's investment decisions may not be always profitable. Although it is intended to generate capital appreciation and maximize the returns by actively investing in equity securities and utilising debt and money market instruments as a defensive investment strategy. The price of securities may be affected generally by factors affecting capital markets such as price and volume, volatility in the stock markets, interest rates, currency exchange rates, foreign investment, changes in Government and Reserve Bank of India policy, taxation, political, economic or other developments, closure of the Stock Exchanges etc. Investors should understand that the investment pattern indicated, in line with prevailing market conditions, is only a hypothetical example as all investments involve risk and there is no assurance that the Fund's investment objective will be attained or that the Fund may not be in a position to maintain the indicated percentage of investment pattern under exceptional circumstances. There is no guarantee the investment / dis-investment decision will result into profit.

The fund may use techniques and instruments for efficient portfolio management and to attempt to hedge or reduce the risk. However these techniques and instruments if imperfectly used have the risk of the fund incurring losses due to mismatches particularly in a volatile market. The Fund's ability to use these techniques may be limited by market conditions, regulatory limits and tax considerations (if any). The use of these techniques is dependent on the ability to predict movements in the prices of securities being hedged and movements in interest rates. There exists an imperfect correlation between the hedging instruments and the securities or market sectors being hedged. Besides, the fact that skills needed to use these instruments are different from those needed to select the Fund's / plan's securities. There is a possible absence of a liquid market for any particular instrument at any particular time even though the futures and options may be bought and sold on an organised exchange. The use of these techniques involves possible impediments to effective portfolio management or the ability to meet repurchase / redemption requests or other short-term obligations because of the percentage of the Fund's assets segregated to cover its obligations.

### Liquidity and Settlement Risks

The liquidity of the Scheme's investments may be inherently restricted by trading volumes, transfer procedures and settlement periods. From time to time, the Scheme will invest in certain securities of certain companies, industries, sectors, etc. based on certain investment parameters as adopted internally by AMC. While at all times the AMC will endeavour that excessive holding/investment in certain securities of industries, sectors, etc. by the Scheme(s) are avoided, the funds invested by the Scheme in certain securities of industries, sectors, etc. may acquire a substantial portion of the Scheme's investment portfolio and collectively may constitute a risk associated with non-diversification and thus could affect the value of investments. Reduced liquidity in the secondary market may have an adverse impact on market price and the Scheme's ability to dispose of particular securities, when necessary, to meet the Scheme's liquidity needs or in response to a specific economic event or during restructuring of the Scheme's investment portfolio.

### Regulatory Risk

The value of the securities may be affected by uncertainties such as changes in government policies, changes in taxation and other developments in the laws and regulations.

### Risk associated with Unlisted Securities

Securities which are not quoted on the stock exchanges are inherently liquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to the investors, including the put options. The liquidity and valuation of the scheme's investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date of disinvestment.

### Securities Lending by the Mutual Fund

The Scheme may participate in securities lending and borrowing scheme in accordance with Securities Lending Scheme, 1997, Regulation 44 (4) of SEBI (Mutual Funds) Regulations, 1996, SEBI circular no MFD/CIR/01/047/99 dated February 10, 1999, framework for short selling and borrowing and lending of securities notified by SEBI circular no MRD/DoP/SE/Cir-14/2007 dated 20, 2007 and SEBI circular no SEBI / IMD / CIR No 14 / 187175/ 2009 dated December 15, 2009 and SEBI circular no CIR/MRD/DP/122/2017 dated November 17, 2017. The Scheme shall also follow other relevant regulations /guidelines issued by stock exchange(s) from time to time. The Scheme shall participate in Securities Borrowing and Lending only with the SEBI approved intermediaries.

Securities Lending means the lending of securities to SEBI approved intermediaries for a tenure of 1 to 12 months at a negotiated compensation in order to enhance returns of the scheme portfolio. The securities lent will be returned by the borrower on the expiry of the stipulated period. The AMC will adhere to the following strict internal limits should it engage in Securities Lending.

Not more than 25% of the net assets of the Scheme can be deployed in stock lending and not more than 5% of the fund can be can be deployed in Stock lending to any single counterparty. Collateral would always be obtained by the approved intermediary. Collateral value would always be more than the value of the security lent. Collateral can be in form of cash, bank guarantee, and government securities, as may be agreed upon with the approved intermediary, and would also be subject to a mark to market valuation on a daily basis.

#### Example:

A scheme has a security of a company which it would wish to hold for a long period of time as a core holding in the portfolio as per the fund manager's plan. In that case the investors would be benefited only to the extent of the rise in the value of the security, from time to time if any, on the exchange. If the scheme is enabled to lend the said security to a borrower who would be wanting to take advantage of the market fluctuations in its price, the borrower would return the security to the lender (fund) at a stipulated time or on demand for a negotiated compensation. The scheme's unitholders can enhance their returns to the extent of the compensation it will earn for lending the same. An adequate security or collateral will have to be maintained by the intermediary. This should always be higher than the cost of the security. Thus it is in the interest of the investors that returns can be enhanced by way of stock lending rather than hold the security only for capital appreciation potential.

Thus the scenario under which the scheme would participate in stock lending would be:

1. There is a holding of security e.g. of XYZ Ltd in the scheme which the fund manager wants to be the core holding of the fund for approximately 6 to 12 months.
2. There is a borrower (not mutual fund) for the security, (who has taken a short position in the market and needs the said security of XYZ Ltd to settle it) who is willing to put up a proper collateral for the same (In all cases higher than the price of the script).
3. The borrower is represented by a proper recognized intermediary.

4. The agreement is to return the security or the amount so negotiated at a particular period of time or on demand.

Then the security will be lent by the scheme and the unitholders would benefit from the additional compensation earned for lending, apart from the capital appreciation which also happens in that stock. Thus, to summarize, stock lending would be done by the scheme only in the following circumstances:

- a) If permitted by trustees and the extent SEBI regulations in that regard, from time to time.
- b) If such activity generates additional returns for the scheme and helps to enhance the scheme returns.
- c) If considering the above and other factors all considered in totality, such activity is in the interest of unitholders in the scheme.

#### **Securities Lending Risks**

It may be noted that this activity would have the inherent probability of collateral value drastically falling in times of strong downward market trends, rendering the value of collateral inadequate until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and/or the approved intermediary may suddenly suffer severe business setback and become unable to honour its commitments. This, along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Besides, there will also be temporary illiquidity of the securities that are lent out and the Scheme(s) will not be able to sell such lent out securities until they are returned.

#### **Risks associated with Debt / Money Markets**

##### **Interest Rate Risk**

As with debt instruments, changes in interest rate may affect the price of the debt instrument(s) and ultimately Scheme's net asset value. Generally the prices of instruments increase as interest rates decline and decrease as interest rates rise. Prices of long-term securities fluctuate more in response to such interest rate changes than short-term securities. Indian debt and government securities markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.

##### **Credit Risk**

Credit risk or Default risk refers to the risk that an issuer of a fixed income security may default (i.e. the issuer will be unable to make timely principal and interest payments on the security). Because of this risk corporate debentures are sold at a higher yield above those offered on Government Securities which are sovereign obligations and free of credit risk. Normally, the value of fixed income securities will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

##### **Reinvestment Risk**

This risk refers to the difference in the interest rate levels at which cash flows received from the securities in the scheme is reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows are reinvested may be lower than that originally assumed.

#### **Risks associated with investing in Securities Segment and Tri-party Repo trade settlement:**

The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL). CCIL shall maintain two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty Repo trades. The mutual fund is exposed to the extent of its contribution to the default fund of CCIL, in the event that the contribution of the mutual fund is called upon to absorb settlement/default losses of another member by CCIL, as a result the scheme may lose an amount equivalent to its contribution to the default fund.

#### **Risks associated with Derivatives**

- Derivative products are leverage instruments and can provide disproportionate gains as well as disproportionate losses to the investors. Execution of such strategies depends upon the ability of the Fund Manager to identify such opportunities. Identification and execution of the strategies to be pursued by the Fund Manager involved uncertainty and decision of Fund Manager may not always be profitable. No assurance can be given that the Fund Manager will be able to identify or execute such strategies.
- Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative add to the portfolio and the ability to forecast price of securities being hedged and interest rate movements correctly. There is a possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counterparty") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mis-pricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments".
- The Scheme may face execution risk, whereby the rates seen on the screen may not be the rate at which the ultimate execution of the derivative transaction takes place.
- The Scheme may find it difficult or impossible to execute derivative transactions in certain circumstances. For example, when there are insufficient bids or suspension of trading due to price limit or circuit breakers, the Scheme may face a liquidity issue.
- Investments in index futures face the same risk as the investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying stocks.

- The Scheme bears a risk that it may not be able to correctly forecast future market trends or the value of assets, indices or other financial or economic factors in establishing derivative positions for the Scheme.
- There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. The counter party may default on a transaction before settlement and therefore, the Scheme is compelled to negotiate with another counterparty at the then prevailing (possibly unfavorable) market price.
- The risk of loss in trading futures contracts can be substantial, because of the low margin deposits required, the extremely high degree of leverage involved in futures pricing and the potential high volatility of the futures markets.
- Where derivatives are used for hedging, such use may involve a basic risk where the instrument used as a hedge does not match the movement in the instrument/underlying asset being hedged. The risk may be inter-related also e.g. interest rate movements can affect equity prices, which could influence specific issuer/industry assets.

Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.

**Risk Control / Mitigation measures for equity investments and related investments:**

Investment in equity has an inherent market risk which cannot be mitigated generally. Following measures have been implemented with an objective to mitigate /control other risks associated with equity investing:

<b>Nature of Risk</b>	<b>Mitigation Measures</b>
Regulatory Risk	<ul style="list-style-type: none"> <li>• Online monitoring of various exposure limits by the Front Office System. Also as a backup, manual controls are also implemented.</li> </ul>
Poor Portfolio Quality	<ul style="list-style-type: none"> <li>• Pre-approved universe of stocks based on strong fundamental research. New stock addition only with the prior approval of investment committee.</li> </ul>
Performance Risk	<ul style="list-style-type: none"> <li>• Periodical review of stock wise profit &amp; loss. Review of scheme performance vis. a vis. Benchmark index as well as peer group.</li> </ul>
Liquidity Risk	<ul style="list-style-type: none"> <li>• Periodical review of the liquidity position of each scrip (Market capitalization, average volume in the market vis. a vis. Portfolio Holding)</li> </ul>
Concentration Risk	<ul style="list-style-type: none"> <li>• Cap on maximum single sector exposure. Cap on maximum single stock exposure</li> </ul>

**B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME**

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. The two conditions mentioned above shall be complied with on a calendar quarter basis, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over the 25 % limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. However, in case the Scheme does not have a minimum of 20 investors, on an average basis, in the stipulated period (i.e. during the concerned calendar quarter), the provisions of Regulation 39(2) (c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at applicable NAV. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

**C. SPECIAL CONSIDERATIONS**

Investors are urged to study the terms of the SID carefully before investing in this Scheme, and to retain this SID for future reference. The Mutual Fund may disclose details of the investor's account and transactions there under to those intermediaries whose stamp appears on the application form or who have been designated as such by the investor. In addition, the Mutual Fund may disclose such details to the bankers, as may be necessary for the purpose of effecting payments to the investor. The Fund may also disclose such details to regulatory and statutory authorities/bodies as may be required or necessary.

Pursuant to the provisions of Prevention of Money Laundering Act, 2002, if after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering, on failure to provide required documentation, information, etc. by the unit holder the AMC shall have absolute discretion to report such suspicious transactions to FIUIND and / or to freeze the folios of the investor(s), reject any application(s) / allotment of units.

**Tax Consequences**

Redemption by the unit holders due to change in the fundamental attribute (if any, in future) of the scheme or due to any other reason may entail tax consequences for which the Trustees, AMC, Fund their Directors / employees shall not be liable.

### C. ASSET ALLOCATION AND RISK PROFILE

Under normal circumstances, funds of the Scheme, shall (after providing for all ongoing expenses) be invested / the indicative asset allocation shall be as follows considering the objective of the Scheme:

Instruments	Indicative allocations (% of total assets)	Risk Profile
		High/Medium/Low
Securities Covered by the S&P BSE SENSEX	95-100	High
Money Market Instruments	0-5	Low to Medium

The scheme may invest in derivative instruments like index futures, stock futures, options contracts, warrants, convertible securities, swap agreements or other derivative products, as and when introduced but always subject to regulatory requirement.

Not more than 25% of the net assets of the scheme shall be deployed in securities lending. The Scheme would limit its exposure, with regards to securities lending, for a single intermediary, to the extent of 5% of the total net assets of the scheme at the time of lending.

The AMC may from time to time for a short term period on defensive consideration invest upto 100% of the funds available in Money Market Instruments, the primary motive being to protect the Net Asset Value of the Scheme and protect unitholders interests so also to earn reasonable returns on liquid funds maintained for redemption/repurchase of units.

#### Change in Investment Pattern

Investment strategy and pattern may be deviated from time to time, provided such modification is in accordance with the Scheme(s) objective and Regulations as amended from time to time, the intent being to protect the Net Asset Value of the scheme and unitholders' interests. In case of deviation, the AMC will achieve a normal asset allocation pattern in a maximum period of three months. In case deviation in investment pattern in not rebalanced within the period indicated above then justification for such delay in rebalancing of portfolio shall be placed before the investment committee and the reasons for the same shall be recorded in writing. The Investment Committee shall then decide on the course of action. However, at all times the portfolio will adhere to the overall investment objectives of the Scheme.

### D. WHERE WILL THE SCHEME INVEST

Tata Index Fund-SENSEX is a passively managed scheme investing mainly in equity shares of only those companies comprised in the S&P BSE SENSEX Index as may be defined from time to time. The Scheme is not an active Index fund and hence will be investing/holding securities in the same proportion as that of BSE SENSEX regardless of their investment merit. A passively managed scheme like an index fund holds securities in the same proportion as that of a market index in an attempt to closely match the returns generated by the index, subject to tracking errors.

The index fund has the following advantages:

- a) Diversification: An index would generally represent all the components/sectors of a given market and hence provide for a very broad level of diversification.
- b) Low operating expenses: The costs incurred in terms of advisory services, research, distribution expenses are extremely low compared to actively managed funds. Hence most of the funds have a minimal annual expense ratio.
- c) Low transaction costs: Losses due to trading are minimized as there is no active attempt to beat the market returns, the objective is to replicate the returns of the market by ensuring that the fund is fully invested at any given point in time.

The disadvantages of an Index Fund are:

- a) There is no attempt to outperform the market.
- b) Tracking error: There can be some amount of tracking error as it is not possible to replicate the index completely.

The fund seeks to invest in the universe of stocks comprised in BSE Sensex and therefore, the proposed investment would be in larger capitalized, actively traded companies across the different industries in the Indian economy. It is expected that 95% of funds raised under this Scheme will be

invested in equity and equity related instruments comprising the BSE SENSEX Index (as may be defined from time to time) and around 5% in money market instruments like Call Deposit, Commercial paper certificate of Deposit, short term deposit, Treasury Bills and short term debt instruments etc. issued by various Corporate, Government - State or Central, Public Sector Undertakings. Such Government Securities may include securities, which are:

- Supported by the ability to borrow from the Treasury;
- Supported only by Sovereign guarantee or of the State Government; or
- Supported by Government of India / State Government in some other way.

This is for providing ongoing liquidity for meeting redemption requirements.

As part of the investment strategy, the Scheme may trade in derivative instruments such as index futures, stock futures and options contracts, warrants, convertible securities, swap agreements or any other derivative instruments that are permissible or may be permissible in future under applicable regulations and such investments shall be in accordance with the investment objectives of the Scheme. The risk/reward in index futures would be similar to that in a portfolio of shares representing an Index. However, there may be a cost attached to buying an index future. Further, there could be an element of settlement risk, which could be different from the risk in settling physical shares. This settlement risk is likely to be minimized if the Exchange acts as the Clearing Corporation and the counter party. Besides, there is a risk attached to the liquidity and the depth of the index futures market. The Fund may not suffer any material investment loss on trading in the index futures as compared to holding a portfolio of shares representing an index. The Fund will not maintain any leveraged or trading positions.

#### **Investment in Securities of Group Companies**

As per SEBI (Mutual Funds) Regulations 1996, the scheme shall not make any investments in any un-listed securities of associate/ group companies of the Sponsors. The Scheme will also not make investment in privately placed securities issued by associate / group companies of the Sponsors. The Scheme may invest not more than 25% of the net assets in listed securities of Group companies.

#### **Derivatives and Hedging Products:**

The Scheme will comply with all the applicable circulars issued by SEBI as regard to derivatives viz. SEBI Circular no. SEBI/MFD/CIR No. 03/ 158 /03 dated June 10, 2003, no. DNP/Cir-29/2005 dated September 14, 2005, no. SEBI/IMD/CIR No. 9/108562/07 dated November 16,2007, no. Cir/IMD/ DF/ 11/ 2010 dated August 18, 2010. The cumulative gross exposure through equity, debt and derivative positions should not exceed 100% of the net assets of the scheme. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.

#### **Options:**

An option gives a person the right but not an obligation to buy or sell something. An option is a contract between two parties wherein the buyer receives a privilege for which he pays a fee (premium) and the seller accepts an obligation for which he receives a fee. The premium is the price negotiated and set when the option is bought or sold. A person who buys an option is said to be long in the option. A person who sells (or writes) an option is said to be short in the option.

An option contract may be of two kinds:

- 1) Call option: An option that provides the buyer the right to buy is a call option. The buyer of the call option can call upon the seller of the option and buy from him the underlying asset at the agreed price. The seller of the option has to fulfil the obligation upon exercise of the option.
- 2) Put option: The right to sell is called a put option. Here, the buyer of the option can exercise his right to sell the underlying asset to the seller of the option at the agreed price.

Option contracts are classified into two styles:

##### **(a) European Style**

In a European option, the holder of the option can only exercise his right on the date of expiration only.

##### **(b) American Style**

In an American option, the holder can exercise his right anytime between the purchase date and the expiration date.

#### **Interest Rate Swap & Forward Rate Agreements**

An interest rate swap is a financial contract between two parties exchanging a stream of interest payments for a notional principal amount on multiple occasions during a specified period.

Typically, one party receives a pre-determined fixed rate of interest while the other party, receives a floating rate, which is linked to a mutually agreed benchmark with provision for mutually agreed periodic resets.

