- Income of the Fund totally exempt from income tax under Section 10 (23D) of the Income Tax Act, 1961.

I. INTRODUCTION

A. RISK FACTORS

Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down
- Mutual Funds and securities investments are subject to market risks and there can be no assurance and no guarantee that the Scheme will achieve its objective.
- As with any investment in stocks, shares and securities, the NAV of the Units under this Scheme can go up or down, depending on the factors and forces affecting the capital markets.
- Past performance of the previous Schemes, the Sponsors or its Group / Affiliates / AMC / Mutual Fund is not indicative of and does not guarantee the future performance of the Scheme.
- The sponsors are not responsible or liable for any loss resulting from the operations of the scheme beyond the initial contribution of Rs. 1 lakh made by them towards setting up of the mutual fund.
- Tata Infrastructure Tax Saving Fund is only the name of the Scheme and does not in any manner indicate either the quality of the Scheme, its future prospects or the returns. Investors therefore are urged to study the terms of the Offer carefully and consult their tax and Investment Advisor before they invest in the Scheme.
- The scheme, being a sector specific scheme, will be affected by risk associated with Infrastructure and Infrastructure related sectors.
- The present scheme is not a guaranteed or assured return scheme.

Scheme Specific Risk Factors:

Liquidity and Settlement Risks

The liquidity of the Scheme's investments may be inherently restricted by trading volumes, transfer procedures and settlement periods. From time to time, the Scheme will invest in certain securities of certain companies, industries, sectors, etc. based on certain investment parameters as adopted internally by TAML.

The funds invested by the Scheme in certain securities of industries, sectors, etc. may acquire a substantial portion of the Scheme's investment portfolio and collectively may constitute a risk associated with non-diversification and thus could affect the value of investments.

Reduced liquidity in the secondary market may have an adverse impact on market price and the Scheme's ability to dispose of particular securities, when necessary, to meet the Scheme's liquidity needs or in response to a specific economic event or during restructuring of the Scheme's investment portfolio. Furthermore, from time to time, the Asset Management Company, the Custodian, the Registrar, any Associate, any Distributor, Dealer, any Company, Corporate Bodies, Trusts, any Retirement and Employee Benefit Funds or any Associate or otherwise, any scheme / mutual fund managed by the Asset Management Company or by any other Asset Management Company may invest in the Scheme.

While at all times the Trustee Company and the Asset Management Company will endeavour that excessive holding of Units in the Scheme among a few Unitholders is avoided, however, the funds invested by these aforesaid persons may acquire a substantial portion of the Scheme's outstanding Units and collectively may constitute a majority unitholder in the Scheme.

Redemption of Units held by such persons may have an adverse impact on the value of the Units of the Scheme because of the timing of any such redemptions and this may impact the ability of other Unitholders to redeem their respective Units.

Investment Risks

The value of, and income from, an investment in the Scheme can decrease as well as increase, depending on a variety of factors which may affect the values and income generated by the Scheme's portfolio of securities. The returns of the Scheme's investments are based on the current yields of the securities, which may be affected generally by factors affecting capital markets such as price and volume, volatility in the stock markets, interest rates, currency exchange rates, foreign investment, changes in Government and Reserve Bank of India policy, taxation, political, economic or other developments, closure of the Stock Exchanges etc. Investors should understand that the investment pattern indicated, in line with prevailing market conditions, is only a hypothetical example as all investments involve risk and there is no assurance that the Scheme's investment objective will be attained or that the Scheme be in a position to maintain the model percentage of investment pattern particularly under exceptional circumstances.

Different types of securities in which the scheme would invest in the scheme information document carry different levels and types of risk. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern. e.g corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated.

The Scheme will endeavour to invest in highly researched growth/ value stocks. However the growth associated with equities is generally high as also the erosion in the value of the investments/ portfolio in the case of the capital markets passing through a bearish phase is a distinct possibility. The NAV of the scheme is largely dependent on the performance of the companies and the sectors wherein the investment has been made. The scheme may use techniques and instruments (as disclosed in the clause "portfolio turnover") for efficient portfolio management and to attempt to hedge or reduce the risk of such fluctuations.

However these techniques and instruments if imperfectly used have the risk of the scheme incurring losses due to mismatches particularly in a volatile market. The Fund's ability to use these techniques may be limited by market conditions, regulatory limits and tax considerations (if any). The use of these techniques is dependent on the ability to predict movements in the prices of securities being hedged and movements in interest rates. There exists an imperfect correlation between the hedging instruments and the securities or market sectors being hedged. Besides, the fact that skills needed to use these instruments are different from those needed to select the Fund's / Scheme's securities. There is a possible absence of a liquid market for any particular instrument at any particular time even though the futures and options may be bought and sold on an organised exchange. The use of these techniques involves possible impediments to effective portfolio management or the ability to meet repurchase / redemption requests or other short-term obligations because of the percentage of the Scheme's assets segregated to cover its obligations.

Risk Associated with Securitised Debt

Scheme may invest in domestic securitized debt such as asset backed securities (ABS) or mortgage backed securities (MBS). Asset Backed Securities (ABS) are securitized debts where the underlying assets are receivables arising from automobile loans, personal loans, loans against consumer durables, etc. Mortgage backed securities (MBS) are securitized debts where the underlying assets are receivables arising from loans backed by mortgage of residential / commercial properties. ABS/MBS instruments reflect the undivided interest in the underlying pool of assets and do not represent the obligation of the issuer of ABS/MBS or the originator of the underlying receivables. The ABS/MBS holders have a limited recourse to the extent of credit enhancement provided. If the delinquencies and credit losses in the underlying pool exceed the credit enhancement provided, ABS/MBS holders will suffer credit losses. ABS/MBS are also normally exposed to a higher level of reinvestment risk as compared to the normal corporate or sovereign debt. At present in Indian market, following types of loans are amortised :

- Auto Loans (cars / commercial vehicles /two vehicles)
- Residential Mortgages or Housing Loans
- Consumer Durable Loans
- Personal Loans

The main risks pertaining to each of the asset classes above are described below:

TATA INFRASTRUCTURE TAX SAVING FUND

Auto Loans (cars / commercial vehicles /two vehicles)

- The underlying assets (cars etc) are susceptible to depreciation in value whereas the loans are given at high loan to value ratios. Thus, after a few months, the value of asset becomes lower than the loan outstanding. The borrowers, therefore, may sometimes tend to default on loans and allow the vehicle to be repossessed.
- These loans are also subject to model risk. ie if a particular automobile model does not become popular, loans given for financing that model have a much higher likelihood of turning bad. In such cases, loss on sale of repossession vehicles is higher than usual.
- Commercial vehicle loans are susceptible to the cyclical nature in the economy. In a downturn in economy, freight rates drop leading to higher defaults in commercial vehicle loans. Further, the second hand prices of these vehicles also decline in such economic environment.

