I. INTRODUCTION

A. RISK FACTORS

Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down
- Mutual Funds and securities investments are subject to market risks and there can be no assurance and no guarantee that the Scheme will achieve its objective.
- As with any investment in stocks, shares and securities, the NAV of the Units under this Scheme can go up or down, depending on the factors and forces affecting the capital markets.
- Past performance of the previous Schemes, the Sponsors or its Group / Affiliates / AMC / Mutual Fund is not indicative of and does not guarantee the future performance of the Scheme.
- The sponsors are not responsible or liable for any loss resulting from the operations of the scheme beyond the initial contribution of Rs. 1 lakh made by them towards setting up of the mutual fund.
- Tata Liquid Fund is only the name of the Scheme and does not in any manner indicate either the quality of the Scheme, its future prospects or the returns. Investors therefore are urged to study the terms of the Offer carefully and consult their tax and Investment Advisor before they invest in the Scheme.
- The present scheme is not a guaranteed or assured return scheme.

Scheme Specific Risk Factors:

Liquidity and Settlement Risks

The liquidity of the Scheme's investments may be inherently restricted by trading volumes, transfer procedures and settlement periods. From time to time, the Scheme will invest in certain securities of certain companies, industries, sectors, etc. based on certain investment parameters as adopted internally by TAML. While at all times the Asset Management Company will endeavour that excessive holding/investment in certain securities of industries, sectors, etc. by the Scheme is avoided, the funds invested by the Scheme in certain securities of industries, sectors, etc. may acquire a substantial portion of the Scheme's investment portfolio and collectively may constitute a risk associated with non-diversification and thus could affect the value of investments. Reduced liquidity in the secondary market may have an adverse impact on market price and the Scheme's ability to dispose of particular securities, when necessary, to meet the Scheme's liquidity needs or in response to a specific economic event or during restructuring of the Scheme's investment portfolio. Furthermore, from time to time, the Asset Management Company, the Custodian, the Registrar, any Associate, any Distributor, Dealer, any Company, Corporate Bodies, Trusts, any Retirement and Employee Benefit Funds or any Associate or otherwise, any scheme / mutual fund managed by the Asset Management Company or by any other Asset Management Company may invest in the Scheme. While at all times the Trustee Company and the Asset Management Company will endeavour that excessive holding of Units in the Scheme among a few Unitholders is avoided, however, the funds invested by these aforesaid persons may acquire a substantial portion of the Scheme's outstanding Units and collectively may constitute a majority unitholder in the Scheme. Redemption of Units held by such persons may have an adverse impact on the value of the Units of the Scheme because of the timing of any such redemptions and this may impact the ability of other Unitholders to redeem their respective Units.

Investment Risks

The value of, and income from, an investment in the Scheme can decrease as well as increase, depending on a variety of factors which may affect the values and income generated by the Scheme's portfolio of securities. The returns of the Scheme's investments are based on the current yields of the securities, which may be affected generally by factors affecting capital markets such as price and volume, volatility in the stock markets, interest rates, currency exchange rates, foreign investment, changes in Government and Reserve Bank of India policy, taxation, political, economic or other developments, closure of the Stock Exchanges etc. Investors should understand that the investment pattern indicated, in line with prevailing market conditions, is only a hypothetical example as all investments involve risk and there is no assurance that the Scheme's investment objective will be attained or that the Scheme be in a position to maintain the model percentage of investment pattern particularly under exceptional circumstances.

Different types of securities in which the scheme would invest in, as mention in this SID, carry different levels and types of risk. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern. e.g corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated.

The scheme may use techniques and instruments (as disclosed in the clause "portfolio turnover") for efficient portfolio management and to attempt to hedge or reduce the risk of such fluctuations. However these techniques and instruments if imperfectly used have the risk of the scheme incurring losses due to mismatches particularly in a volatile market. The Fund's ability to use these techniques may be limited by market conditions, regulatory limits and tax considerations (if any). The use of these techniques is dependent on the ability to predict movements in the prices of securities being hedged and movements in interest rates. There exists an imperfect correlation between the hedging instruments and the securities or market sectors being hedged. Besides, the fact that skills needed to use these instruments are different from those needed to select the Fund's / Scheme's securities. There is a possible absence of a liquid market for any particular instrument at any particular time even though the futures and options may be bought and sold on an organised exchange. The use of these techniques involves possible impediments to effective portfolio management or the ability to meet repurchase / redemption requests or other short-term obligations because of the percentage of the Scheme's assets segregated to cover its obligations.

Risk Associated with Securitised Debt

Scheme may invest in domestic securitized debt such as asset backed securities (ABS) or mortgage backed securities (MBS). Asset Backed Securities (ABS) are securitized debts where the underlying assets are receivables arising from automobile loans, personal loans, loans against consumer durables, etc. Mortgage backed securities (MBS) are securitized debts where the underlying assets are receivables arising from loans backed by mortgage of residential / commercial properties. ABS/MBS instruments reflect the undivided interest in the underlying pool of assets and do not represent the obligation of the issuer of ABS/MBS or the originator of the underlying receivables. The ABS/MBS holders have a limited recourse to the extent of credit enhancement provided. If the delinquencies and credit losses in the underlying pool exceed the credit enhancement provided, ABS/MBS holders will suffer credit losses. ABS/MBS are also normally exposed to a higher level of reinvestment risk as compared to the normal corporate or sovereign debt. At present in Indian market, following types of loans are amortised:

- Auto Loans (cars / commercial vehicles /two wheelers)
- Residential Mortgages or Housing Loans
- Consumer Durable Loans
- Personal Loans

The main risks pertaining to each of the asset classes above are described below:

Auto Loans (cars / commercial vehicles /two wheelers)

- The underlying assets (cars etc) are susceptible to depreciation in value whereas the loans are given at high loan to value ratios. Thus, after a few months, the value of asset becomes lower than the loan outstanding. The borrowers, therefore, may sometimes tend to default on loans and allow the vehicle to be repossessed.
- These loans are also subject to model risk. ie if a particular automobile model does not become popular, loans given for financing that model have a much higher likelihood of turning bad. In such cases, loss on sale of repossession vehicles is higher than usual.
- Commercial vehicle loans are susceptible to the cyclical in the economy. In a downturn in economy, freight rates drop leading to higher defaults in commercial vehicle loans. Further, the second hand prices of these vehicles also decline in such economic environment.

Housing Loans

- Housing loans in India have shown very low default rates historically. However, in recent years, loans have been given at high loan to value ratios and to a much younger borrower classes. The loans have not yet gone through the full economic cycle and have not yet seen a period of declining property prices. Thus the performance of these housing loans is yet to be tested and it need not conform to the historical experience of low default rates.