As per SEBI (Mutual Fund) Regulations 1996, the Scheme shall not make any investments in any un-listed securities of associate / group companies of the Sponsors. The scheme will also not make investment in privately placed securities issued by associate / group companies of the Sponsor. The Scheme may invest not more than 25% of the net assets in listed securities of Group companies. The Scheme shall make investment out of the NFO proceeds only on or after the closure of the NFO period in accordance with the investment objective of the scheme. In the event of non-receipt of the minimum subscription amount, the Trustee Company shall ensure that the entire amount collected as subscription money is refunded to the Unitholders notwithstanding any loss arising out of such investment during the interim period.

### **E. THE INVESTMENT STRATEGIES**

The investment strategy is to reflect /mirror the market returns with a minimum tracking error. The scheme may invest in derivative instrument for which investment strategy is given below:

#### **INVESTMENT IN DERIVATIVE INSTRUMENTS**

As part of the Fund Management process, the Trustee Company may permit the use of derivative instruments such as index futures, stock futures and options contracts, warrants, convertible securities, swap agreements or any other derivative instruments that are permissible or may be permissible in future under applicable regulations and such investments shall be in accordance with the investment objectives of the scheme.

Index futures are meant to be an efficient way of buying/selling an index compared to buying/selling a portfolio of physical shares representing an index for ease of execution and settlement. Index futures can be an efficient way of achieving the Scheme's investment objective. Notwithstanding the pricing, they can help in reducing the Tracking Error in the Scheme. Index futures may avoid the need for trading in individual components of the index, which may not be possible at times, keeping in mind the circuit filter system and the liquidity in some of the scrips, index futures can also be helpful in reducing the transaction costs and the processing costs on account of ease of execution of one trade compared to several trades of shares of Sensex and will be easy to settle compared to physical portfolio of shares representing an index. Based on the future regulations, the Trustee Company may allow the Scheme to put 100% of the Scheme's assets in the index futures keeping in mind the liquidity risk and the settlement risk.

In case of investments in index futures, the risk/reward would be the same as investments in portfolio of shares representing an index. However, there may be a cost attached to buying an index future. There is a risk attached to the liquidity and the depth of the index futures market. The fund may not suffer any material investment loss on trading in the index futures as compared to holding a portfolio of shares representing an index. The Fund will not maintain any leveraged or trading positions.

The cost differential between purchasing Index Future and 30 stocks is a function of the carrying cost, the interest earned available to fund managers and the brokerage cost applicable in both cases. However, as mentioned earlier, as the Indian equity markets continues to have limitations in execution of trades due to the lack of adequate liquidity and the concept of circuit breakers, index future can allow a fund to buy all the stocks comprising the index at a nominal additional cost. Further this will allow the fund managers to minimise the tracking error in case of an index fund that would have ordinarily grown on account of inadequate and incomplete execution of trades.

In case the execution and brokerage costs on purchase of Index Futures are high and the returns on surplus funds are less, buying of index future may not be beneficial as compared to buying 30 stocks. The actual return may vary based on actual and depends on final guidelines/procedures and trading mechanism as envisaged by stock exchanges and other regulatory authorised.

**Trading in Derivatives by the Scheme**

Subject to SEBI (Mutual Fund) Regulations, 1996, the Scheme(s) may use techniques and instruments such as trading in derivative instruments to hedge the risk of fluctuations in the value of the investment portfolio. In accordance with the guidelines issued by the SEBI, exposure to derivative instruments will be restricted to the limit as specified in the para on asset allocation pattern of the scheme.

A derivative is an instrument whose value is derived from the value of one or more of the underlying assets which can be commodities, precious metals, bonds, currency, etc. Common examples of Derivative instruments are Interest Rate Swaps, Forward Rate Agreements, Futures, Options, etc.

The Scheme may use techniques and instruments such as trading in derivative instruments to hedge the risk of fluctuations in the value of the investment portfolio. A derivative is an instrument whose value is derived from the value of one or more of the underlying assets which can be commodities, precious metals, bonds, currency, etc. Common examples of Derivative instruments are Interest Rate Swaps, Forward Rate Agreements, Futures, Options, etc. The Scheme may purchase call and put options in securities in which it invests and on securities indices based on securities in which the scheme invests. Through the purchase and sale of futures contracts and purchase of related options on those contracts the Scheme would seek to hedge against a decline in securities owned by the Scheme or an increase in the prices of securities which the Scheme plans to purchase. The Scheme would sell futures contracts on securities indices in anticipation of a fall in stock prices, to offset a decline in the value of its equity portfolio. When this type of hedging is successful, the futures contract increase in value while the Scheme's investment portfolio declines in value and thereby keep the Scheme's net asset value from declining as much as it otherwise would. Similarly, when the Fund is not fully invested, and an increase in the price of equities is expected, the Scheme would purchase futures contracts to gain rapid market exposure that may partially or entirely offset increase in the cost of the equity securities it intends to purchase.

**Example: Please note that below mentioned examples are purely for illustration purpose only and actual exposure may vary to a greater extend in line with the regulatory directives.**

Subject to SEBI (Mutual Fund) Regulations, 1996, The Scheme may invest in Derivative Instruments to the extent permitted under SEBI Circulars DNP/Cir-29/2005 dated September 14, 2005, CIR/IMD/DF/11/2010 dated August 18, 2010 & SEBI/HO/IMD/DF2/CIR/P/2017/109 dated September 27,2017.

The cumulative gross exposure through equity, debt and derivative positions should not exceed 100% of the net assets of the scheme.

For other option contracts, the total exposure related to option premium paid will not exceed 20% of the net assets of the scheme. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.

Exposure due to hedging positions shall not be included in the above mentioned limits subject to the following:

1. Hedging positions are the derivatives positions that reduce possible losses on an existing position in securities and till existing position remains.
2. Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall have to be added and treated under the limits mentioned above.
3. Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
4. The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.

Mutual funds are allowed to hedge the portfolio or part of the portfolio (including one or more securities) on weighted average modified duration basis by using Interest Rate Futures (IRFs). The maximum extent of short position that may be taken in IRFs to hedge interest rate risk of the portfolio or part of the portfolio, is as per the formula given below:

$$\frac{(\text{Portfolio Modified Duration} * \text{Market Value of the Portfolio})}{(\text{Futures Modified Duration} * \text{Futures Price/PAR})}$$

The Mutual Fund may enter into plain vanilla interest rate swaps for hedging purposes. The counter party in such transactions shall be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases shall not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions shall not exceed 10% of the net assets of the scheme.

**Definition of Exposure in case of Derivative Positions**

Each position taken in derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain derivative positions may theoretically have unlimited possible loss. Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price*Lot Size*Number of Contracts
Short Future	Futures Price*Lot Size* Number of Contracts
Option Bought	Option Premium Paid*Lot Size* Number of Contracts.

**Position Limits for Mutual Fund and its scheme**

Position limit for Index Options and Index Futures contracts	
Index Options Contract*	On a particular underlying index Rs.500 Crore or 15% of the total open interest of the market in equity Index options contracts, whichever is higher.
Index Futures Contract**	On a particular underlying index Rs.500 Crore or 15% of the total open interest of the market in equity Index futures contracts, whichever is higher.

\* This limit would be applicable on open positions in all options contracts on a particular underlying index.

\*\* This limit would be applicable on open positions in all futures contracts on a particular underlying index.

Additional position limit for hedging	
In addition to the position limits as mentioned above, Mutual Funds may take exposure in equity index derivatives subject to the following limits:	Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Mutual Fund's holding of stocks.
	Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Mutual Fund's holding of cash, government securities, T-Bills and similar instruments.
Position limit for Stock Options and Stock Futures contracts	
The combined futures and options position limit shall be 20% of the applicable Market Wide Position Limit (MWPL).	
This limit would be applicable on aggregate open positions in all futures and all option contracts on a particular underlying stock.	

**Position limit for each scheme of a Mutual Fund**

The scheme-wise position limit requirements shall be:

- For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of a mutual fund shall not exceed the higher of:
  - 1% of the free float market capitalization (in terms of number of shares). Or
  - 5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts)
- This position limits shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange.
- For index based contracts, Mutual Funds shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

**Position Limits for Interest Rate Future Contracts:**

Scheme Level: The gross open positions across all contracts shall not exceed 3 % of the total open interest or INR 200 crores- whichever is higher.

Mutual Fund: The gross open positions across all contracts shall not exceed 10 % of the total open interest or INR 600 crores- whichever is higher.

**Derivative Instruments & Related Examples:**

**Futures:**

A futures contract is an agreement between the buyer and the seller for the purchase and sale of a particular asset at a specific price on a specific future date. The price at which the underlying asset would change hands in the future is agreed upon at the time of entering into the contract. The actual purchase or sale of the underlying asset involving payment of cash and delivery of the instrument does not take place until the contracted date of delivery. A futures contract involves an obligation on both the parties to fulfill the terms of the contract. Currently, futures contracts have a maximum expiration cycle of 3-months. A futures contract on the stock market index gives its owner the right and obligation to buy or sell the portfolio of stocks characterized by the index. Stock index futures are cash settled; there is no delivery of the underlying stocks.