Housing Loans

- Housing loans in India have shown very low default rates historically. However, in recent years, loans have been given at high loan to value ratios and to a much younger borrower classes. The loans have not yet gone through the full economic cycle and have not yet seen a period of declining property prices. Thus the performance of these housing loans is yet to be tested and it need not conform to the historical experience of low default rates.

Consumer Durable Loans

- The underlying security for such loans is easily transferable without the bank's knowledge and hence repossession is difficult.
- The underlying security for such loans is also susceptible to quick depreciation in value. This gives the borrowers a high incentive to default.

Personal Loans

- These are unsecured loans. In case of a default, the bank has no security to fall back on.
- The lender has no control over how the borrower has used the borrowed money.

Further, all the above categories of loans have the following common risks:

- All the above loans are retail, relatively small value loans. There is a possibility that the borrower takes different loans using the same income proof and thus the income is not sufficient to meet the debt service obligations of all these loans.
- In India, there is no ready database available regarding past credit record of borrowers. Thus, loans may be given to borrowers with poor credit record.
- In retail loans, the risks due to frauds are high.

Securities Lending Risks

It may be noted that this activity would have the inherent probability of collateral value drastically falling in times of strong downward market trends, rendering the value of collateral inadequate until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and/or the approved intermediary may suddenly suffer severe business setback and become unable to honour its commitments. This, along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Besides, there is also temporary illiquidity of the securities that are lent out and the scheme will not be able to sell such lent out securities until they are returned.

Interest Rate Risk

As with debt instruments, changes in interest rate may affect the Scheme's net asset value. Generally the prices of instruments increase as interest rates decline and decrease as interest rates rise. Prices of long-term securities fluctuate more in response to such interest rate changes than short-term securities. Indian debt and government securities markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.

Credit Risk

Credit risk or Default risk refers to the risk that an issuer of a fixed income security may default (i.e. the issuer will be unable to make timely principal and interest payments on the security). Because of this risk corporate debentures are sold at a higher yield above those offered on Government Securities which are sovereign obligations and free of credit risk. Normally, the value of a fixed income securities will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

Reinvestment Risk

This risk refers to the difference in the interest rate levels at which cash flows received from the securities in the schemes are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows are reinvestment may be lower than that originally assumed.

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. These conditions will be complied with immediately after the close of the NFO itself i.e. at the time of allotment. In case of non-fulfillment with the condition of minimum 20 investors, the Scheme shall be wound up in accordance with Regulation 39 (2) (c) of SEBI (MF) Regulations automatically without any reference from SEBI. In case of non-fulfillment with the condition of 25% holding by a single investor on the date of allotment, the application to the extent of exposure in excess of the stipulated 25% limit would be liable to be rejected and the allotment would be effective only to the extent of 25% of the corpus collected. Consequently, such exposure over 25% limits will lead to refund within 6 weeks of the date of closure of the New Fund Offer.

II. INFORMATION ABOUT THE SCHEME

A. TYPE OF THE SCHEME

A 10 years close ended equity linked saving scheme with a compulsory lock-in period of three years.

B. INVESTMENT OBJECTIVE OF THE SCHEME

The investment objective of the scheme is to seek to provide medium to long term capital gain by investing predominantly in equity / equity related instruments of the companies in infrastructure and infrastructure related sectors along with the income tax benefit to its unitholders.

C. ASSET ALLOCATION AND RISK PROFILE

Under normal circumstances, the total assets of the Scheme, shall (after providing for all ongoing expenses) generally be invested / the indicative asset allocation shall be as follows:

Instrument	Proportion** (% of Funds Available / Net Asset)		Risk Profile
	Minimum	Maximum	
Equity and equity related instruments	80	100	High
Out of above:			
Equity and equity related instruments of companies in infrastructure and infrastructure related sectors	65	100	
Debt, money market and securitized debt instruments*.	0	20	Low to Medium

* The Scheme will invest in securitized debt upto 20% of the Net Assets of the scheme only if it is permitted under the ELSS Guidelines in future.

** At the time of investment

The Scheme will not take any exposure to ADR/GDR's or to any form of derivative instruments and will do so in future only if specifically enabled by any amendment to ELSS guidelines in future.

This allocation is not absolute and may vary depending upon prevailing market conditions and the AMC may alter the asset allocation for short periods on defensive considerations.

No investments will be made in foreign securitised debt.

Not more than 25% of the net assets of the scheme shall be deployed in securities lending. The Scheme would limit its exposure, with regards to securities lending, for a single intermediary, to the extent of 5% of the total net assets of the scheme at the time of lending.

Investment in Securitised Debt

Securitized debt would be maximum upto 20% of total net assets of the scheme (only if it is permitted under the ELSS Guidelines in future). Inherently, securitized debt is a riskier instrument as compared to similar debt instruments, as shown by the risk factors for securitized debt. The fund manager would therefore use great caution / discretion whilst dealing in such paper he would use it only in situation where the securitized debt is giving a marginally better return for a similarly profiled debt instrument or conversely, if a securitized debt instrument and a debt instrument are giving the same yield but the debt instrument is rated one notch lower in rating profile. It would be endeavored to ensure that the over all risk profile of the portfolio does not get materially concentrated in securitized debt, and usage is only to get a better yield if the risk profile of the portfolio is not affected too adversely.

TATA INFRASTRUCTURE TAX SAVING FUND

The Trustee Company may from time to time for a short term period on defensive consideration invest upto 100% of the funds available in Money Market Instruments, the primary motive being to protect the Net Asset Value of the Scheme and protect unitholders interests so also to earn reasonable returns on liquid funds maintained for redemption/repurchase of units. The Trustee Company may from time to time for a short term period under exceptional circumstances on defensive consideration modify/ alter the investment pattern / asset allocation the intent being to protect the Net Asset Value of the Scheme & Unitholders interests without seeking consent of the unitholders.

Change in Investment Pattern

The Investment Pattern as outlined above is indicative. Investment strategy and pattern may be deviated from time to time, provided such modification is in accordance with the Scheme objective and Regulations as amended from time to time including by way of Circulars, Press Releases, or Notifications issued by SEBI or the Government of India to regulate the activities and growth of Mutual Funds, the intent being to protect the Net Asset Value of the Scheme and Unitholders' interests. The asset allocation pattern may be modified in the interest of investors; and to protect the NAV of the Schemes, however, the same will be reviewed by the trustee on a quarterly basis and will be rebalanced to its normal position in a time frame as permitted by the trustee. However, the AMC will endeavour to achieve a normal asset allocation pattern in a maximum period of 3 months.

D. WHERE WILL THE SCHEME INVEST

The funds collected under the scheme shall be invested in equities, cumulative convertible preference shares and fully convertible debentures and bonds of companies. Investment may also be made in partly convertible issues of debentures and bonds including those issued on rights basis subject to the condition that, as far as possible, the non-convertible portion of the debentures so acquired or subscribed, shall be disinvested within a period of twelve months.