Consumer Durable Loans

- The underlying security for such loans is easily transferable without the bank's knowledge and hence repossession is difficult.
- The underlying security for such loans is also susceptible to quick depreciation in value. This gives the borrowers a high incentive to default.

Personal Loans

- These are unsecured loans. In case of a default, the bank has no security to fall back on.
- The lender has no control over how the borrower has used the borrowed money.

Further, all the above categories of loans have the following common risks:

- All the above loans are retail, relatively small value loans. There is a possibility that the borrower takes different loans using the same income proof and thus the income is not sufficient to meet the debt service obligations of all these loans.
- In India, there is no ready database available regarding past credit record of borrowers. Thus, loans may be given to borrowers with poor credit record.
- In retail loans, the risks due to frauds are high.

Securities Lending Risks

It may be noted that this activity would have the inherent probability of collateral value drastically falling in times of strong downward market trends, rendering the value of collateral inadequate until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and/or the approved intermediary may suddenly suffer severe business setback and become unable to honour its commitments. This, along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Besides, there is also be temporary illiquidity of the securities that are lent out and the scheme will not be able to sell such lent out securities until they are returned.

As with other modes of extensions of credit, there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary.

Interest Rate Risk

As with debt instruments, changes in interest rate may affect the Scheme's net asset value. Generally the prices of instruments increase as interest rates decline and decrease as interest rates rise. Prices of long-term securities fluctuate more in response to such interest rate changes than short-

term securities. Indian debt and government securities markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.

Credit Risk

Credit risk or Default risk refers to the risk that an issuer of a fixed income security may default (i.e. the issuer will be unable to make timely principal and interest payments on the security). Because of this risk corporate debentures are sold at a higher yield above those offered on Government Securities which are sovereign obligations and free of credit risk. Normally, the value of fixed income securities will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.

Investor Protection

Excessive trading into and out of the Scheme may affect its performance by disrupting portfolio management strategies and by increasing expenses. The Fund and the distributors may refuse to accept applications for Purchase, especially where transactions are deemed disruptive, particularly from market timers or investors who, in their opinion, have a pattern of short term or excessive trading or whose trading has been or may be disruptive for the Scheme.

If in the opinion of the AMC, a Unit Holder is indulging in short term or excessive trading as above, it shall, under powers delegated by the Trustee, have absolute discretion to reject any application, prevent further transaction by the Unit Holder.

Reinvestment Risk

This risk refers to the difference in the interest rate levels at which cash flows received from the securities in the schemes are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows are reinvested may be lower than that originally assumed.

Risk Factors Concerning Floating Rate Debt Instruments and Fixed Rate Debt Instruments Swapped For Floating Rate Return

1. Basis Risk (Interest Rate Movement): During the life of floating rate security or a swap the underlying benchmark index may become less active and may not capture the actual movement in interest rates or at times the benchmark may cease to exist. These type of events may result in loss of value in the portfolio.
2. Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. However depending upon the market conditions the spreads may move adversely or favourably leading to fluctuation in NAV.
3. In case of downward movement of interest rates, floating rate debt instruments will give a lower return than fixed rate debt instruments.

Risks associated with Derivatives

- Derivative products are leverage instruments and can provide disproportionate gains as well as disproportionate losses to the investors. Execution of such strategies depends upon the ability of the Fund Manager to identify such opportunities. Identification and execution of the strategies to be pursued by the Fund Manager involved uncertainty and decision of Fund Manager may not always be profitable. No assurance can be given that the Fund Manager will be able to identify or execute such strategies.
- Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative add to the portfolio and the ability to forecast price of securities being hedged and interest rate movements correctly. There is a possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counterparty") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mis-pricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments".

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme/Plan shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme/Plan(s). The two conditions mentioned above shall be complied with on a calendar quarter basis, on an average basis, as specified by SEBI in case the Scheme / Plan(s) does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme / Plan(s) shall be wound up and the units would be redeemed at applicable NAV. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days notice to redeem his exposure over the 25 % limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

C. SPECIAL CONSIDERATIONS

Money Market Securities	60	100	Low / Sovereign

Investment by the scheme in securitised debt will not normally exceed 50% of the debt investment of the Scheme.

The use of derivative will be only de done for hedging and portfolio balancing in accordance with the SEBI (Mutual Funds) Regulations and within the parameters approved by the Trustee Company. Exposure to derivative instruments will be restricted to 50% of the assets of the scheme.

Not more than 25% of the net assets of the scheme shall be deployed in securities lending. The Scheme would limit its exposure, with regards to securities lending, for a single intermediary, to the extent of 5%of the total net assets of the scheme at the time of lending.

Pursuant to Circular SEBI/IMD/CIR No.13/150975/09 dated January 19, 2009 issued by SEBI, the characteristics of the Liquid scheme have been revised as follows:

- (A)
- (i) The Liquid Fund schemes and plans shall make investment in /purchase debt and money market securities with maturity of upto 91 days only.
 - (ii) In case of securities with put and call options (daily or otherwise) the residual maturity of the securities shall not be greater than 91 days.

The explanatory notes relating to the laid under (A) above is as follow:

1. In case of securities where the principal is to be repaid in a single payout the maturity of the securities shall mean residual maturity. In case the principal is to be repaid in more than one payout then the maturity of the securities shall be calculated on the basis of weighted average maturity of security.
2. In case of securities with put and call options (daily and otherwise) the residual maturity of the securities shall not be greater than 91 days
3. In case the maturity of the security falls on a non-business day then settlement of securities will take place on the next business day.

With effect from November 01, 2009 inter-scheme transfers of securities held in other schemes having maturity of upto 91 days only shall be permitted in the Liquid Schemes.

The AMC may from time to time for a short term period on defensive consideration invest upto 100% of the funds available in Money Market Instruments, the primary motive being to protect the Net Asset Value of the Scheme and protect unitholders interests so also to earn reasonable returns on liquid funds maintained for redemption/repurchase of units.

The Trustee Company may from time to time, for a short term period on defensive consideration, modify / alter the investment pattern / asset allocation, the intent being to protect the Net Asset Value of the Scheme and Unitholders interests, without seeking consent of the unitholders.

Change in Investment Pattern

The Investment Pattern as outlined above is indicative. Investment strategy and pattern may be deviated from time to time, provided such modification is in accordance with the Scheme objective and Regulations as amended from time to time including by way of Circulars, Press Releases, or Notifications issued by SEBI or the Government of India to regulate the activities and growth of Mutual Funds, the intent being to protect the Net Asset Value of the Scheme and Unitholders' interests. The asset allocation pattern may be modified in the interest of investors; and to protect the NAV of the Schemes, however, the same will be reviewed by the trustee on a quarterly basis and will be rebalanced to its normal position in a time frame as permitted by the trustee. However, the AMC will endeavour to achieve a normal asset allocation pattern in a maximum period of 3 months. However, if such modified / deviated portfolio is not rebalanced within a period of three months then justification for such delay will be provided to the trustees.