**Example:**

<b>Index Future</b>	
Assume, 1-month Nifty Future price on day 1:	10110
Scheme Buys	100 Future Contracts
(1 lot =Nominal Value equivalent to 75 units of the underlying index)	

<b>Scenario 1</b>	
On the date of Settlement, the future price (closing spot price of the index)	10200
<b>Profit for the scheme (10200-10110) *100*75</b>	675000
<b>Scenario 2</b>	
On the date of Settlement, the future price (closing spot price of the index)	10050
<b>Loss for the scheme (10050-10110) *100*75</b>	-450000

**Risks associated with Future Contracts:** Investments in index futures face the same risk as the investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying stocks. The risk of loss in trading futures contracts can be substantial, because of the low margin deposits required, the extremely high degree of leverage involved in futures pricing and the potential high volatility of the futures markets. Additional risks could be on account of illiquidity and potential mispricing of the futures.

**Options:**

An option gives a person the right but not an obligation to buy or sell something. An option is a contract between two parties wherein the buyer receives a privilege for which he pays a fee (premium) and the seller accepts an obligation for which he receives a fee. The premium is the price negotiated and set when the option is bought or sold. A person who buys an option is said to be long in the option. A person who sells (or writes) an option is said to be short in the option.

**Example:**

<b>Call Option</b>	
Say, Scheme buys 1 lot of Nifty Index	75 Units
Spot price	10000
Strike price	10100
Premium	100
Total amount paid as premium (Rs.) (100X75)	Rs.7500
<b>Scenario 1: The Nifty Index goes up (i.e Nifty Spot)</b>	10250
<b>Scheme has reversed the position before expiry of the contract</b>	
Current Premium at the time of reversal	200
Net Gain Rs. (200-100)	100
Total gain on 1 lot of Nifty (75 units) Rs.(75x100)	Rs.7500
<b>Scheme has reversed the position ( i.e Nifty Option) at expiry</b>	
Nifty Spot on expiry	10275
Premium Paid(Rs.)	100
Exercise price	10100
Receivables on Exercise (10275-10100)	175
Total gain (Rs.) (175 -100) *75	Rs.5625
<b>Scenario 2: The Nifty index moves to the level below 10100</b>	
<b>Scheme does not gain anything but the loss to the scheme (limited to the actual premium paid)</b>	Rs. 7500

<b>Put Option</b>	
Say, Scheme buys 1 lot of Nifty Index	75 Units
Spot Price	10000
Strike Price	9450
Premium	50
Total Amount Paid by the Scheme (75*50)	3750
<b>Scenario 1: Nifty Index goes down</b>	
<b>Scheme has reversed the position before expiry of the contract</b>	
Nifty Spot	9300
Current Premium at the time of reversal	80
Premium Paid (Rs.)	50
Net Gain (Rs.80-50)	30

Total Gain on 1 lot of Nifty (Rs.) (75x30)	Rs.2250
<b>Scheme has reversed the position at expiry</b>	
Nifty Spot	9375
Premium Paid (Rs.)	50
Exercise Price	9450
Gain on Exercise	75
Total Gain Rs.(75-50)*75)	Rs.1875
<b>Scenario 2: If Nifty Index Stays over the Strike price of 9450</b>	
Say Nifty Spot	9500
<b>Net Loss to the Scheme will be premium paid</b>	Rs.3750

**Risks associated with Option Contracts:** The option contracts give a person the right but not an obligation to buy or sell. The risk is potential mispricing and exposure to options can limit the profits from a genuine investment transaction.

#### Various Derivatives Strategies:

##### 1. Index / Stock spot - Index / Stock Futures

The pricing of the futures is derived from underlying Index spot or the underlying stock. It is the cost of carry that binds the value of the futures to the underlying portfolio. When the two go out of sync, there are opportunities.

The cost of carry links the futures price to the price of the underlying asset. The price of the futures at any given instance should typically be more than the level of the spot price at that point. Theoretically, the fair value of the futures is equal to the spot price of the underlying plus the cost of carry i.e. the interest rate prevailing for an equivalent credit risk. Cash and carry trades at times provide higher than the prevailing interest rates. There is an opportunity to exploit by selling the overpriced futures and buying the underlying portfolio. It may also happen that the Index / Stock Future may be at a discount. In such cases, the Scheme may buy the future and sell the stock after borrowing the same. The Scheme shall enter into a combination of these transactions simultaneously.

If the Scheme has to unwind the positions prior to the expiry on account of redemptions or any other reason, the returns would depend on the spread between the spot and futures price at which the position is unwound. If the price differential between the spot and futures position of the subsequent month maturity is attractive near the expiry date, then the scheme may rollover the futures position and continue with the position in the spot market. The Scheme shall endeavour to deploy its assets through transactions in the above pattern, which may involve Index Futures with Stock Futures or Futures of the same stock with different expiry months.

##### 2. Cash Futures Arbitrage Strategy

The fund would look for market opportunities between the spot and the futures market. The cash futures arbitrage strategy can be employed when the price of the futures exceeds the price of the underlying stock. The fund would first buy the stocks in cash market and then sell in the futures market to lock the spread.

Buying the stock in cash market and selling the futures results in a hedge where the fund portfolio has locked in a spread and is not affected by the price movements in the spot and futures markets. The arbitrage position can be continued till expiry of the futures contracts. The futures contracts are settled based on the last half an hour's weighted average trade of the cash market. There is a convergence between the cash market and the futures market on expiry and this convergence results in the portfolio being able to generate the arbitrage return locked in earlier. However, the position may even be closed earlier in the event of the price differential being realized before expiry or better opportunities being available in other stocks / indexes. The strategy is attractive if this price differential (post all costs) is higher than the investor's cost-of capital.

#### Illustration of a Cash Futures Arbitrage Strategy: -

**Buy 100 shares of Company X at Rs 1000 and sell the same quantity of stock's futures of the Company X at Rs 1100.**

##### 1. Market goes up and the price on the expiry day is Rs 2000.

At the end of the month (expiry day) the futures expires automatically:

Settlement price of futures = closing spot price = Rs 2000

Gain on stock is  $100 \times (2000 - 1000) = \text{Rs } 100,000$

Loss on futures is  $100 \times (1100 - 2000) = \text{Rs } -90,000$

Net gain is  $100,000 - 90,000 = \text{Rs } 10,000$

##### 2. Market goes down and the price on the expiry day is Rs 500.

At the end of the month (expiry day) the futures expires automatically:

Settlement price of futures = closing spot price = Rs 500

Loss on stock is  $100 \times (500 - 1000) = \text{Rs } -50,000$

Gain on futures is  $100 \times (1100 - 500) = \text{Rs } 60,000$

Net gain is  $60,000 - 50,000 = \text{Rs } 10,000$

**Unwinding the position:**

**Buy 100 shares of Company X at Rs 1000 and sell the same quantity of stock's futures of the Company X at Rs 1100.**

The market goes up and at some point of time during the month (before expiry) the stock trades at Rs 1200 and the futures trades at Rs 1190 then

Fund Manager will unwind the position:

Buy back the futures at Rs 1190: loss incurred is  $(1100 - 1190) * 100 = \text{Rs } -9,000$

Sell the stock at Rs 1200: gain realized:  $(1200 - 1000) * 100 = \text{Rs } 20,000$

Net gain is  $20,000 - 9,000 = \text{Rs } 11,000$

**Rolling over the futures:**

The Scheme may continue to stay invested in the stock in the Cash market. Close to expiry, if the stock's price is at Rs 1500 then the stock's futures is close to Rs 1500 as well. Also if the price of the current month stock futures is below the current price of the next month stock futures, the scheme may roll over the futures position to the next expiry:

The price of the stock futures next month contract is at Rs 1510

The price of the stock futures current month contract is at Rs 1500

Then sell the futures next month contract at Rs 1510 and buy back current month futures contract at Rs 1500 = gain of  $100 * (1510 - 1500) = \text{Rs } 9,000$  and the arbitrage position is rolled over.

For detailed risk associated with use of derivatives, please refer paragraph "Scheme Specific risk factors".

**Portfolio Turnover**

Being index fund, the fund Manager will follow passive strategy while investing. The portfolio turnover is expected to be in line with the volume of subscription and redemption in the scheme.

Pursuant to schedule IX read with Regulation 50 of the SEBI (Mutual Funds) Regulations 1996, the cost of investments acquired or purchased shall include brokerage, stamp, charges and any other charge customarily included in the brokers bought note while the sale proceeds of investments sold or redeemed shall be net of brokerage, stamp charges and any other charges customarily included in the brokers sale note. Therefore, brokerage, stamp charges and any other charge customarily included in brokers note shall form part of the purchase or sale value of investment, including value of the portfolio securities owned by the scheme(s), and the resultant annual portfolio turnover rate.

Portfolio Turnover Ratio: 0.21 Times for F.Y 2018-2019.

**F. FUNDAMENTAL ATTRIBUTES**

Following are the Fundamental Attributes of the scheme, in terms of Regulation 18 (15A) of the SEBI (MF) Regulations:

**(i) Type of a scheme**

An open ended equity scheme tracking S & P BSE Sensex.

**(ii) Investment Objective**

The investment objective of the Scheme is to reflect/mirror the market returns with a minimum tracking error.

However, there is no assurance or guarantee that the investment objective of the Scheme will be achieved. The scheme does not assure or guarantee any returns.