As per the ELSS Guidelines, it shall be ensured that funds of the scheme shall remain invested to the extent of at least eighty per cent in securities specified above. The Fund shall strive to invest their funds in the manner stated above within a period of six months from the date of closure of the New Fund Offer of the scheme. In exceptional circumstances, this requirement may be dispensed with by the Fund, in order that the interests of the unitholders are protected.

Pending investment of funds of the scheme in the required manner, Mutual Fund may invest the funds in short-term money market instruments or other liquid instruments or both. After three years of the date of allotment of the units, the Scheme may hold upto twenty per cent of net assets in short-term money market instruments and other liquid instruments to enable them to redeem investment of those unitholders who would seek to tender the units for repurchase.

Equity and equity related instruments will include:

- Equity Shares of listed and Unlisted companies;
- Preference shares
- Convertible debentures*
- Convertible Preference shares

* If convertible debentures are partly convertible debentures instead of fully convertible debentures then, as far as possible, the non-convertible portion of the debentures so acquired or subscribed, shall be disinvested within a period of 12 months.

Investment in Debt Instruments will include:

- Securities created and issued by the Central and State Governments and/or repos/reverse repos in such Government
- Securities as may be permitted (including but not limited to fixed or floating coupon bearing bonds, zero coupon bonds and treasury bills).
- Securities guaranteed by the Central and State Government (including but not limited to fixed or floating coupon bearing bonds, zero coupon bonds and treasury bills).
- Corporate debt and securities (of both public and private sector undertakings) including Bonds, Debentures, Notes, Strips etc. (Including but not limited to fixed or floating coupon bearing and zero coupon securities).
- Fixed/Floating rate money market instruments permitted by SEBI, in the call money market or in alternative investments for the call money market as may be provided by RBI to meet the liquidity requirements.
- Certificate of Deposits
- Commercial Paper
- The non-convertible part of convertible securities.
- Pass through, Pay through or other Participation Certificates representing interest in a pool of assets including receivables.
- Any other like instruments as may be permitted by SEBI from time to time.

The fund will, in general invest a significant part of its corpus in equities of companies in infrastructure and infrastructure related sector. However, pending investments in equities; the surplus amount of the fund should be invested in money market instruments. Also whenever good investment opportunity are not available, or the equity market is not likely to perform in the view of the Fund manager the Fund will reduce its exposure to equity and during that period the surplus asset of the Fund shall be invested in debt and money market instruments. However there is no assurance that all such buying and selling activities would necessarily result in benefit for the Fund. The allocation between debt and equity will be decided based upon the prevailing market conditions, macro economic environment, and the performance of the corporate sector, the equity market and other considerations. At time such churning could lead to higher brokerage and transaction costs.

Subject to the Regulations, the investments may be in securities which are listed or unlisted, secured or unsecured, rated or unrated, having variable maturities, and acquired through secondary market purchases, RBI auctions, open market sales conducted by RBI etc., Initial Public Offers (IPOs), other public offers, placements, rights, offers, negotiated deals, etc

The Scheme may also enter into repurchase and reverse repurchase obligations in all securities held by it as per the guidelines and Regulations applicable to such transactions. The main aim of such steps will be to protect the interests of the unitholders. The above investment policies are in conformity with the provisions of various constitutional documents viz. MOA/AOA of the TAML/ Trustee Company, IMA and the Trust Deed.

TATA INFRASTRUCTURE TAX SAVING FUND

The Scheme will purchase securities in the public offerings and rights issues, as well as those traded in the secondary markets. On occasions, if deemed appropriate, the Scheme will invest in securities sold directly by the issuer, or acquired in a negotiated transaction or issued by way of private placement. The moneys collected under this scheme shall be invested only in marketable securities.

As per SEBI (Mutual Funds) Regulations 1996, the Fund shall not make any investments in any un-listed securities of associate/group companies of the Sponsors. The Fund will also not make investment in privately placed securities issued by associate / group companies of the Sponsors. The Fund may invest not more than 25% of the net assets in listed securities of Group companies. The Scheme may invest subscription money received from the investing public before close of the New fund offer Period and/or pending allotment of Units, in money market instrument. In addition, TAML on being satisfied or receipt of the minimum subscription amount can commence investment out of the funds received, in accordance with the investment objective of the scheme. Income earned (net of expenses) during the period prior to the date of allotment on units shall be merged with the income of the Scheme on completion of the allotment of the Units. In the event of non receipt of the minimum subscription amount, the Trustee Company shall ensure that the entire amount collected as subscription money is refunded to the Unitholders notwithstanding any loss arising out of such investment during the interim period.

E. THE INVESTMENT STRATEGIES

Infrastructure sector plays important role in country's development and GDP growth. India has already negotiated the difficult transition from public infrastructure creation to a market-determined model. An ambitious reform programme initiated involving a shift from a controlled to an open market economy has opened doors for private sector / foreign investment in infrastructure projects such as energy, petroleum, telecommunications transportation sectors etc. And in the Indian context, removal of regulatory and availability constraints on any product or service, has catalyzed investments, attracted competition and rationalized costs leading to a new growth trajectory. The infrastructure sector in the country is thus poised for accelerated growth in the coming years. There is already momentum in highways, power generation and ports, where a successful track record has fostered a virtuous cycle of more success.

With India rapidly moving on the path to establishing itself as a global sourcing base for manufactured products and gearing up to carve a share of the textile opportunity post-quota removal in 2005, it is imperative that ports be modernized. The macro-level fiscal budget linked solution for the overdue of SEBs to utilities (NTPC, NHPC), the successful implementation of the Accelerated Power Development & Reforms Programme (APDRP) to modernize the overloaded T&D network and the legislation of comprehensive reforms by way of the Electricity Act 2003 all have paved way for large investment in the Power sector. The biggest trigger for the oil & gas sector is the large gas finds. Besides, with the sector put on the reform track beginning with dismantling of Administered Pricing Mechanism (APM) in April 2002, competitive pressures are set to intensify and refinery upgradation to meet Euro-II & III fuel norms are a given. Telecom is another sector where significant progress has been made. India is already the fastest growing mobility market in the world.

Infrastructure sector comprises of Energy, Power and Power Equipment, Oil & Gas and related industries, Petroleum and related industries, Coal, Mining, Aluminium and other Metal Industries, Steel and Steel Utilities, Engineering, Construction and Construction Related Industries, Cement, Transportation, Ports, Telecommunications, Housing, Banking and Financial Services and Healthcare and Related Industries. This list is indicative and the AMC may add such other sector/group industries which broadly satisfy the category of infrastructure sectors.