Overview of Debt Market:

The major players in the Indian Debt Markets are banks, financial institutions, insurance companies and mutual funds. The instruments in the market can be broadly categorized as those issued by corporate, banks, financial institutions and those issued by state/central governments. The risk associated with any investments are – credit risk, interest rate risks and liquidity risk. While corporate papers carry credit risk due to changing business conditions, government securities are perceived to have zero credit risk. Interest rate risk is present in all debt securities and depends on a variety of macroeconomic factors. The liquidity risk in corporate securities market is higher compared to those of government securities. Liquidity in the corporate debt market has been improving due to the entry of more players and due to various measures taken by the regulators in this direction over a period of time. SEBI's directive of a compulsory rating by a rating agency for any public issuance over 18 months is a case in point. In times to come, dematerialization, entry of private insurance companies and growth of fixed income mutual funds are expected to enhance liquidity in corporate debt market.

The market participants in the Corporate debt and gilt markets are banks, financial institutions, mutual funds, corporates, insurance companies, FIs, primary dealers and provident funds. The main debt instruments in the market are those issued by Corporates and State/Central Governments. Corporate papers carry credit risk while government securities are believed to carry no credit risk. The main risks with investments in debt securities are interest rate risk, credit risk and liquidity risk. Interest rate risk associated with debt instruments depend on the macroeconomic environment. It includes both market price changes due to change in yields as well as coupon reinvestment rate risk. Corporate papers carry higher liquidity risk as compared to gilts due to the depth of the gilt market. Lately, we have observed higher volumes in corporate paper too due to the entry of more players in the market. Liquidity will improve further due to dematerialisation and entry of private insurance companies.

The following table attempts to give a broad overview of the available instruments in the financial markets and their risk return profile. The data given in the table is based on market conditions around the date of the Offer document and can at best be considered indicative:

Expected Yields on Debt Securities (as on 30/11/09)

Instruments		Yields (%)	Liquidity
Central/State Government Securities	Short Term	6.50	Very High
	Long Term	7.50	
PSU Bonds / Corporate Debentures	Short Term	7.50	Medium – High
	Long Term	8.50	
Securitized debt	Short Term	8.00	Low – Medium
	Long Term	9.50	
Commercial Papers / Certificates of Deposit		5.00 – 6.00	High
Notice Money		3.25	Very High
Repo		3.25	Very High

D. WHERE WILL THE SCHEME INVEST

The Scheme will invest 100% of the funds available in high yield debentures / bonds and money market instruments. To ensure liquidity, investments in money market instruments will be around 60-70% of the funds available. It is expected that around / upto 30-40% of the funds available will be invested in debt.

The funds available under the Scheme will be invested primarily in securities such as

- Money market instruments like Commercial Paper, Certificate of Deposit, short term Deposit, Treasury Bills and short term debt instruments etc. issued by various Corporates, Government - State or Central, Public Sector Undertakings,
- Non convertible portion of Convertible Debentures (Khokas), Non Convertible Debentures,
- Securities Debt (asset backed securities excluding mortgage backed securities), Secured Premium Notes,
- Zero Interest Bonds, Deep Discount Bonds, Floating Rate Bonds / Notes,
- Government Securities.

The debt / money market based liquid nature of the Scheme is a fundamental attribute of the Scheme and will not be changed without the prior approval of the majority of the unitholders. The above weightages of debentures and money market instruments may be changed depending on market condition by TAML. However, the Scheme is not a Money Market Mutual Fund Scheme. The main aim of changing the weightages of debentures and money market instruments will be to protect the interest of the unitholders and for short term defensive considerations.

The above investment policies are in conformity with the provisions of various constitutional documents viz. MOA/AOA of the TAML/Trustee Company, IMA and the Trust Deed.

On occasions, if deemed appropriate, the Scheme will invest in securities sold directly by the issuer, or acquired in a negotiated transaction. Notwithstanding the aforesaid, the proportion of investment in privately placed debentures, securities debt and other unquoted debt instruments could be increased by the Trustee Company / Asset Management Company to around 100% of the total assets / Funds available of the Scheme. The securities of the unlisted companies if purchased by the Scheme would have a clearly defined exit route either by way of Listing / Transfer to any entity other than the issuer, except when on redemption (if securities are acquired directly from the issuer). For the possible impact on liquidity of the Scheme, which might be experienced due to investment of around 100% in privately placed debentures, securitised debt and other unquoted debt instruments, please refer to the Clause "Possible Deferral of Redemption / resale requests & Compulsory redemption / repurchase" and also to the Clause on "Liquidity & Settlement Risks" under Item III - Risk Factors. The moneys collected under this Scheme shall be invested only in transferable securities in the money market or in the capital / debt market or in privately placed debentures or securitised debts or in Government securities.

As per SEBI Regulations, the Scheme shall not make any investments in any un-listed securities of associate / group companies of the Sponsors. The Fund will also not make investment in privately placed securities issued by associate / group companies of the Sponsor. The Scheme may invest not more than 25% of the net assets in listed securities of Group companies.

E. THE INVESTMENT STRATEGIES

Investment Strategy and Risk Management

The Scheme would invest in companies based on various criteria including sound professional management, track record, industry scenerio, growth prospectus, liquidity of the securities, etc. The Scheme will emphasise on well managed, good quality companies with above average growth prospectus whose securities can be purchased at a good yield and whose debt securities are concerned investments (wherever possible) will be mainly in securities listed as investments grade by a recognised authority like The Credit Rating and Information Services of India Limited (CRISIL), ICRA Limited (formerly, Investment Information and Credit Rating Agency of India Limited), Credit Analysis and Research Limited (CARE) etc. In case of investments in debt instruments that are not rated, specific approval of the Bonds will be taken.

Any change in the asset allocation affecting the investment profile of the scheme shall be effected only in accordance with the provisions of regulations 18-15A of SEBI.

Trading in Derivatives

Subject to SEBI (Mutual Fund) Regulations, 1996, the Scheme may use techniques and instruments such as trading in derivative instruments to hedge the risk of fluctuations in the value of the investment portfolio. The Scheme shall enter into derivative transactions for the purpose of hedging and portfolio balancing. In accordance with the guidelines issued by the SEBI. Exposure to derivative instruments will be restricted to 50% of the assets of the scheme.