**Investment Pattern and Risk Profile:**

Under normal circumstances, funds of the Scheme, shall (after providing for all ongoing expenses) be invested / the indicative asset allocation shall be as follows considering the objective of the Scheme:

Instruments	Indicative allocations (% of total assets)	Risk Profile
		High/Medium/Low
Securities Covered by the S&P BSE SENSEX	95-100	High
Money Market Instruments	0-5	Low to Medium

**(iii) Terms of Issue**

- **Liquidity:** Repurchase/ Resale is at Net Asset Value (NAV) related prices with repurchase loads as applicable (within limits) as specified under SEBI Regulations 1996, the repurchase price shall not be lower than 93% of the NAV, the sale price will not be higher than 107% of the NAV and further that the difference between the sale and repurchase price shall not exceed 7% calculated on the sale price.
- Refer section "IV FEES AND EXPENSES" for aggregate fees and expenses chargeable to the Scheme.
- The scheme does not provide any safety net or guarantee nor does it provide any assurance regarding declaration of dividend. There is no guarantee or assurance that the scheme will achieve its' objective.

## TATA INDEX FUND-SENSEX

In accordance with Regulation 18(15A) of the SEBI (MF) Regulations, the Trustees shall ensure that no change in the fundamental attributes of the Scheme(s) and the Plan(s) / Option(s) thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme(s) and the Plan(s) / Option(s) thereunder and affect the interests of Unitholders is carried out unless:

- (i) A written communication about the proposed change is sent to each Unitholder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and
- (ii) The Unitholders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any exit load.

### G. SCHEME BENCHMARK

#### Scheme Benchmark – S&P BSE SENSEX TRI

S&P BSE SENSEX, first compiled in 1986, was calculated on a "Market Capitalization-Weighted" methodology of 30 component stocks representing large, well-established and financially sound companies across key sectors. As the oldest index in the country, it provides the time series data over a fairly long period of time (from 1979 onwards).

Considering the scheme in an equity index linked equity scheme, S&P BSE Sensex index would be an ideal benchmark for the scheme and is most suitable for performance composition. Total Return variant of the index (TRI) of S&P BSE Sensex will be used for performance comparison. Wherever TRI data is not available since inception of the scheme, benchmark performance will be calculated using composite CAGR of the benchmark index.

The Trustees may change the benchmark in future if a benchmark better suited to the investment objective of the Scheme is available.

#### I. Restrictions on Investments (as per seventh schedule of SEBI {Mutual Fund} Regulations 1996)

1. The scheme shall not invest more than 10 per cent of its NAV in the equity shares or equity related instruments of any company. Provided that, the limit of 10 per cent shall not be applicable for investments in case of this scheme.
2. The scheme shall not invest more than 5% of its NAV in unlisted equity shares or equity related instruments.
3. The Mutual Fund under all its scheme(s) shall not own more than ten percent of any company's paid up capital carrying voting rights.
4. A mutual fund scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of directors of the asset management company:

Provided that such limit shall not be applicable for investments in government securities, treasury bills and collateralized borrowing and lending obligations:.

Provided further that investment within such limit can be made in mortgaged backed securitised debts which are rated not below investment grade by a credit rating agency registered with the Board:

5. The scheme shall not make any investment in;
  - a) any unlisted security of an associate or group company of the sponsor; or
  - b) any security issued by way of private placement by an associate or group company of the sponsor; or
  - c) the listed securities of group companies of the sponsor which is in excess of 25% of the net assets.
6. Transfers of investments from one scheme to another scheme in the same mutual fund shall be allowed only if:-
  - (a) such transfers are done at the prevailing market price for quoted instruments on spot basis.  
Explanation- "spot basis" shall have same meaning as specified by stock exchange for spot transactions.
  - (b) the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.
7. The scheme may invest in another scheme under the same asset management company or any other mutual fund without charging any fees, provided that aggregate inter scheme investment made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund.
8. Every mutual fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:  
  
Provided that a mutual fund may engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by the SEBI:  
  
Provided further that a mutual fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by the SEBI.
9. The mutual fund shall, get the securities purchased or transferred in the name of the mutual fund on account of the concerned scheme, wherever investments are intended to be of long term nature.
10. Pending deployment of funds of a Scheme in terms of investment objectives of the scheme, a mutual fund may invest them in short term deposits of schedule commercial banks, subject to SEBI circular no. SEBI/IMD/CIR No. 1/91171/07 dated April 16, 2007 .
11. The scheme shall not make any investment in any fund of funds scheme.
12. The scheme will not advance any loan for any purpose.
13. The Scheme shall not borrow except to meet temporary liquidity needs of the mutual funds for the purpose of repurchase/ redemption of units or payment of interest or dividend to the unitholders. The fund shall not borrow more than 20 per cent of the net asset of the scheme and the duration of such a borrowing shall not exceed a period of six months.

These investment limitations / parameters (as expressed / linked to the net asset / net asset value / capital) shall in the ordinary course apply as at the date of the most recent transaction or commitment to invest, and changes do not have to be effected merely because, owing to appreciations or depreciations in value, or by reason of the receipt of any rights, bonuses or benefits in the nature of capital or of any scheme of arrangement or for amalgamation, reconstruction or exchange, or at any repayment or redemption or other reason outside the control of the Fund, any such limits would thereby be breached. If these limits are exceeded for reasons beyond its control, TAML shall adopt as a priority objective the remedying of that situation, taking due account of the interests of the Unitholders.

The scheme will also follow the following norms:

- a) The Index shall have a minimum of 10 stocks as its constituents.
- b) The weightage of the top three constituents of the index, cumulatively shall not be more than 65% of the Index.
- c) The individual constituent of the index shall have a trading frequency greater than or equal to 80% and an average impact cost of 1% or less over previous six months.

TAML may ensure that the updated constituents of the Indices are available on the website of TAML at all points of time.

In addition, certain investment parameters (like limits on exposure to Sectors, Industries, Companies, etc.) may be adopted internally by TAML, and amended from time to time, to ensure appropriate diversification / security for the Fund. The Trustee Company / TAML may alter these above stated limitations from time to time, and also to the extent the SEBI (Mutual Funds) Regulations, 1996 change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its investment objective. As such all investments of the Scheme will be made in accordance with SEBI (Mutual Funds) Regulations, 1996, including Schedule VII thereof.

#### **Investment by Asset Management Company**

Apart from the above, TAML (the AMC) may invest in the scheme(s) on an ongoing basis, such amount, as they deem appropriate. The AMC shall not be entitled to charge any management fees on this investment in the scheme(s). Investments by the AMC will be in accordance with Regulation 25(17) of the SEBI (MF) Regulations, 1996.

As per regulation, the sponsors or asset management company (TAML) shall invest not less than one percent of the assets under management of the scheme or fifty lakh rupees, whichever is less, in the Growth option of the scheme and such investment will remain in the scheme till the scheme is wound up.

## III. UNITS AND OFFER

This section provides details you need to know for investing in the scheme.

## A. ONGOING OFFER DETAILS

<p>Ongoing Offer Period (This is the date from Which the scheme will re-open for subscriptions redemptions after the closure of the NFO period.)</p>	<p>Tata Index Fund-Sensex was launched on 11th November, 2002. W.e.f. 2nd December, 2002 the scheme was reopened for ongoing subscription / redemption. Being existing open ended schemes, subscription / redemption a facility is provided on all business days. Units of the scheme is offered at NAV based price.</p>							
<p>Ongoing price for subscription (purchase) / switch-in (from other schemes / plans of the Mutual fund) by investors.  This is the price you need to pay for Purchase/switch-in.</p>	<p>At the applicable NAV.</p>							
<p>Ongoing price for redemption (sale) / repurchase / switch outs (to other schemes/plans of the Mutual Fund) by investors.  This is the price you will receive for redemptions/switch outs.  <i>Example: If the applicable NAV is Rs. 10, exit load is 2% then redemption price will be:</i>  <b>Rs. 10* (1-0.02) = Rs. 9.80</b></p>	<p>At the applicable NAV subject to prevailing exit load, if any.</p> <p>The Fund will ensure that the Redemption Price will not be lower than 93% of the NAV and the Purchase Price will not be higher than 107% of the NAV, provided that the difference between Redemption Price and the Purchase Price of the units shall not exceed the permissible limit of 7% of the Purchase Price, as provided for under the Regulations.</p> <p>The Trustee Company may however, from time to time review and modify the repurchase load for each choice of investment. The Units if partially repurchased would be subtracted from the Unit balance of that Unitholder on "First In First Out" basis i.e. the Units that were offered / allotted first would be the first to be repurchased. In case amount is withdrawn, the same will be converted into Units at the applicable Repurchase price / NAV related price and the number of Units so arrived at will be subtracted from the Unit balance of that Unitholder on "First In First Out" basis. The repurchase would be permitted to the extent of credit balance in the Unitholder's account.</p> <p>The repurchase cheque will be issued in the name of the first unitholder. Under normal circumstances, the Fund will ensure that the repurchase cheques are despatched within ten business days from the date of processing the repurchase request on repurchase day. In the event of partial repurchase, the Fund shall despatch the revised Account Statement by suitable mode as decided by AMC from time to time for the balance number of Units still being held by the Unitholder along with the repurchase cheque. Credit balances in the account of a Non- Resident Unitholder on maturity or otherwise, (where RBI final approval and any other approval (if any required) has been obtained) may be repurchased by the Fund by such Unitholder in accordance with the procedure described above and also subject to any procedures laid down by RBI and any other agency. Such repurchase proceeds will be paid by means of a Rupee cheque payable to the NRE/ NRO account of the Unitholder or subject to RBI procedures and approvals, such payment in Indian Rupees will be converted into US Dollars or into any other currency, as may be permitted by RBI, at the rate of exchange prevailing at the time of remittance and will be despatched at the applicants' risk, or at the request of the applicants' will be credited to their NRE/ NRO Accounts, details of which are to be furnished in the space provided for this purpose in the Repurchase Form. The Fund will not be liable for any delays or for any loss on account of exchange fluctuations, while converting the rupee amount in US Dollar or any other currency. The Fund (if required) may also make arrangements to obtain RBI approvals on a case-by-case basis on behalf of the Unitholder, subject to the Unitholder providing the Fund with the necessary documents required.</p>