The Scheme will invest primarily in equity / equity related instruments of the companies in infrastructure sector. The scheme may also invest in debt instruments such as non convertible portion of Convertible Debentures (Khokas), Non Convertible Debentures, Securitised Debt, Secured Premium Notes, Zero Interest Bonds, Deep Discount Bonds, Floating Rate Bonds / Notes, Government securities and Money Market Instrument like Repos, Commercial Paper, Certificate of Deposit, Treasury Bills, etc.

Pending deployment of funds of a scheme in terms of investment objectives of the scheme, a mutual fund may invest them in short term deposits of schedule commercial banks, subject to such Guidelines as may be specified by the Board..

The Scheme will emphasize well managed, high quality companies with above average growth prospects that can be purchased at a reasonable price. Typically these companies will be highly competitive, with a large and growing market share. In selecting specific stocks, the Asset Management Company will consider and evaluate amongst various criteria network, consistent growth, strong cash flows, high return on capital etc. Investment in fixed income securities (wherever possible) will be mainly in investment grade listed / unlisted securities. In case of investment in debt instruments that are not rated, specific approval of the Board of AMC and Trustee Company will be taken.

Investment in Equities

Mix of top down and bottom up approach will be used to invest in equity and equity related instruments. Other sectors, where the scheme may invest in addition to the infrastructure sector, will be identified based on the Fund Management Team's analysis of business cycles, regulatory reforms, competitive advantage, future outlook etc. Selective stock picking will be done from these sectors. The Stock selection will be based on the fundamentals of the business, the industry structure, the quality of management, corporate governance trends, sensitivity to economic factors, the financial strength of the company and the key earnings drivers.

Since investing requires disciplined risk management, the AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process. Risk will also be reduced through adequate diversification of the portfolio.

Investment in Debt Securities

Interest rates are volatile with no clear direction of upward or downward movement in yield. Investment pattern will be flexible for the fund manager to shuffle between short term floating rate papers, money market instruments and long term floating rate papers, depending on the liquidity of the paper, spreads between different maturity segments and taking into consideration all other factors effecting bond market. The Scheme would invest in companies based on various criteria including sound professional management, track record, industry scenario, growth prospectus, liquidity of the securities, etc. The Scheme will emphasise on well managed, good quality companies with above average growth prospectus whose securities can be purchased at a good yield and whose debt securities are concerned investments (wherever possible) will be mainly in securities listed as investments grade by a recognised authority like The Credit Rating and Information Services of India Limited (CRISIL), ICRA Limited (formerly, Investment Information and Credit Rating Agency of India Limited), Credit Analysis and Research Limited (CARE) etc. In case of investments in debt instruments that are not rated, specific approval of the Board will be taken except in case of Government Securities being sovereign bonds. However, in case of investment in unrated securities prior board approval is not necessary if investment is within the parameters as stipulated by the board.

TATA INFRASTRUCTURE TAX SAVING FUND

Portfolio Turnover

The portfolio turnover is expected to be between 50% and 100%. The AMC will endeavour to optimise portfolio turnover to optimise risk adjusted return keeping in mind the cost associated with it. A high portfolio turnover rate is not necessarily a drag on portfolio performance and may be representative of arbitrage opportunities that exist for scrips / securities held in the portfolio rather than an indication of change in AMC's view on a scrip etc. However, the AMC will take advantage of the opportunities that present themselves from time to time because of the inefficiencies in the securities markets.

F. FUNDAMENTAL ATTRIBUTES

Following are the Fundamental Attributes of the scheme, in terms of Regulation 18 (15A) of the SEBI (MF) Regulations:

(i) Type of a scheme

A 10 years close ended equity linked saving scheme with a compulsory lock-in period of three years.

(ii) Investment Objective

The investment objective of the scheme is to seek to provide medium to long term capital gain by investing predominantly in equity / equity related instruments of the companies in infrastructure and infrastructure related sectors along with the income tax benefit to its unitholders.

Investment Pattern and Risk Profile:

Under normal circumstances, the total assets of the Scheme, shall (after providing for all ongoing expenses) generally be invested / the indicative asset allocation shall be as follows:

Instrument	Proportion** (% of Funds Available / Net Asset)		Risk Profile
	Minimum	Maximum	
Equity and equity related instruments Out of above:	80	100	High
Equity and equity related instruments of companies in infrastructure and infrastructure related sectors	65	100	
Debt, money market and securitized debt instruments*.	0	20	Low to Medium

* The Scheme will invest in securitized debt upto 20% of the Net Assets of the scheme only if it is permitted under the ELSS Guidelines in future.

** At the time of investment

The Scheme will not take any exposure to ADR/GDR's or to any form of derivative instruments and will do so in future only if specifically enabled by any amendment to ELSS guidelines in future.

The Trustee Company may from time to time, for a short term period on defensive consideration, modify / alter the investment pattern / asset allocation, the intent being to protect the Net Asset Value of the Scheme and Unitholders interests, without seeking consent of the unitholders.

(iii) Terms of Issue

Repurchase facility: Investments made in the scheme shall be subject to a compulsory lock-in period of three years from the date of allotment. Hence, investors will not be able to redeem their investments before expiry of three years from the date of allotment. However, after completion of three years' lock-in facility, repurchase facility shall be available on all business days.

Please note that In the event of the death of the unitholder, the nominee or legal heir, as the case may be, shall be able to withdraw the investment only after the completion of one year from the date of allotment of the units to the unitholder or any time thereafter.

Aggregate fees and expenses charged to the scheme – Please refer section "IV FEES AND EXPENSES" for details.

Change in Fundamental Attributes of the scheme:

In accordance with Regulation 18(15A) of the SEBI (MF) Regulations, the Trustees shall ensure that no change in the fundamental attributes of the Scheme(s) and the Plan(s) / Option(s) thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme(s) and the Plan(s) / Option(s) thereunder and affect the interests of Unitholders is carried out unless:

- (i) A written communication about the proposed change is sent to each Unitholder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and
- (ii) The Unitholders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any exit load.

G. SCHEME BENCHMARK

BSE SENSEX is the benchmark index for Tata Infrastructure Tax Saving Fund.

The composition of the aforesaid benchmarks is such that, they are most suited for comparing performance of the respective plans. The Trustees may change the benchmark in future if a benchmark better suited to the investment objective of the scheme is available.