A derivative is an instrument whose value is derived from the value of one or more of the underlying assets which can be commodities, precious metals, bonds, currency, etc. Common examples of Derivative instruments are Interest Rate Swaps, Forward Rate Agreements, Futures, Options, etc.

The scheme may use derivative instruments like Interest Rate Swaps, Forward Rate Agreements or such other derivative instruments as may be introduced from time to time and as may be permitted under the SEBI (Mutual Fund) Regulations.

Interest Rate Swaps: An Interest Rate Swap is an agreement whereby two parties agree to exchange periodic interest payments. The amount of interest payments exchanged is based on some predetermined principal, called notional principal amount. The amount each counterparty pays to the other upon periodic interest rate multiplied by the notional principal amount. The only amount that is exchanged between the parties is the interest payment, not the notional principal amount.

Example: Use of IRS

The Plans of the fund are reasonably invested, and the view of the fund manager is interest rates are expected to move up due to certain negative events which have occurred. In such cases the plans can enter into a paid position (IRS) where the plans will pay a fixed rate for a specified maturity and receive the floating rate of interest. This is illustrated below:

Example A: Use of IRS

Assuming the Scheme is having 10% of the portfolio in cash. The fund manager has a view that the interest rate scenario is bearish and call rates are likely to spurt over the next three months. The fund manager would therefore prefer to pay fixed rate of return on his cash, which he is lending in the overnight call market. In other words, he would like to move to a 91 days floating interest rate from overnight fixed rate.

1. Say Notional Amount: Rs. 2 crores
2. Benchmark: NSE MIBOR
3. Tenor: 91 Days
4. Fixed Rate: 9.90%
5. At the end of 91 days;
6. The Scheme pays: fixed rates for 91 days is 9.90%
7. TMF receives: compounded call rate at 10.25% for 91 days.

In practice, however the difference of the two amounts is settled. Here the Scheme receives Rs. $2,00,00,000 \times 0.35\% \times 91 / 365 = 17,452$. The players in IRS are scheduled commercial banks, primary dealers, corporate, mutual funds and All India Financial Institutions.

In view of the fund manager interest rates are expected to move down due to certain positive events which have occurred. In such cases the scheme can enter into a received position (IRS) where the scheme will receive a fixed rate for a specified maturity and pay the floating rate of interest. This is illustrated below:

Example B: Use of IRS

Assuming the Scheme is having 10% of the portfolio in cash. The fund manager has a view that the interest rate scenario is soft and call rates are unlikely to spurt over the next three months. The fund manager would therefore prefer to receive a higher rate of return on his cash, which he is lending in the overnight call market. In other words, he would like to move to a 91 days fixed interest rate from overnight floating rate.

1. Say Notional Amount: Rs. 2 crores
2. Benchmark: NSE MIBOR
3. Tenor: 91 Days
4. Fixed Rate: 10.25%
5. At the end of 91 days;
6. The Scheme pays: compounded call rates for 91 days is 9.90%
7. TMF receives: Fixed rate at 10.25% for 91 days.

In practice, however the difference of the two amounts is settled. Here the Scheme receives Rs. 2,00,00,000 x 0.35% x 91 / 365 = 17,452. The players in IRS are scheduled commercial banks, primary dealers, corporate, mutual funds and All India Financial Institutions.

Forward Rate Agreements (FRA):

This is an agreement between two counterparties to pay or to receive the difference between an agreed fixed rate (the FRA rate) and the interest rate prevailing on a stipulated future date based on the notional amount, for an agreed period.

The interest rate benchmarks that are commonly used for floating rate in interest rate swaps are those on various Money Market Instruments. In Indian markets, the benchmark most commonly used is MIBOR.

In view of the fund manager interest rates are expected to move up due to certain negative events which are expected to occur at a specified future date. In such cases the scheme can enter into a paid position (FRA) at a specified date in the future where the scheme will pay a fixed rate for a specified maturity and receive the floating rate of interest at a specified future date. This is illustrated below.

Example 1: Use of FRA

The fund Manager believes in 3 months time the interest rates will be higher and decides to enter into an FRA agreement to protect the portfolio return. Say the manager wants to hedge 10% of the portfolio which is for the notional amount of Rs 2 crore where the bank agrees to pay 6% fixed, in case the 6 month OIS rate is greater than 6% the bank will pay the difference to the portfolio manager 3 months hence for 6 months. Say 3 months hence the OIS rate for six months is 6.50%.

This like IRS is cash settled and the bank at the end of three months will pay the portfolio manager the following $(6.50-6.00) \times 181 \times 200,000,00 / (365 \times 100 + 6.50 \times 181) = \text{Rs } 48040.55$ for six months.

The Plans of the fund are in cash, and the view of the fund manager is interest rates are expected to move down due to certain positive events which are expected to occur at a specified future date. In such cases the plans can enter into a received position (FRA) at a specified date in the future where the plans will receive a fixed rate for a specified maturity and pay the floating rate of interest at a specified future date. This is illustrated below.

Example 2: Use of FRA

The fund Manager believes in 3 months time the interest rates will be lower and decides to enter into an FRA agreement to protect the portfolio return. Say the manager wants to hedge 10% of the portfolio which is for the notional amount of Rs 2 crore where the bank agrees to pay 6% fixed, in case the 6 month OIS rate is less than 6% the bank will pay the difference to the portfolio manager 3 months hence for 6 months. Say 3 months hence the OIS rate for six months is 5.50%.

This like IRS is cash settled and the bank at the end of three months will pay the portfolio manager the following $(6.00-5.50) \times 181 \times 200,000,00 / (365 \times 100 + 5.50 \times 181) = \text{Rs } 48272.76$ for six months.

Risks associated with Derivatives

- Derivative products are leverage instruments and can provide disproportionate gains as well as disproportionate losses to the investors. Execution of such strategies depends upon the ability of the Fund Manager to identify such opportunities. Identification and execution of the strategies to be pursued by the Fund Manager involved uncertainty and decision of Fund Manager may not always be profitable. No assurance can be given that the Fund Manager will be able to identify or execute such strategies.
- Derivative products are specialised instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative add to the portfolio and the ability to forecast price of securities being hedged and interest rate movements correctly. There is a possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counterparty") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mis-pricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments".

Portfolio Turnover

The portfolio will consist of both money market instruments as well as debt instruments as explained in the clause Investment pattern and risk profile.

The Asset Management Company will invest in securities of shorter maturities to maintain liquidity and also in longer term maturity instruments so as to give a higher return to the Unitholder.

As part of the fund management exercise, the Trustee Company may permit the use of any investment techniques (including derivatives) and instruments that may be permitted and / or that may become permissible under SEBI / RBI Regulations and / or any statutory modification or re-enactment thereof.