<p>Special Products / facilities</p>	<p><b>a) Systematic Investment Plan (SIP)</b></p> <p>The investors can benefit by investing specified Rupees amounts at regular intervals. The SIP allows the unitholders to invest a fixed amount of Rupees at regular intervals for purchasing additional units of the fund at NAV based prices. Investment can be done with the minimum / maximum amount and number of cheques specified by AMC from time to time. The cheques will be presented on the dates mentioned on the cheque and subject to realization. Units will be allotted at the applicable NAV along with applicable load (if any).</p> <p>"SIP facility is available subject to terms and conditions. Please refer to the SIP Enrolment form for terms and conditions before enrolment."</p> <p><b>SIP with Top-up SIP facility:</b></p> <p>SIP with Top-up SIP is a facility whereby an investor has an option to increase the amount of the SIP Installment by a fixed amount at pre-defined intervals. This will enhance the flexibility of the investor to invest higher amounts during the tenure of the SIP.</p> <p>Terms and conditions of top-up SIP are as follows:</p> <ol style="list-style-type: none"> <li>i. The Top-up option must be specified by the investors while enrolling for the SIP facility.</li> <li>ii. The minimum SIP Top-up amount is Rs. 500 and in multiples of Rs. 500.</li> <li>iii. The Top-up details cannot be modified once enrolled. In order to make any changes, the investor must cancel the existing SIP and enroll for a fresh SIP with Top-up option.</li> <li>iv. Under monthly SIP investors can opt for top up amount at half-yearly and yearly intervals. If the investor does not specify the frequency, the default interval for Top-up will be considered as Yearly.</li> <li>v. In case of Quarterly SIP, investors can opt for only Yearly interval top-up frequency.</li> </ol> <p>For complete details regarding the SIP with top-up facility please refer to SIP Auto Debt Form with Top up facility enrollment form.</p> <p><b>b) Systematic Withdrawal Plan (SWP)</b></p> <p>This facility available to the unitholders of the fund enables them to redeem fixed sums or fixed number of units from their unit accounts at periodic intervals. The amount withdrawn under SWP by redemption shall be converted into the Fund units at the Repurchase price and such units will be subtracted from the unit balance of that unitholder. In case the date falls during a book closure period the immediate next Business day will be considered for this purpose.</p> <p>The Authorised Investor Service Center may terminate SWP on receipt of a notice from the unitholder. It will terminate automatically if all units are liquidated or withdrawn from the account or upon the receipt of notification of death or incapacity of the unitholder.</p> <p>"SWP facility is available subject to terms and conditions. Please refer to the SWP Enrolment form for terms and conditions before enrolment."</p> <p><b>c) Systematic Transfer Plan (STP)</b></p> <p>A unitholder may establish a Systematic Transfer Plan (STP) and choose to transfer on a monthly or a quarterly basis from one TMF Scheme to another TMF Scheme on a date prescribed by the Investment Manager. The amount thus withdrawn by redemption shall be converted into units at the applicable NAV on the scheduled day and such units will be subtracted from the unit balance of that unitholder. Unitholders may change the amount, not below the specified minimum, by giving two weeks prior written notice to the registrars. STP may be terminated automatically if the balance falls below the minimum account balance or upon the receipt of notification of death or incapacity of the unitholders by the fund. Rules relating to the plan may be changed from time to time by the Investment Manager.</p> <p>"STP facility is available subject to terms and conditions. Please refer to the STP Enrolment form for terms and conditions before enrolment."</p>
<p>Accounts Statements</p>	<p>On acceptance of application for financial transaction, a confirmation specifying the number of Units allotted/redeemed will be sent by way of e-mail and/or SMS to the applicant's registered e-mail address and/or mobile number within five business days from the date of transaction.</p> <p>Tata Mutual Fund shall send first account statement for a new folio separately with all details registered in the folio by way of a physical account statement and/or an e-mail to the investor's registered address/email address not later than five business days from the date of subscription.</p>

	<p><b>In compliance with the Circular No. CIR/MRD/DP/31/2014 dated November 12, 2014, Circular No. SEBI/HO/IMD/DF2/CIR/P/2016/42 dated March 18, 2016 read with SEBI/HO/IMD/DF2/CIR/P/2016/89 dated September 20,2016, Tata Mutual Fund will send the Consolidated Account Statement (CAS) to investors as follows:</b></p> <ol style="list-style-type: none"> <li>1. A single Consolidated Account Statement (CAS) on basis of PAN (PAN of the first holder &amp; pattern of holding, in case of multiple holding) will be dispatched to unitholders having Mutual Fund investments &amp; holding Demat accounts by Depositories within ten days from the end of the month in which transaction (the word 'transaction' shall include all financial transactions in demat accounts/Mutual Fund folios of the investor) takes place.</li> <li>2. The CAS will not be received by the investors for the folio(s) not updated with PAN details. The Unit holders are therefore requested to ensure that the folio(s) are updated with their PAN. Such investors will get monthly account statement from Tata Mutual Fund in respect of transactions carried out in the schemes of Tata Mutual Fund during the month.</li> <li>3. In other cases i.e. where unitholders having no Demat account &amp; only MF units holding, Tata Mutual Fund shall continue to send the CAS as is being send presently within ten days from the end of the month in which financial transaction takes place.</li> <li>4. In case statements are presently being dispatched by e-mail either by the Fund or the Depository then CAS will be sent through email. However the Unitholders have an option to receive CAS in physical form at the address registered in the Depository system.</li> <li>5. The dispatch of CAS by Depositories to Unitholders would constitute compliance by Tata Asset Management Ltd / the Fund with the requirements under Regulation 36(4) of SEBI (Mutual Funds) Regulations 1996.</li> <li>6. Each CAS issued to the investors shall also provide the total purchase value / cost of investment in each scheme.</li> <li>7. In case if no transaction has taken place in a folio during the period of six months ended September 30 and March 31, the CAS detailing the holdings across all schemes of all mutual funds, shall be emailed on half yearly basis, on or before the tenth day of succeeding month, unless a specific request is made to receive the same in physical form.</li> <li>8. Half-yearly CAS shall be issued to all Mutual Fund investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period. Further, CAS issued for the half-year(September/March) shall also provide:             <ol style="list-style-type: none"> <li>a. The amount of actual commission paid by Tata AMC/Mutual Fund to distributors (in absolute terms) during the half-year period against the concerned investor's total investments in each mutual fund scheme. The term "commission" here refers to all direct monetary payments and other payments made in the form of gifts / rewards, trips, event sponsorships etc. by Tata AMC/MF to distributors. Further, a mention may be made in such CAS indicating that the commission disclosed is gross commission and does not exclude costs incurred by distributors such as applicable tax (wherever applicable, as per existing rates), operating expenses, etc.</li> <li>b. The scheme's average Total Expense Ratio (in percentage terms) along with the break up between Investment and Advisory fees, Commission paid to the distributor and other expenses for the period for each scheme's applicable plan (regular or direct or both) where the concerned investor has actually invested in.</li> </ol> </li> </ol>
Dividend	<p>In case dividend is distributed, the dividend warrants shall be dispatched to the unitholders within 30 days of the date of declaration of the dividend. In case of failure to despatch dividend proceeds within 30 days, the AMC shall be liable to pay interest to the Unit Holders at such rate as may be specified by SEBI for the period of such delay (presently @ 15% per annum).</p>
Redemption	<p>The redemption proceeds will be dispatched to the unit holders within 10 business days from the date of acceptance of the redemption request at the authorised centre of Tata Mutual Fund. The redemption cheque will be issued in the name of the first unitholder.</p> <p><b>For units held in Demat form</b></p> <p>Unitholders should submit their valid redemption request to their Depository Participant (DP). The redemption proceeds will be credited to the bank account of the Unitholder, as per the bank account details recorded with the DP through electronic modes or by forwarding a Cheque / Draft.</p>
Delay in payment of redemption / repurchase	<p>The redemption or repurchase proceeds of the Scheme will be dispatched to the unit holders within 10 business days from the date of acceptance of redemption or repurchase request. In case of failure to despatch redemption proceeds within 10 business days, the AMC shall be liable to pay interest to the Unit Holders at such rate as may be specified by SEBI for the period of such delay (presently @ 15% per annum).</p>

The HIRE Act includes Foreign Account Tax Compliance Act (FATCA), which now forms a part of the US-IR Code. The regulations for FATCA have undergone revision since 2010 and the final regulations make the FATCA provisions effective from July 1, 2014.</p> <p>The objective of FATCA is to detect "US Persons", who evade US taxes by using financial account maintained outside US. The US persons are defined as those who have either US citizenship or US residency. The FATCA stipulates reporting on -</p>

- i. US taxpayers about certain foreign financial accounts and offshore assets.
- ii. Foreign Financial Institutions (FFIs) about financial accounts with them of US taxpayers or foreign entities in which US taxpayers hold substantial ownership interest.