I. Restrictions on Investments (as per seventh schedule of SEBI {Mutual Funds} Regulations 1996)

1. No Mutual Fund under all its Schemes should own more than 10% of the Companies paid-up capital carrying voting rights.
2. Transfers of investments from one scheme to another scheme in the same mutual fund shall be allowed only if:-
 - (a) such transfers are done at the prevailing market price for quoted instruments on spot basis.
Explanation- "spot basis" shall have same meaning as specified by stock exchange for spot transactions.
 - (b) the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.
3. A scheme may invest in another scheme under the same asset management company or any other mutual fund without charging any fees, provided that aggregate interscheme investment made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund.
Provided that this clause shall not apply to any fund of funds scheme.
4. Every mutual fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:
Provided that a mutual fund may engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by the Board:
Provided further that a mutual fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by the Board."
5. Every mutual fund shall, get the securities purchased or transferred in the name of the mutual fund on account of the concerned scheme, wherever investments are intended to be of long term nature.
6. Pending deployment of funds of a scheme in terms of investment objectives of the scheme, a mutual fund may invest them in short term deposits of schedule commercial banks, subject to such Guidelines as may be specified by the Board."
7. No mutual fund scheme shall make any investment in;
 - a) any unlisted security of an associate or group company of the sponsor; or
 - b) any security issued by way of private placement by an associate or group company of the sponsor; or
 - c) the listed securities of group companies of the sponsor which is in excess of 25% of the net assets of the schemes.
8. No Mutual Fund Schemes shall invest more than 10% of its NAV in the equity shares or equity related instruments of any Company including units/securities of Venture Capital Funds.
Provided that, the limit of 10 per cent shall not be applicable for investments in case of index fund or sector or industry specific scheme.

TATA INFRASTRUCTURE TAX SAVING FUND

9. A Mutual Fund shall not invest more than 10% of its NAV in unlisted equity shares or equity related instruments including units/securities of Venture Capital Funds in case of close ended scheme.

9A) No scheme of a mutual fund shall make any investment in any fund of fund scheme.

These investment limitations / parameters (as expressed / linked to the net asset / net asset value / capital) shall in the ordinary course apply as at the date of the most recent transaction or commitment to invest, and changes do not have to be effected merely because, owing to appreciations or depreciations in value, or by reason of the receipt of any rights, bonuses or benefits in the nature of capital or of any scheme of arrangement or of amalgamation, reconstruction or exchange, or at any repayment or redemption or other reason outside the control of the Fund, any such limits would thereby be breached. If these limits are exceeded for reasons beyond its control, TAML shall adopt as a priority objective the remedying of that situation, taking due account of the interests of the Unitholders.

In addition, certain investment parameters (like limits on exposure to Sectors, Industries, Companies, etc.) may be adopted internally by TAML, and amended from time to time, to ensure appropriate diversification / security for the Fund. The Trustee Company / TAML may alter these above stated internal limitations from time to time, and also to the extent the SEBI (Mutual Funds) Regulations, 1996 change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its investment objective. As such all investments of the Scheme will be made in accordance with SEBI (Mutual Funds) Regulations, 1996, including Schedule VII thereof.

Investment by the Fund and the Asset Management Company

According to the Clause 4 of Schedule 7 read with Regulation 44(1), of the SEBI (MF) Regulations, 1996, the scheme may invest in another scheme/plan/fund under the management of TAML or any other mutual fund without charging any fees. The aggregate interscheme investments made by all schemes/plans/funds in the schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund.

TAML (the AMC) may invest in the scheme(s)/plan(s)/fund(s), either in the initial issue or on an ongoing basis, such amount, as they deem appropriate. The AMC shall not be entitled to charge any management fees on this investment in the scheme(s)/plan(s)/ fund(S). Investments by the AMC will be in accordance with Regulation 24(3) of the SEBI (MF) Regulations, 1996.

Securities Lending by the Mutual Fund

Subject to the SEBI Regulations as applicable from time to time the Fund may, if the Trustee permits, engage in Stock Lending. Stock Lending means the lending of securities to another person or entity for a fixed period of time at a negotiated compensation in order to enhance returns of the scheme portfolio. The securities lent will be returned by the borrower on the expiry of the stipulated period. The AMC will adhere to the following strict internal limits should it engage in Stock Lending.

Not more than 25% of the net assets of the scheme can generally be deployed in stock lending and not more than 5% of the scheme can be can be deployed in Stock lending to any single counterparty. Collateral would always be obtained by the approved intermediary. Collateral value would always be more than the value of the security lent. Collateral can be in form of cash, bank guarantee, government securities, as may be agreed upon with the approved intermediary, and would also be subject to a mark to market valuation on a daily basis.

Example:

A fund has an equity share of a company which it would wish to hold for a long period of time as a core holding in the portfolio as per the fund manager's plan. In that case the investors would be benefited only to the extent of the rise in the value of the share, from time to time if any, on the exchange. If the fund is enabled to lend the said security to a borrower who would be wanting to take advantage of the market fluctuations in its price, the borrower would return the security to the lender (scheme) at a stipulated time or on demand for a negotiated compensation. The fund's unitholders can enhance their returns to the extent of the compensation it will earn for lending the same. An adequate security or collateral will have to be maintained by the intermediary. This should always be higher than the cost of the security. Thus it is in the interest of the investors that returns can be enhanced by way of stock lending rather than hold the security only for capital appreciation potential.

Thus the scenario under which the fund would participate in stock lending would be :

1. There is a holding of security eg 1 lakh shares of XYZ Ltd in the fund which the fund manager wants to be the core holding of the scheme for approximately 6 to 12 months.
2. There is a borrower (not mutual fund) for the security, (who has taken a short position in the market and needs XYZ Ltd shares to settle it) who is willing to put up a proper collateral for the same.(In all cases higher than the price of the script).
3. The borrower is represented by a proper recognized intermediary.
4. The agreement is to return the security or the amount so negotiated at a particular period of time or on demand.

Then the security will be lent by the fund and the unitholders would benefit from the additional compensation earned for lending, apart from the capital appreciation which also happens in that stock. Thus, to summarize, stock lending would be done by the scheme only in the following circumstances:

- a) If permitted by trustees and the extent SEBI regulations in that regard, from time to time.
- b) If such activity generates additional returns for the scheme and helps to enhance the scheme returns.
- c) If considering the above, and other factors all considered in totality, such activity is in the interest of unitholders in the scheme.

Securities Lending Risks

It may be noted that this activity would have the inherent probability of collateral value drastically falling in times of strong downward market trends, rendering the value of collateral inadequate until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and/or the approved intermediary may suddenly suffer severe business setback and become unable to honour its commitments. This, along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Besides, there is also temporary illiquidity of the securities that are lent out and the scheme will not be able to sell such lent out securities until they are returned.

J. PERFORMANCE OF THE SCHEME

"This scheme is a new scheme and does not have any performance track record"

III. UNITS AND OFFER

This section provides details you need to know for investing in the scheme.