Fixed income analysis involves reviewing expected spreads, an assessment of fair value of appropriate benchmarks, besides analysing the local yield curve as to duration, cycle effects, credit differences, etc. The analysis of expected spreads, local yield curve, etc. results into holding-period return analysis. The Asset Management Company will invest in securities of shorter or longer maturity at its discretion. However, given the lack of depth in the domestic debt/money market, the emphasis is likely to be in favour of shorter maturities. Under normal market conditions, the Scheme will be managed so as to maintain a rupee maturity of around 91 days. Individual investments maturity shall be equal to or less than 91 days. The Fund is guided by a value oriented approach to investment and management of the portfolio and considering the indicative asset allocation, the portfolio turnover shall generally be around 80%.

Pursuant to Schedule IX read with Regulation 50 of the SEBI (Mutual Funds) Regulations 1996, the cost of investments acquired or purchased shall include brokerage, stamp, charges and any other charge customarily included in the broker's bought note while the sale proceeds of investments sold or redeemed shall be net of brokerage, stamp charges and any other charge customarily included in the broker's sale note. Therefore, brokerage, stamp charges and any other charge customarily included in broker's note shall form part of the purchase or the sale value of investment, including value of the portfolio securities owned by the Scheme, and the resultant portfolio turnover rate.

The portfolio turnover rates as indicated above are only an indication of the Scheme's potential performance in the market environment existing as of the date of this Offering Circular based on the investment objectives and policies of the Scheme and as such there is no guarantee that this portfolio turnover rates can be achieved. The expected spreads of the securities are based on the current yield / maturity values of the instruments, which may change from time to time depending upon the factors affecting capital markets such as price and volume, volatility in the stock markets, interest rates, currency exchange rates, foreign investment, changes in government and Reserve Bank of India policy, taxation, political, economic or other developments and closure of the stock exchanges.

F. FUNDAMENTAL ATTRIBUTES

Following are the Fundamental Attributes of the scheme, in terms of Regulation 18 (15A) of the SEBI (MF) Regulations:

(i) Type of a scheme

An open ended high liquidity Income Scheme.

(ii) Investment Objective

The investment objective is to create a highly liquid portfolio of good quality debt as well as money market instruments so as to provide reasonable returns and high liquidity to the unitholders.

Investment Pattern and Risk Profile:

Under normal circumstances, funds of the Scheme, shall (after providing for all ongoing expenses) generally be invested / the indicative asset allocation shall be as follows considering the objective of the Scheme:

Instruments	Indicative allocations (% of total assets)		Risk Profile
	Likely Around	Maximum Upto	High/Medium/Low
Debt & Debt Related (Listed / Securitised)	30	100	Low to Medium
Debt & Debt Related (Unlisted / Securitised)	10	80	Low to Medium
Money Market Securities	60	100	Low / Sovereign

The Trustee Company may from time to time, for a short term period on defensive consideration, modify / alter the investment pattern / asset allocation, the intent being to protect the Net Asset Value of the Scheme and Unitholders interests, without seeking consent of the unitholders.

The use of derivative will be only de done for hedging and portfolio balancing in accordance with the SEBI (Mutual Funds) Regulations and within the parameters approved by the Trustee Company. Exposure to derivative instruments will be restricted to 50% of the assets of the scheme.

(iii) Terms of Issue

Repurchase/ Resale is at Net Asset Value (NAV) related prices with repurchase / resale loads as applicable (within limits) as specified under SEBI Regulations 1996, the repurchase price shall not be lower than 93% of the NAV, the sale price will not be higher than 107% of the NAV and further that the difference between the sale and repurchase price shall not exceed 7% calculated on the sale price.

Listing is not envisaged as the Scheme is an open-ended Scheme, with the Fund providing for sales and repurchase on a continuous basis.

In accordance with Regulation 18(15A) of the SEBI (MF) Regulations, the Trustees shall ensure that no change in the fundamental attributes of the Scheme(s) and the Plan(s) / Option(s) thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme(s) and the Plan(s) / Option(s) thereunder and affect the interests of Unitholders is carried out unless:

- (i) A written communication about the proposed change is sent to each Unitholder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and
- (ii) The Unitholders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any exit load.

Maximum recurring expenses on the first Rs 100 Crores 2.25% of average weekly net assets (also refer to para on annual recurring expenses in this SID).

G. SCHEME BENCHMARK

Crisil Liquid Fund Index

The composition of the aforesaid benchmarks is such that, they are most suited for comparing performance of the respective plans. The Trustees may change the benchmark in future if a benchmark better suited to the investment objective of the scheme is available.

I. Restrictions on Investments (as per seventh schedule of SEBI {Mutual Funds} Regulations 1996)

1. A mutual fund scheme shall not invest more than 15% of its NAV in debt instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act. Such investment limit may be extended to 20% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of Asset Management Company.

Provided that such limit shall not be applicable for investments in government securities.

Provided further that investment within such limit can be made in mortgaged backed securitised debts which are rated not below investment grade by a credit rating agency registered with the SEBI."

- 1A. A mutual fund scheme shall not invest more than 10% of its NAV in unrated debt instruments issued by a single issuer and the total investment in such instruments shall not exceed 25% of the NAV of the scheme. All such investments shall be made with the prior approval of the Board of Trustees and the board of asset Management Company.

- 1B. No mutual fund scheme shall invest more than thirty percent of its net assets in money market instruments of an issuer.

Provided that such limit shall not be applicable for investments in Government securities, treasury bills and collateralized borrowing and lending obligations.

Debentures irrespective of any residual maturity period (above or below 1 year) shall attract the investment restrictions as applicable for debt instruments as specified under clause 1 and 1A above.

2. Transfers of investments from one scheme to another scheme in the same mutual fund shall be allowed only if-
 - (a) such transfers are done at the prevailing market price for quoted instruments on spot basis.

Explanation- "spot basis" shall have same meaning as specified by stock exchange for spot transactions.

(b) the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.

3. A scheme may invest in another scheme under the same asset management company or any other mutual fund without charging any fees, provided that aggregate interscheme investment made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund.

Provided that this clause shall not apply to any fund of funds scheme.

4. Every mutual fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:

Provided that a mutual fund may engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by the Board:

Provided further that a mutual fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by the Board."

5. Every mutual fund shall, get the securities purchased or transferred in the name of the mutual fund on account of the concerned scheme, wherever investments are intended to be of long term nature.
6. Pending deployment of funds of a scheme in terms of investment objectives of the scheme, a mutual fund may invest them in short term deposits of schedule commercial banks, subject to such Guidelines as may be specified by the Board."