FFIs (including mutual funds in India) are required to periodically report information on accounts of US persons, who maintain balances above a threshold. In the event of a default in the reporting of information on accounts of US taxpayers, a withholding of 30% of the payment made from US sources will be imposed on the recalcitrant account holders and non-participating Financial Institutions. SEBI vide its circular no. CIR/MIRSD/2/2014 dated June 30, 2014, has advised that Government of India and US Government have reached an agreement in substance on the terms of an Inter-Governmental Agreement (IGA) to implement FATCA and India is now treated as having an IGA in effect from April 11, 2014. Tata Asset Management Company Limited (TAML) is classified as a Foreign Financial Institution (FFI) under the FATCA provisions and in accordance therewith, the AMC would be required to comply with the rules & regulations of FATCA, from time to time.

In order to ensure compliance with FATCA and other rules / directions / notifications as may be issued by Government of India or other regulatory authority, Mutual Funds are required to institute a process to identify US Person investors and report the same.

Applicants are required to refer to the "FATCA information" section in the application and mandatorily fill/sign off on the same. Applications without this information / declaration being filled/signed off will be deemed as incomplete and are liable to be rejected. Investors are requested to provide information required by the regulatory authority and may undergo changes on receipt of communication / guidelines from Government of India or AMFI or SEBI or any other regulatory authority.

### **Common Reporting Standard (CRS)**

On similar lines of FATCA, the Organization of Economic Development (OECD), along with the G 20 countries, of which India is a member, has released a 'Standard for Automatic Exchange of Financial Account Information in Tax matters'. In order to combat the problem of offshore tax evasion and avoidance and stashing of unaccounted money abroad, the G 20 & OECD countries have together developed a common reporting standard (CRS) on automatic exchange of information (AEOI). On June 3, 2015 India has joined the Multilateral Competent Authority Agreement (MCAA) on AEOI. The CRS on AEOI requires the financial institutions of the 'source' jurisdiction to collect and report information to their tax authorities about account holders 'resident' in other countries. The information to be exchanged relates not only to individuals, but also to shell companies and trusts having beneficial ownership or interest in the 'resident' countries.

In view of India's commitment to implement the CRS on AEOI and also the IGA with USA and with a view to provide information to other countries necessary legislative changes has already been made in Finance Act & by inserting Rules 114F to 114H and Form 61B to provide a legal basis for the Reporting Financial Institutions (RFIs) for maintaining and reporting information about the reportable accounts.

Applicants are required to refer to the "FATCA/CRS information" section in the application and mandatorily fill/sign off on the same. Applications without this information / declaration being filled/signed off will be deemed as incomplete and are liable to be rejected. Investors are requested to note that the contents of the information to be provided/ declaration in the application form may undergo a change on receipt of communication / guidelines from Government of India or AMFI or SEBI or any other regulatory authority.

With the change in guidelines, investors may be called for additional information required by the law. Investors are requested to keep Mutual Fund updated with change in information already submitted by them with Mutual Fund. FATCA provisions are relevant not only at on-boarding stage of investor(s)/unit holder(s) but also throughout the life cycle of investment with the Fund/the AMC. In view of this, Investors should immediately intimate to the Fund/the AMC, in case of any change in their status with respect to FATCA/CRS related declaration provided by them previously.

Investors(s)/Unit holder(s) should consult their own tax advisors to understand the implications of FATCA/CRS provisions /requirements.

The Fund reserves the right to include / exclude new / existing categories of investors to invest in the scheme from time to time, subject to SEBI Regulations and other than prevailing statutory regulations, if any.

If a person resident of India at the time of subscription becomes a person resident outside India subsequently, shall have the option to either be paid Redemption value of Units, or continue into the Scheme if he/ she so desires and is otherwise eligible. However, the person who desires to continue in the Scheme shall not be entitled to any interest or any compensation during the period it takes for the Fund to record the change in Address and the Residential Status. Notwithstanding the aforesaid, the Trustee Company reserves the right to close the Unitholder account and to pay the Redemption value of Units, subsequent to his becoming a person resident outside India, should the reasons of expediency, cost, interest of Unitholders and other circumstances make it necessary for the Fund to do so. In such an event, no resident Unitholders who have subsequently become resident outside India shall have a right to claim the growth in capital and/ or income distribution.

This scheme has not been registered in any country outside India. To ensure compliance with any Laws, Acts, Enactments, etc. including by way of Circulars, Press Releases, or Notifications of Government of India, the Fund may require/give verification of identity/any special/additional subscription-related information from /of the Unitholders(which may result in delay in dealing with the applications, Units, benefits, distribution, etc./giving subscription details, etc). Each Unitholder must represent and warrant to the Trustee Company/AMC that, among other things, he is able to acquire Units without violating applicable laws. The Trustee Company will not

	<p>knowingly offer or sell Units to any person to whom such offer or sale would be unlawful, or might result in the Fund incurring any liability or suffering any other pecuniary disadvantages which the Fund might not otherwise incur or suffer. Units may not be held by any person in breach of the law or requirements of any governmental, statutory authority including, without limitation, Exchange Control Regulations. The Trustee company may, compulsorily redeem any Units held directly or beneficially in contravention of these prohibitions. In view of the individual nature of investment portfolio and its consequences, each Unitholder is advised to consult his/her own professional advisor concerning possible consequences of purchasing, holding, selling, converting or otherwise disposing of the Units under the laws of his/her State/country of incorporation, establishment, citizenship, residence or domicile.</p>
<p>Dividend Policy</p>	<p><b>Dividend Option:</b></p> <p>The income / profits received / earned would be accumulated by the Fund as capital accretion, aimed at achieving medium to long term and also short term capital growth as reflected in the NAV. In the alternative and as may be decided by the Trustees the profits received / earned and so retained and reinvested may be distributed as Income at appropriate rates (after providing for all relevant ongoing expenses, etc.) The Income distribution warrants/certificate shall be despatched within 30 days of the declaration of the Income. Guided by the philosophy of value-oriented returns, the Trustee Company may periodically capitalise net earnings of the Scheme (including interest income and realised gains on the Securities) by way of allotment/credit of bonus Units to the Unitholders Accounts, the intent being to protect the Net Asset Value of the Scheme and Unitholders' interests.</p> <p><b>Dividend Reinvestment Option:</b></p> <p>Unitholders under this Option also have the facility of reinvestment of the income so declared, if so desired. Income Distribution Warrants will not be despatched to such Unitholders. The income declared would be reinvested in the Scheme on the immediately following ex-dividend date.</p> <p><b>Dividend Sweep Facility:</b></p> <p>Under this facility investor can opt for reinvestment of dividend into any other scheme of Tata Mutual Fund. This facility is available only for those investors who have opted for dividend reinvestment facility.</p> <p>Under this facility, the net dividend amount (i.e net of statutory levy / taxes if any) will be automatically invested on the ex dividend date into other scheme at the applicable NAV of the said scheme &amp; accordingly equivalent units will be allotted in lieu of dividend, subject to the terms of the said scheme. The minimum and maximum amount is not applicable for this facility. No entry load or exit load will be levied on the units issued in lieu of dividend. AMC reserves the right to modify or withdraw this facility without prior notice.</p> <p><b>Compulsory Re-investment of dividend:</b></p> <p>In order to reduce the expenses of the scheme and also for the convenience of the investors, dividend shall be compulsorily reinvested in the respective option the schemes at the applicable ex-dividend NAV if dividend amount is less than Rs. 250/- (or any other amount as may be specified by the AMC from time to time).</p>

16. Any transaction request on a Non-Business Day will be processed on the next Business Day in accordance with the provisions provided in the Scheme Information Document ('SID') of the respective scheme.
17. If the transaction is delayed or not effected at all for reasons of incomplete or incorrect information/key word or due to non-receipt of the SMS message by the RTA or due to late receipt of SMS due to mobile network congestions or due to any reason whatsoever, the Unit holder(s) will not hold the Fund, AMC and the RTA responsible for the same.
18. In case of non-receipt of confirmation from RTA within a reasonable time (around one hour), Unit holder(s) are advised to immediately call up the call centre on toll free no. 1800-209-0101 to confirm the status of the transaction request. In case of receipt of multiple confirmations from the RTA against a single transaction request, the same needs to be brought to the immediate attention of RTA and the AMC by calling up the call centre on toll free no. 1800-209-0101.
19. The Unit holder(s) availing the Facility shall check his / her bank account records carefully and promptly. If the Unit holder(s) believes that there has been an error in any transaction using the Facility, or that an unauthorized transaction has been effected, the Unit holder(s) shall notify the AMC or the RTA immediately by calling up the call centre on toll free no. 1800-209-0101. For faster dissemination of information, Unitholders are requested to provide their E-mail IDs. Delivering service through the internet & web-based services such as e-mail is a more efficient delivery channel. Annual report, Account statements & other communication will be sent via email, by default, to investors who have provided their email ID, unless specified otherwise. The Investor shall from time to time intimate the Mutual Fund / its transfer agents about any changes in the email address. In case of a large document, a suitable link would be provided & investor can download, save & print these documents. However, the investor always has a right to demand a physical copy of any or all the service deliverables, & the Fund would arrange to send the same to the investor. It is deemed that the Unitholder is aware of all the security risks associated with online communication, including the possibility of third party interception of the documents sent via email. Mutual Fund / registrar shall not be responsible for e-mail not reaching to the investors and for all consequences thereof.
20. Unitholder(s) of the Fund agrees and acknowledges that any transaction, undertaken using the registered mobile number shall be deemed to be that of the Unitholder(s).
21. Unit holder(s) will also need to inform the AMC/RTA about any change in their bank account number, mobile number or email id through a duly signed written request in the specified format and supporting documents.
22. The Unit holder(s) agree that the Fund/AMC / RTA and their agents shall not be held liable for any unsuccessful registration and or transaction due to any action or inaction of the Unit holder(s) bank including but not limited to reasons mentioned below and agree to indemnify the Fund/AMC/RTA for all liabilities, losses, damages and expenses which they may consequent sustain or incur either directly or indirectly:

  - b) Non acceptance or rejection of Debit Mandate for whatsoever reason by the Unit holder(s)' bank branch, with or without any reason assigned by the Unit holder(s) bank;
  - c) Non registration of the Debit Mandate by the Unit holder(s)' bank and branch;
  - d) Deemed registration due to non confirmation of registration or subsequent rejection by the bank and any subsequent rejection of debit of bank account for funds;
  - e) Non availability of funds in the bank account of the Unit holder(s) at the time of debit. Rejection of registration or transaction debit for any reason or without assigning any reason whatsoever.
23. Employee Unique Identification Number (EUIN): Further, SEBI has made it compulsory for every employee/ relationship manager/ sales person of the distributor of mutual fund products to quote the

	<p>EUIN obtained by him/her from AMFI in the Application Form. EUIN would assist in addressing any instance of mis-selling even if the employee/relationship manager/sales person later leaves the employment of the distributor. Hence, if your investments are routed through a distributor please ensure that the EUIN is correctly filled up in the Registration Form. However, if your distributor has not given you any advice pertaining to the investment, the EUIN box may be left blank. In this case you are required to tick ( ) the declaration to this effect as given in the form.</p> <p>The AMC reserve the right to reject an application if it deems appropriate.</p>
<p>Transactions through online facilities/electronic modes</p>	<p>Investor can transact through online facilities /electronic modes in Tata Mutual Fund Scheme. The time of transaction done through various online facilities / electronic modes offered by the AMC, for the purpose of determining the applicability of NAV, would be the time when the request for purchase / sale / switch of units is received in the servers of AMC/RTA.</p> <p>In case of transactions through online facilities / electronic modes, the movement of funds from the investors' bank account to the Scheme's bank account may happen via the Intermediary / Aggregator service provider through a Nodal bank account and post reconciliation of fund. The process of movement of funds from the investors' bank account into the Scheme's Bank account in case of online transaction is governed by Reserve Bank of India(RBI)vide their circular Ref. RBI/2009-10/231 DPSS.CO.PD.No.1102/02.14.08/2009-10 dated 24th November, 2009. The process followed by the aggregator and the time lines within which the Funds are credited into the Scheme's bank account is within the time lines provided by RBI which is T+3 settlement cycle / business days, where T is the date of Transaction / day of intimation regarding completion of transaction. The nodal bank account as stated above is an internal account of the bank and such accounts are not maintained or operated by the intermediary / aggregator or by the Mutual Fund.</p> <p>While the movement of Funds out of the investors' Bank account may have happened on T day, however post reconciliation and as per statutory norms, the allotment can happen only on availability of Funds for utilization by the AMC/MF and accordingly the transaction will processed as per the applicable NAV based on availability of funds for utilization. This lag may impact the applicability of NAV for transactions where NAV is to be applied, based on actual realization of funds by the Scheme. Under no circumstances will Tata Asset Management Limited or its bankers or its service providers be liable for any lag / delay in realization of funds and consequent pricing of units.</p>
<p>Official Points of Acceptance of Transaction through MF utility</p>	<p>Tata Mutual Fund has entered into an agreement with MF Utilities India Private Limited ("MFUI"), a "Category II - Registrar to an Issue" under SEBI (Registrars to an Issue and Share Transfer Agents) Regulations, 1993, for usage of MF Utility ("MFU") - a shared services initiative of various asset management companies, which acts as a transaction aggregator for transacting in multiple scheme of various mutual funds with a single form and a single payment instrument. Accordingly, all the authorized Point of Sales(POS) and website/mobile application of MFUI (available currently and also updated from time to time) shall be eligible to be considered as 'official points of acceptance' for all financial and non-financial transactions in the scheme of Tata Mutual Fund either physically or electronically. The list of POS of MFUI is published on the website of MFUI at <a href="http://www.mfuindia.com">www.mfuindia.com</a>.</p> <p>Applicability of NAV shall be based on time stamping as evidenced by confirmation slip given by POS ofMFUI and also the realization of funds in the Bank account of Tata Mutual Fund (and NOT the time ofrealization of funds in the Bank account of MFUI) within the applicable cut-off timing. The Uniform Cut -off time as prescribed by SEBI and mentioned in the SID / KIM shall be applicable for applications receivedthrough such facilities.</p> <p>Investors are requested to note that MFUI will allot a Common Account Number ("CAN") i.e. a single reference number for all investments in the mutual fund industry for transacting in multiple scheme of various mutual funds through MFU and to map existing folios, if any. Investors can create a CAN by submitting the CAN Registration Form and necessary documents at the POS. The AMC and/or its Registrar and Transfer Agent shall provide necessary details to MFUI as may be needed for providing the required services to investors/distributors through MFU. Investors are requested to visit the website of MFUI i.e. <a href="http://www.mfuindia.com">www.mfuindia.com</a> to download the relevant forms.</p> <p>For any queries or clarifications related to MFU, please contact the Customer Care of MFUI on 1800-266-1415 (during the business hours on all days except Sunday and public holidays) or send an email to <a href="mailto:toclientservices@mfuindia.com">toclientservices@mfuindia.com</a>.</p>
<p>Cash Investments</p>	<p>Cash Investments in the Scheme Pursuant to SEBI circular dated September 13, 2012 and SEBI circular dated May 22, 2014, it is permitted to accept cash transactions to the extent of Rs. 50,000/- subject to compliance with Prevention of Money Laundering Act, 2002 and Rules framed there under and the SEBI Circular(s) on Anti Money Laundering (AML) and other applicable AML rules, regulations and guidelines. Provided that the limit shall be applicable per investor for investments done in a financial year across all scheme of the Mutual Fund, subject to sufficient systems and procedures in place for such acceptance. However any form of repayment either by way of redemption, dividend, etc. with respect to such cash investment shall be paid only through banking channel.</p> <p>Tata Asset Management Limited is in process of implementing adequate systems and controls to accept Cash Investment in the Scheme. Information in this regard will be provided to Investors as and when the facility is made available.</p>

Sale in a future in securities	Seller	0.01%
Sale of unit of an equity oriented fund to the Mutual Fund itself	Seller	0.001%

The Fund is responsible for collecting the STT from every person who sells the Unit to it at the rate mentioned above. The STT collected by the Fund during any month will have to be deposited with the Central Government by the seventh day of the month immediately following the said month.

**The information stated above is based on Tata Mutual Fund understanding of the tax laws and only for the purpose of providing general information to the unit holders of the schemes. In view of the individual nature of tax implications, each unit holder is advised to consult with his or her own tax advisors with respect to the specific tax and other implications arising out of the restructuring.**

If any tax liability arising post redemption on account of change in tax treatment with respect to Dividend Distribution Tax/Capital Gain Tax, by the tax authorities, shall be solely borne by the investors and not by the AMC or Trustee Company.

**For further details on taxation please refer the clause on taxation in SAI.**

### C. COMPUTATION OF NAV

Net Asset Value ("NAV") of the Units shall be determined daily as of the close of each Business Day on which the Bombay Stock Exchange (BSE) is open.

NAV shall be calculated in accordance with the following formula:

$$\text{NAV} = \frac{\text{Market Value of Scheme's Investments} + \text{Accrued Income} + \text{Receivables} + \text{Other Assets} - \text{Accrued Expenses} - \text{Payables} - \text{Other Liabilities}}{\text{Number of Units Outstanding}}$$

The computation of Net Asset Value, valuation of Assets\*, computation of applicable Net Asset Value (related price) for ongoing Sale, Redemption, Switch and their frequency of disclosure shall be based upon a formula in accordance with the Regulations and as amended from time to time including by way of Circulars, Press Releases, or Notifications issued by SEBI or the Government of India to regulate the activities and growth of Mutual Funds. The NAVs of the fund shall be rounded off upto four decimals.

Due to difference in the expense ratio, the NAV of each option of Direct Plan will be different from the NAV of each option of Regular Plan. Similarly due to dividend payout, the NAV of Dividend Option will be different from the NAV of Growth option.

The valuation of investments shall be based on the principles of fair valuation specified in the Schedule VIII of the SEBI (Mutual Funds) Regulations, 1996 and guidelines issued by SEBI /AMFI from time to time.\* Please refer Para V. of SAI on 'Investment valuation norms for securities & other assets for details.

Each option of the scheme will have a separate NAV.