A. NEW FUND OFFER (NFO)

New Fund Offer (NFO) Period	NFO opens on: 17 th December, 2008 NFO closes on: 16 th March, 2009 The Trustee reserves the right to modify the closing date, subject to the condition that the subscription list shall be kept open at least for three months.
New Fund Offer Price: This is the price per unit that the investors have to pay to invest during the NFO.	Rs. 10/- per unit for cash at face value plus applicable load
Minimum Amount for Application in the NFO	Dividend Option: Rs. 500/- & in Multiple of Rs. 500/- thereafter. Growth Option: Rs. 500/- & in Multiple of Rs. 500/- thereafter
Minimum Target amount This is the minimum amount required to operate the scheme and if this is not collected during the NFO period, then all the investors would be refunded the amount invested without any return. However, if AMC fails to refund the amount within 6 weeks, interest as specified by SEBI (currently 15% p.a.) will be paid to the investors from the expiry of six weeks from the date of closure of the subscription period.	Rs. 2 lakh.
Maximum Amount to be raised (if any) <i>This is the maximum amount which can be collected during the NFO period, as decided by the AMC.</i>	No upper limit
Plans / Options offered	Growth Option and Dividend Option dividend option has the facility of payout and reinvestment.
Dividend Policy	<p>In case of Growth Option the income / profits received / earned would be accumulated by the Fund as capital accretion, aimed at achieving medium to long term and also short term capital growth as reflected in the NAV. In case of Dividend Option the profits received / earned and so retained and reinvested may be distributed as Income at appropriate rates (after providing for all relevant ongoing expenses, etc.) and at appropriate intervals as may be decided by the AMC and/or Trustee Company will be distributed to the unitholders who hold the units on the record date of declaration of the Income. The Income distribution warrants shall be despatched within 30 days of the declaration of the Income. Guided by the philosophy of value-oriented returns, the Trustee Company may periodically capitalise net earnings of the Scheme (including interest income and realised gains on the Securities) by way of allotment/credit of bonus Units to the Unitholders Accounts in either option.</p> <p>The Fund reserves a right modify the periodicity and manner of payout of such dividend as they deem fit without giving any further notice to unitholders.</p> <p>The Fund does not assure any targeted annual return / income nor any capitalisation ratio. Accumulation of earnings and / or capitalisation of bonus units and the consequent determination of NAV, may be suspended temporarily or indefinitely under any of the circumstances as stated in the clause "Suspension of Ongoing Sale, Repurchase or Switchout of Units."</p> <p>Units issued by dividend reinvestment will also be subject to a lock-in period of 3 years from the date of allotment or maturity of the scheme whichever is earlier. Tax benefit however, will not be available to units issued on account of dividend reinvested.</p> <p>Dividend Sweep Facility</p> <p>Under this facility investor can opt for reinvestment of dividend into any other scheme of Tata Mutual Fund. This facility is available only for those investors who have opted for dividend reinvestment facility. This facility is not available to those investors who have opted for dividend payout facility. Under this facility, the net dividend amount (i.e net of statutory levy / taxes if any) will be automatically invested on the ex dividend date into other scheme of Tata Mutual Fund specified by the investor at the applicable NAV of that scheme & accordingly equivalent units will be allotted in lieu of dividend, subject to the terms of the schemes. The minimum and maximum amount is not applicable for this facility. No entry load or exit load will be levied on the units issued in lieu of dividend. AMC reserves the right to modify or withdraw this facility without prior notice.</p> <p>Default Option:</p> <p>Please note that if no Option is mentioned / indicated in the Application form, the units will, by default, be allotted under the Growth Option. In case Dividend option is indicated but sub-option i.e. pay-out or re-investment is not indicated then the units will, by default, be allotted under dividend payout option.</p>
Allotment	Deemed date of allotment is March 31, 2009. Allotment of units is assured to all investors subject to receipt of minimum subscription amount, verification of application form and realization of cheque

TATA INFRASTRUCTURE TAX SAVING FUND

	<p>and compliance of the provisions of 'Requirement of Minimum Investors in the scheme', full allotment will be made to all valid applications received during the New Fund Offer Period.</p> <p>Allotment of Units and despatch of Account Statements to FIIs will be subject to RBI approval. Any addition/ deletion of name from the folio of the unitholder is deemed as transfer of units. But the Units of the Scheme are not transferable.</p> <p>In view of the same, additions/ deletion of names will not be allowed under any folio of the Scheme.</p> <p>The above provisions in respect of deletion of names will not be applicable in case of death of unitholder (in respect of joint holdings) as this is treated as transmission of units and not transfer.</p> <p>An Account Statement will be despatched to each Unitholder stating the number of Units held, etc. within a maximum of thirty days from the date of allotment.</p> <p>On request from the unitholders, the Asset Management Company shall within 6 weeks issue the Unit Certificate. The request can be made to any of the Authorised Investor Service Centres. The cost for issuing the Unit Certificate in lieu of Account Statement will be borne by the Scheme and will form part of its annual ongoing expenses.</p>
Refund	<p>Refund of subscription money to applicants whose applications are invalid for any reason whatsoever, will be without incurring any liability whatsoever for interest or other sum.</p> <p>The fund will also refund the application money, if it fails to collect the minimum target amount.</p> <p>The entire amount shall be refunded within a period of 6 weeks of the closure of the New Fund Offer Period. If, the Fund refunds the amount after 6 weeks, interest @ 15% per annum for delayed period shall be paid by the AMC. Refund orders will be marked "A/c. TATA INFRASTRUCTURE TAX SAVING FUND

The policy regarding reissue of repurchased units, including the maximum extent, the manner of reissue, the entity (the scheme or the AMC) involved in the same.	The AMC may reissue at its discretion upto 100% of the units repurchased at applicable load, if any.
Restrictions, if any, on the right to freely retain or dispose of units being offered.	The Units of the Scheme are not transferable. In view of the same, additions/ deletion of names will not be allowed under any folio of the Scheme. The above provisions in respect of deletion of names will not be applicable in case of death of unitholder (in respect of joint holdings) as this is treated as transmission of units and not transfer. Units issued under the scheme can be assigned or pledged after three years of its issue. Please refer SAI for the procedure of transmission & pledging..
Bank Account Details	It shall be mandatory for the Unitholders to mention their bank account numbers in their applications/requests for redemptions. Unitholders are requested to give the full particulars of their Bank Account i.e. nature and number of account, name, Account Number, Nine digit MICR code No. (For Electronic Credit Facility), IFSC code for NEFT a 11 digit number, branch address of the bank at the appropriate space in the application form.
Evidence of Investment	The investment made in the scheme by the unitholder will be acknowledged by the Fund by issue of certificate of investment or a statement of account.