7. No mutual fund scheme shall make any investment in;

a) any unlisted security of an associate or group company of the sponsor; or

- b) any security issued by way of private placement by an associate or group company of the sponsor; or
- c) the listed securities of group companies of the sponsor which is in excess of 25% of the net assets of the schemes.

8A) No scheme of a mutual fund shall make any investment in any fund of fund scheme.

These investment limitations / parameters (as expressed / linked to the net asset / net asset value / capital) shall in the ordinary course apply as at the date of the most recent transaction or commitment to invest, and changes do not have to be effected merely because, owing to appreciations or depreciations in value, or by reason of the receipt of any rights, bonuses or benefits in the nature of capital or of any scheme of arrangement or for amalgamation, reconstruction or exchange, or at any repayment or redemption or other reason outside the control of the Fund, any such limits would thereby be breached. If these limits are exceeded for reasons beyond its control, TAML shall adopt as a priority objective the remedying of that situation, taking due account of the interests of the Unitholders.

In addition, certain investment parameters (like limits on exposure to Sectors, Industries, Companies, etc.) may be adopted internally by TAML, and amended from time to time, to ensure appropriate diversification / security for the Fund. The Trustee Company / TAML may alter these above stated limitations from time to time, and also to the extent the SEBI (Mutual Funds) Regulations, 1996 change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its investment objective. As such all investments of the Scheme will be made in accordance with SEBI (Mutual Funds) Regulations, 1996, including Schedule VII thereof.

Investment by the Fund and the Asset Management Company

According to the Clause 4 of Schedule 7 read with Regulation 44(1), of the SEBI (MF) Regulations, 1996, the scheme may invest in another scheme/plan/fund under the management of TAML or any other mutual fund without charging any fees. The aggregate inter-scheme investments made by all schemes/plans/funds under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the mutual fund. The objective of the Scheme in investing in Schemes of TMF or any other Mutual Fund will be primarily to gain better yields in the short term as compared to other short term instruments in the money market.

TAML (the AMC) may invest in the scheme(s)/plan(s)/fund(s), either in the initial issue or on an ongoing basis, such amount, as they deem appropriate. The AMC shall not be entitled to charge any management fees on this investment in the scheme(s)/plan(s)/fund(S). Investments by the AMC will be in accordance with Regulation 24(3) of the SEBI (MF) Regulations, 1996.

Securities Lending by the Mutual Fund

Subject to the SEBI Regulations as applicable from time to time the Fund may, if the Trustee permits, engage in Stock Lending. Stock Lending means the lending of securities to another person or entity for a fixed period of time at a negotiated compensation in order to enhance returns of the scheme portfolio. The securities lent will be returned by the borrower on the expiry of the stipulated period. The AMC will adhere to the following strict internal limits should it engage in Stock Lending.

Not more than 25% of the net assets of the scheme can generally be deployed in stock lending and not more than 5% of the scheme shall be deployed in Stock lending to any single counterparty. Collateral would always be obtained by the approved intermediary. Collateral value would always be more than the value of the security lent. Collateral can be in form of cash, bank guarantee, government securities, as may be agreed upon with the approved intermediary, and would also be subject to a mark to market valuation on a daily basis.

Example:

A fund has a Non Convertible Debenture (NCD) of a company which it would wish to hold for a long period of time as a core holding in the portfolio as per the fund manager's plan. In that case the investors would be benefited only to the extent of the rise in the value of the NCD, from time to time if any, on the exchange. If the fund is enabled to lend the said security to a borrower who would be wanting to take advantage of the market fluctuations in its price, the borrower would return the security to the lender (scheme) at a stipulated time or on demand for a negotiated compensation. The fund's unitholders can enhance their returns to the extent of the compensation it will earn for lending the same. An adequate security or collateral will have to be maintained by the intermediary. This should always be higher than the cost of the security. Thus it is in the interest of the investors that returns can be enhanced by way of stock lending rather than hold the security only for capital appreciation potential.

Thus the scenario under which the fund would participate in stock lending would be:

1. There is a holding of security eg 5000 units of NCD's of XYZ Ltd in the fund which the fund manager wants to be the core holding of the scheme for approximately 3 month.
2. There is a borrower (not mutual fund) for the security, (who has taken a short position in the market and needs XYZ Ltd NCD to settle it) who is willing to put up a proper collateral for the same.(In all cases higher than the price of the script).
3. The borrower is represented by a proper recognized intermediary.
4. The agreement is to return the security or the amount so negotiated at a particular period of time or on demand.

Then the security will be lent by the fund and the unitholders would benefit from the additional compensation earned for lending, apart from the capital appreciation which also happens in that stock. Thus, to summarize, stock lending would be done by the scheme only in the following circumstances:

- a) If permitted by trustees and the extent SEBI regulations in that regard, from time to time.
- b) If such activity generates additional returns for the scheme and helps to enhance the scheme returns.
- c) If considering the above, and other factors all considered in totality, such activity is in the interest of unitholders in the scheme.

Securities Lending Risks

It may be noted that this activity would have the inherent probability of collateral value drastically falling in times of strong downward market trends, rendering the value of collateral inadequate until such time as that diminution in value is replenished by additional security. It is also possible that the borrowing party and/or the approved intermediary may suddenly suffer severe business setback and become unable to honour its commitments. This, along with a simultaneous fall in value of collateral would render potential loss to the Scheme. Besides, there is also be temporary illiquidity of the securities that are lent out and the scheme will not be able to sell such lent out securities until they are returned.

<p>Minimum balance to be maintained and consequences of non maintenance.</p>	<p>The Fund may mandatorily redeem all the Units of any Unitholder:</p> <p>(a) if the value of the account falls below the minimum Account balance of Rs.10,000/- (based on prevailing NAV) and / or 10 Units (for RIP, HIP & SHIP) and Rs.1,00,000/- (based on prevailing NAV) and / or 10 Units (for SHIP Plus) due to normal repurchase/switch and the unitholders fails to invest sufficient funds or to purchase sufficient units to bring the value of the account upto the minimum level within 30 days after a written intimation in this regard is sent by the fund to that unitholder; or</p> <p>(b) where the Units are held by a Unitholder in breach of any regulations.</p>
<p>Special Products available (available only for retail plan)</p>	<p>a) Systematic Investment Plan (SIP)</p> <p>The investors can benefit by investing specified Rupees amounts at regular intervals. The SIP allows the unitholders to invest a fixed amount of Rupees at regular intervals for purchasing additional units of the scheme at NAV based prices. Investment can be done with the minimum / maximum amount and number of cheques specified by AMC from time to time. The cheques will be presented on the dates mentioned on the cheque and subject to realization. Units will be allotted at the applicable NAV along with applicable load.</p> <p>"SIP facility is available subject to terms and conditions. Please refer to the SIP Enrolment form for terms and conditions before enrolment."</p> <p>b) Systematic Withdrawal Plan (SWP)</p> <p>This facility available to the unitholders of the scheme enables them to redeem fixed sums or fixed number of units from their unit accounts at periodic intervals. The amount withdrawn under SWP by redemption shall be converted into the Scheme units at the Repurchase price and such units will be subtracted from the unit balance of that unitholder. In case the date falls during a book closure period the immediate next Business day will be considered for this purpose.</p> <p>The Authorised Investor Service Center may terminate SWP on receipt of a notice from the unitholder. It will terminate automatically if all units are liquidated or withdrawn from the account or upon the receipt of notification of death or incapacity of the unitholder.</p> <p>"SWP facility is available subject to terms and conditions. Please refer to the SWP Enrolment form for terms and conditions before enrolment."</p> <p>c) Systematic Transfer Plan (STP)</p> <p>A unitholder may establish a Systematic Transfer Plan (STP) and choose to transfer on a monthly or a quarterly basis from one TMF Scheme to another TMF Scheme on a date prescribed by the Investment Manager. The amount thus withdrawn by redemption shall be converted into units at the applicable NAV on the scheduled day and such units will be subtracted from the unit balance of that unitholder. Unitholders may change the amount, not below the specified minimum, by giving two weeks prior written notice to the registrars. STP may be terminated automatically if the balance falls below the minimum account balance or upon the receipt of notification of death or incapacity of the unitholders by the fund. Rules relating to the plan may be changed from time to time by the Investment Manager.</p> <p>"STP facility is available subject to terms and conditions. Please refer to the STP Enrolment form for terms and conditions before enrolment."</p>

Accounts Statements	<p>For normal transactions (other than SIP/STP) during ongoing sales and repurchase:</p> <ul style="list-style-type: none"> • The AMC shall issue to the investor whose application (other than SIP/STP) has been accepted, an account statement specifying the number of units allotted (within thirty days from the date of allotment) • For those unitholders who have provided an e-mail address, the AMC will send the account statement by e-mail. • The unitholder may request for a physical account statement by writing/calling the AMC/ISC/R&T. <p>For SIP / STP transactions;</p> <ul style="list-style-type: none"> • Account Statement for SIP and STP will be despatched once every quarter ending March, June, September and December within 10 working days of the end of the respective quarter. • A soft copy of the Account Statement shall be mailed to the investors under SIP/STP to their e-mail address on a monthly basis, if so mandated. • However, the first Account Statement under SIP/STP shall be issued within 10 working days of the initial investment/transfer. • In case of specific request received from investors, Mutual Funds shall provide the account statement (SIP/STP) to the investors within 5 working days from the receipt of such request without any charges. <p>Please Note: As per SEBI regulations Mutual Funds are permitted to dispatch the account statements within thirty days from the date of allotment. However, the person who desires to continue in the Scheme shall not be entitled to any interest or any compensation during the period it takes for the Fund to record the change in Address and the Residential Status. Notwithstanding the aforesaid, the Trustee Company reserves the right to close the Unitholder account and to pay the Redemption value of Units, subsequent to his becoming a person resident outside India, should the reasons of expediency, cost, interest of Unitholders and other circumstances make it necessary for the Fund to do so. In such an event, no resident Unitholders who have subsequently become resident outside India shall have a right to claim the growth in capital and/ or income distribution.</p> <p>This scheme has not been registered in any country outside India. To ensure compliance with any Laws, Acts, Enactments, etc. including by way of Circulars, Press Releases, or Notifications of Government of India, the Fund may require/give verification of identity/any special/additional subscription-related information from /of the Unitholders(which may result in delay in dealing with the applications, Units, benefits, distribution, etc./giving subscription details, etc). Each Unitholder must represent and warrant to the Trustee Company/AMC that, among other things, he is able to acquire Units without violating applicable laws. The Trustee Company will not knowingly offer or sell Units to any person to whom such offer or sale would be unlawful, or might result in the Fund incurring any liability or suffering any other pecuniary disadvantages which the Fund might not otherwise incur or suffer. Units may not be held by any person in breach of the law or requirements of any governmental, statutory authority including, without limitation, Exchange Control Regulations. The Trustee company may, compulsorily redeem any Units held directly or beneficially in contravention of these prohibitions. In view of the individual nature of investment portfolio and its consequences, each Unitholder is advised to consult his/her own professional advisor concerning possible consequences of purchasing, holding, selling, converting or otherwise disposing of the Units under the laws of his/her State/country of incorporation, establishment, citizenship, residence or domicile.</p>										
Refund	<p>Refund of subscription money to applicants whose applications are invalid for any reason whatsoever, will be without incurring any liability whatsoever for interest or other sum.</p> <p>The entire amount shall be refunded within a period of 6 weeks. If, the Fund refunds the amount after 6 weeks, interest @ 15% per annum for delayed period shall be paid by the AMC. Refund orders will be marked "A/c. Payee Only" and drawn in the name of the first applicant.</p>										
Dividend Policy	<p>The Scheme was initially launched on 24.8.98 as a growth scheme. The Scheme opened for Resale/Repurchase from 30.8.1998. With effect from 1st August 1999, the Scheme offered Regular Income Option.</p> <p>i. Regular Income Option</p> <p>Under this option, the income and profits realized will be distributed by way of dividend. The undistributed portion of the income will remain in the Plan and be reflected in the NAV, on an ongoing basis. Unitholders can also avail of better taxation benefits relating to capital gains.</p> <p>Dividend Reinvestment Option: Unitholders under this Option also have the facility of reinvestment of the income so declared, if so desired. Income Distribution Warrants will not be despatched to such Unitholders. The income declared would be reinvested in the Scheme on the immediately following ex-dividend date</p> <p>In order to reduce the expenses of the scheme and also for the convenience of the investors dividend shall be reinvested within the scheme at the applicable ex-dividend NAV if dividend amount is less than Rs. 250/- (or any other amount as may be specified by the AMC from time to time). This will be applicable to the above mentioned plans of the scheme.</p> <p>Dividend Sweep Facility Under this facility investor can opt for reinvestment of dividend into any other scheme of Tata Mutual Fund. This facility is available only for those investors who have opted for dividend reinvestment facility. This facility is not available to those investors who have opted for dividend payout facility. Under this facility, the net dividend amount (i.e net of statutory levy / taxes if any) will be automatically invested on the ex dividend date into other scheme of TATA Mutual Fund specified by the investor at the applicable NAV of that scheme & accordingly equivalent units will be allotted in lieu of dividend, subject to the terms of the schemes. The minimum and maximum amount is not applicable for this facility. No entry load or exit load will be levied on the units issued in lieu of dividend. AMC reserves the right to modify or withdraw this facility without prior notice.</p> <p>Dividend Sweep facility is not available in those plans where dividend distribution/declaration frequency is daily.</p> <p>Default Option: Investor should appropriately tick the 'option' (dividend or growth) in the application form while investing in the schemes. If option is not indicated by the investor, then by default it will be treated as 'growth option'. Further, if investors chooses 'dividend option' then they should also indicate the sub-option (dividend payout or dividend re-investment) under the 'dividend option' otherwise it will, by default, be treated as 'dividend re-investment' option.</p>

C. COMPUTATION OF NAV

Net Asset Value ("NAV") of the Units shall be determined daily as of the close of each Calendar Day.