B. ONGOING OFFER DETAILS

Ongoing Offer Period This is the date from which the scheme will reopen for subscriptions / redemptions after the closure of the NFO period.	Being a close-ended Scheme, investors can subscribe to the Units of the Scheme during the New Fund Offer Period only and the scheme will not reopen for subscriptions after the closure of NFO. Redemption / repurchase facility will be available on all business days after completion of the compulsory lock-in period i.e. three years from the date of allotment.
Ongoing price for subscription (purchase) / switch-in (from other schemes / plans of the mutual fund) by investors. This is the price you need to pay for purchase/switch-in. <i>Example: If the applicable NAV is Rs. 10, entry load is 2% then sales price will be:</i> $Rs. 10 * (1+0.02) = Rs. 10.20$	Units cannot be subscribed after the closure of NFO.
Ongoing price for redemption / repurchase /switch outs (to other schemes/plans of the Mutual Fund) by investors. This is the price you will receive for redemptions/switch outs. <i>Example: If the applicable NAV is Rs. 10, exit load is 2% then redemption price will be:</i> $Rs. 10 * (1-0.02) = Rs. 9.80$	Investment in the scheme shall be subject to a lock in period of three years from the date of allotment. After the expiry of three years from the date of allotment, the fund shall provide repurchase / redemption facility on all business days and requests for repurchase can be submitted on any Business Days, at our Authorised Service Centres (mentioned in this SID). The repurchase request can be made for a minimum of Rs. 500/- / 50 units or in multiples of Rs.500/- or for all the Units. The Units will be repurchased (sold back to the Fund) at the relevant NAV less any administrative cost and other charges termed as Repurchase Load and which shall be the applicable Repurchase price / NAV related price. The repurchase price will be in accordance with Regulation 49(3) of the Securities Exchange Board of India (Mutual Funds) Regulations, 1996, which shall not be lower than 95% of the NAV. The Trustee Company may however, from time to time review and modify the repurchase load for each choice of investment. The Units if partially repurchased would be subtracted from the Unit balance of that Unitholder on "First In First Out" basis i.e. the Units that were offered / allotted first would be the first to be repurchased. In case amount is withdrawn, the same will be converted into Units at the applicable Repurchase price / NAV related price and the number of Units so arrived at will be subtracted from the Unit balance of that Unitholder on "First In First Out" basis. The repurchase would be permitted to the extent of credit balance in the Unitholder's account. The repurchase cheque will be issued in the name of the first unitholder. Under normal circumstances, the Fund will ensure that the repurchase cheques are despatched within ten business days from the date of processing the repurchase request on repurchase day. In the event of partial repurchase, the Fund shall despatch the revised Account Statement for the balance number of Units still being held by the Unitholder along with the repurchase cheque. Credit balances in the account of a Non- Resident Unitholder on maturity or otherwise, (where RBI final approval and any other approval (if any required) has been obtained) may be repurchased by the Fund by such Unitholder in accordance with the procedure described above and also subject to any procedures laid down by RBI and any other agency. Such repurchase proceeds will be paid by means of a Rupee cheque payable to the NRE/ NRO account of the Unitholder or subject to RBI procedures and approvals, such payment in Indian Rupees will be converted into US Dollars or into any other currency, as may be permitted by RBI, at the rate of exchange prevailing at the time of remittance and will be despatched at the applicants' risk, or at the request of the applicants' will be credited to their NRE/ NRO Accounts, details of which are to be furnished in the space provided for this purpose in the Repurchase Form. The Fund will not be liable for any delays or for any loss on account of exchange fluctuations, while converting the rupee amount in US Dollar or any other currency. The Fund (if required) may also make arrangements to obtain RBI approvals on a case-by-case basis on behalf of the Unitholder, subject to the Unitholder providing the Fund with the necessary documents required.

TATA INFRASTRUCTURE TAX SAVING FUND

	<p><i>Please note that In the event of the death of the unitholder, the nominee or legal heir, as the case may be, shall be able to withdraw the investment only after the completion of one year from the date of allotment of the units to the unitholder or any time thereafter.</i></p>
<p>Cut off timing for redemptions and switch out</p> <p>This is the time before which your application (complete in all respects) should reach the official points of acceptance.</p>	<p>As per Section 80C of the Income Tax Act, 1961, repurchase of units of Tata Infrastructure Tax Saving Fund can be done any time after the expiry of lock-in period i.e. three years from the date of allotment. Hence, following cut-off timings are applicable only after completion of the lock-in period:</p> <p>In respect of valid redemption application accepted at a designated collection centre upto 3 p.m. on any business day by the Mutual Fund, the closing NAV of such business day will be applicable.</p> <p>In respect of valid redemption application accepted at a designated collection centre after 3 pm any business day, the NAV of next business day will be applicable.</p> <p>Valid application for “switch out” shall be treated as redemption and the relevant NAV of “Switch Out” shall be applicable accordingly.</p>
Where can the applications for redemption and switches be submitted?	The details of official points of acceptance etc. are provided on the back cover page of this SID.
Minimum amount for redemption and switches	The repurchase / switch out request can be made for a minimum of Rs. 500/- / 50 units or in multiples of Rs. 500/- thereafter or for all the Units.
Minimum balance to be maintained and consequences of non maintenance.	<p>After completion of Lock-in period, the Fund may mandatorily redeem all the Units of any Unitholder:</p> <p>a. If the account balance falls below 50 units due to normal repurchase/switch/ redemption after 3 years from the date of allotment. The fund shall have discretion to redeem balance units remaining in the account of a unitholder. A written intimation 30 days prior to compulsorily redemption shall be sent to unitholder; or</p> <p>b. where the Units are held by a Unitholder in breach of any regulations; or</p> <p>c. The repurchase would be permitted to the extent of credit balance in the Unitholder's account.</p>
Special Products available after completion of three years' lock-in period	<p>Systematic Withdrawal Plan (SWP)</p> <p>This facility is available after the expiry of lock-in period of three years to enable unitholders of the scheme to withdraw fixed sums from their unit accounts at periodic intervals. The amount withdrawn under SWP by redemption shall be converted into the Scheme units at the Repurchase price and such units will be subtracted from the unit balance of that unitholder. In case the date falls during a book closure period the immediate next Business day will be considered for this purpose. The Authorised Investor Service Center may terminate SWP on receipt of a notice from the unitholder. It will terminate automatically if all units are liquidated or withdrawn from the account or upon the receipt of notification of death or incapacity of the unitholder.</p> <p>“SWP facility is available subject to terms and conditions. Please refer to the SWP enrolment form for terms and condition before enrolment”</p> <p>Systematic Transfer Plan (STP)</p> <p>A unitholder may, after the expiry of lock-in period of three years, establish a Systematic Transfer Plan (STP) and choose to transfer on a monthly or a quarterly basis from the scheme to another TMF Scheme on a date prescribed by the Investment Manager. The amount thus withdrawn by redemption shall be converted into units at the applicable NAV on the scheduled day and such units will be subtracted from the unit balance of that unitholder. Unitholders may change the amount, not below the specified minimum, by giving two weeks prior written notice to the registrars. STP may be terminated automatically if the balance falls below the minimum account balance or upon the receipt of notification of death or incapacity of the unitholders by the fund. Rules relating to the plan may be changed from time to time by the Investment Manager.</p> <p>“STP facility is available subject to terms and conditions. Please refer to the STP enrolment form for terms and condition before enrolment”</p>
Duration of the scheme	<p>The duration of the scheme is ten years. The units under the scheme stand automatically redeemed on maturity. However investors under the scheme can redeemed the units on any business day before the maturity but after the expiry of initial lock-in period of three years at the relevant repurchase price.</p> <p>If ninety per cent or more of the units under any plan are repurchased before completion of ten years, the Fund may at their discretion, terminate that plan even before the stipulated period of ten years; and redeem the outstanding units at the final repurchase price to be fixed by them.</p>

TATA INFRASTRUCTURE TAX SAVING FUND

D. COMPUTATION OF NAV

After expiry of one year from the date of allotment, Net Asset Value ("NAV") of the Units shall be determined on all business days on which the Bombay Stock Exchange is working.

NAV shall be calculated in accordance with the following formula:

$$\frac{\text{Market Value of Scheme's Investments} + \text{Accrued Income} + \text{Receivables} + \text{Other Assets} - \text{Accrued Expenses} - \text{Payables} - \text{Other Liabilities}}{\text{Number of Units Outstanding}}$$

NAV= _____

Number of Units Outstanding

The computation of Net Asset Value, valuation of Assets, computation of applicable Net Asset Value (related price) for ongoing Redemption, Switch Out and their frequency of disclosure shall be based upon a formula in accordance with the Regulations and as amended from time to time including by way of Circulars, Press Releases, or Notifications issued by SEBI or the Government of India to regulate the activities and growth of Mutual Funds. The NAVs of the fund shall be rounded off upto four decimals.

As per the **Equity Linked Savings Scheme, 2005 dated 3/11/2005** While calculating the repurchase price, the Mutual Fund shall take into account the unrealised appreciation in the value of the investment of the funds of the scheme to the extent they deem fit provided that it shall not be less than fifty per cent of such unrealized appreciation. While calculating the repurchase price, the Funds may deduct such sums as are appropriate to meet management, selling and other expenses including realisation of assets and such sums shall not exceed five per cent per annum of the average Net Asset Value of the scheme.

IV. FEES AND EXPENSES

This Section outlines the expenses that will be charged to the scheme.

TATA INFRASTRUCTURE TAX SAVING FUND

A. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid marketing and advertising, registrar expenses, printing and stationary, bank charges etc.

The new fund offer expenses of 'Tata Infrastructure Tax Saving Fund' shall be met out of the entry load and excess if any shall be borne by the AMC. As such, for every Rs. 100/- contributed by the investor, whole of Rs. 100/- (net of entry load) will be available to the scheme for investment.

B. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated following percentage of the weekly average net assets of the scheme will be charged to the scheme as expenses. For the actual current expenses being charged, the investor should refer to the website of the mutual fund.

These estimates have been made in good faith as per the information available to the Investment Manager based on past experience and are subject to change inter-se. Types of expenses charged shall be as per the SEBI (MF) Regulations.

Investment Management fees charged by TAML shall be 1.25% of the weekly average net assets for net assets upto Rs. 100 crores and 1.00% of the weekly average net assets on the balance amount above Rs. 100 crores. This fee shall be conformity with SEBI Regulations & shall be payable at a frequency as agreed between the AMC and Trustees from time to time. TAML shall not charge any fees on its investment in Units of the Funds/Schemes/Plans in TMF or any other Mutual Fund.

The recurring expenses of the Schemes, and the additional management fee shall be as per the limits prescribed under Sub-Regulations (6) of Regulations 52 of the Regulations and shall not exceed the limits prescribed thereunder.

As per the Regulations, the maximum recurring expenses that can be charged to the Scheme shall be subject to a percentage limit of weekly net assets as in the table below:

First Rs. 100 crore	Next Rs. 300 crore	Next Rs. 300 crore	Over Rs. 700 crore
2.50%	2.25%	2.00%	1.75%

C. LOAD STRUCTURE

Load is an amount which is paid by the investor to subscribe to the units or to redeem the units from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.tatamutualfund.com) or may call at (1800-209-0101) or your distributor.

Type of Load	Load chargeable (as %age of NAV)
Entry	For each investment amount of less than Rs. 2 Crore: 2.25%
	For each investment amount of greater than or equal to Rs. 2 Crore: NIL
Exit	NIL

No loads shall be charged on the units subscribed by any fund of fund scheme.

Bonus units and units issued on reinvestment of dividends shall not be subject to entry and exit load.

All loads including Contingent Deferred Sales Charge (CDSC) for the Scheme shall be maintained in a separate account and may be utilised towards meeting the selling and distribution expenses. Any surplus in this account may be credited to the scheme, whenever felt appropriate by the AMC.

The investors are requested to check the prevailing load structure of the scheme before investing.

The AMC reserves the right to change/modify exit / switchover load (including zero load), depending upon the circumstances prevailing at any given time. However any change in the load structure will be applicable on prospective investment only. The AMC may charge an exit load for switch of

TATA INFRASTRUCTURE TAX SAVING FUND

units from one plan/option to another plan/option within the Scheme and/or any other scheme of TMF depending upon the circumstances prevailing at any given time. The switchover load may be different for different plans/options and the switchover load may be different from the entry and/or exit load charged for sale and/or repurchase units. The load charged could also be different for different options in the plans of the Scheme at the same time and different as regards the amount/tenor of investment, etc.

As per SEBI circular dt. May 23, 2008, the mutual fund at the time of changing the load structure, the mutual funds may consider the following measures to avoid complaints from investors about investment in the schemes without knowing the loads:

- The introduction of the exit load / CDSC along with the details may be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load/CDSC.
- The addendum detailing the changes may be attached to Scheme Information Documents and Key Information Memorandum. The addendum may be circulated to all the distributors/brokers so that same can be attached to all Scheme Information Documents and Key information memoranda already in stock.
- The investor is requested to check the prevailing load structure of the scheme before investing. For any change in load structure arrangement may be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centers and distributor/ brokers' office.
- A public notice shall be given in respect of such changed in one English daily newspaper having nationwide circulation as well as in a newspaper publishes in the language of region where the Head office of Mutual Fund is situated.

D. WAIVER OF LOAD FOR DIRECT APPLICATIONS

No entry load shall be charged for direct applications (for fresh subscription, as additional subscription by the existing investors and switch applications)) received by the AMC i.e applications received through internet or applications accepted at the offices of AMC or authorised investor service Centres that are not routed through any distributor or agent/broker. Such applications may be marked DIRECT or NOT APPLICABLE in the broker code column of the application form/transaction slip. In case of any change in the broker code column, the investor has to strike off the earlier entry, enter the new code (DIRECT, NOT APPLICABLE OR BROKER CODE) and the same has to be counter signed. Application / Transaction slip for subscription or switch in without mention of broker code or where the broker code column is blank, shall be treated as direct application.