NAV shall be calculated in accordance with the following formula:

$$\text{Market Value of Scheme's Investments} + \text{Accrued Income} + \text{Receivables} + \text{Other Assets} - \text{Accrued Expenses} - \text{Payables} - \text{Other Liabilities}$$

$$\text{NAV} = \frac{\text{Market Value of Scheme's Investments} + \text{Accrued Income} + \text{Receivables} + \text{Other Assets} - \text{Accrued Expenses} - \text{Payables} - \text{Other Liabilities}}{\text{Number of Units Outstanding}}$$

The computation of Net Asset Value, valuation of Assets*, computation of applicable Net Asset Value (related price) for ongoing Sale, Redemption, Switch and their frequency of disclosure shall be based upon a formula in accordance with the Regulations and as amended from time to time including by way of Circulars, Press Releases, or Notifications issued by SEBI or the Government of India to regulate the activities and growth of Mutual Funds. The NAVs of the fund shall be rounded off upto four decimals.

* Please refer Para V. of SAI on 'Investment valuation norms for securities & other assets' for details.

IV. FEES AND EXPENSES**A. NEW FUND OFFER (NFO) EXPENSES**

The scheme was launched on 24th August, 1998 and the New Fund Offer Expenses were fully borne by the AMC.

B. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the scheme. These expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, marketing and selling costs etc. as given in the table below:

The AMC has estimated following percentage of the weekly average net assets of the scheme will be charged to the scheme as expenses. For the actual current expenses being charged, the investor should refer to the website of the mutual fund.

Particulars	% of Net Assets			
	RIP	HIP	SHIP	SHIP Plus
Investment Management & Advisory Fee	1.25	1.13	0.56	0.45
Custodial Fees	0.10	0.04	0.02	0.02
Registrar & Transfer Agent Fees including cost related to providing accounts statement, dividend/redemption cheques/warrants etc.	0.15	0.04	0.04	0.02
Marketing & Selling Expenses including Agents Commission and statutory advertisement	0.45	0.10	0.05	0.04
Brokerage & Transaction Cost pertaining to the distribution of units	0.10	0.05	0.03	0.01
Audit Fees / Fees and expenses of trustees	0.06	0.06	0.02	0.03
Costs related to investor communications	0.11	0.05	0.01	0.01
Costs of fund transfer from location to location	0.03	0.03	0.02	0.02
Other Expenses	0.00	0.00	0.00	0.00
Total Recurring Expenses	2.25	1.50	0.75	0.60

These estimates have been made in good faith as per the information available to the Investment Manager based on past experience and are subject to change inter-se. Types of expenses charged shall be as per the SEBI (MF) Regulations.

The above list of expenses is illustrative only and may include such other expenses as may be permitted by SEBI from time to time.

Investment Management fees charged by TAML shall be 1.25% of the weekly average net assets for net assets upto Rs. 100 crores and 1.00% of the weekly average net assets on the balance amount above Rs. 100 crores. This fee shall be conformity with SEBI Regulations & shall be payable at a frequency as agreed between the AMC and Trustees from time to time. TAML shall not charge any fees on its investment in Units of the Funds/Schemes/Plans in TMF or any other Mutual Fund.

The recurring expenses of the Schemes and the additional management fee shall be as per the limits prescribed under Sub-Regulations (6) of Regulations 52 of the Regulations and shall not exceed the limits prescribed thereunder.

As per the Regulations, the maximum recurring expenses that can be charged to the Scheme shall be subject to a percentage limit of weekly net assets as in the table below:

First Rs. 100 crore	Next Rs. 300 crore	Next Rs. 300 crore	Over Rs. 700 crore
2.25%	2.00%	1.75%	1.50%

The above is the maximum limit under Regulation 52 (6) of the SEBI (Mutual Funds) Regulations, 1996. The Fund will strive to reduce the level of these expenses so as to keep them well within the maximum limits allowed by SEBI and any expenditure in excess of the above limits shall be borne by Tata Asset Management Limited and/or Tata Trustee Company Private Limited. Besides only those expenses as given above under the clause "Annual Scheme Recurring Expenses". shall be charged to the Scheme.

C. LOAD STRUCTURE

Load is an amount which is paid by the investor to subscribe to the units or to redeem the units from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC (www.tatamutualfund.com) or may call at (1800-209-0101) or your distributor.

For RIP, HIP, SHIP & SHIP Plus	
Type of Load for SIP and Non SIP (SIP only for retail plan)	Load chargeable (as %age of NAV)
Entry	Nil
Exit	Nil

Bonus units and units issued on reinvestment of dividends shall not be subject to entry and exit load.

All loads including Contingent Deferred Sales Charge (CDSC) for the Scheme shall be maintained in a separate account and may be utilised towards meeting the selling and distribution expenses. Any surplus in this account may be credited to the scheme, whenever felt appropriate by the AMC.

As per SEBI circular No. SEBI/IMD/CIR No. 4/ 168230/09 dated June 30, 2009 the exit load or Corporate Deferred Sales Charge (CDSC) charged to the investor, a maximum of 1% of the redemption proceeds shall be maintained in a separate account which shall be used by the AMC to pay commissions to the distributor and take care of other marketing and selling expenses Any balance shall be credited to the scheme immediately. This circular will be applicable wef August 01, 2009.

Trail Fees: The scheme is open for investments by other funds. In case of direct investments made by the other funds into the underlying funds, the distributors of the other funds who mobilize the funds are entitled to the brokerage / trail commission. Accordingly, the brokerage trail commission

would be paid from the underlying fund within the overall expenses that are permitted by the regulation. The underlying fund may pay the brokerage / trail commission to the distributor.

The AMC reserves the right to change/modify exit / switchover load (including zero load), depending upon the circumstances prevailing at any given time. However any change in the load structure will be applicable on prospective investment only. The AMC may charge an exit load for switch of units from one plan/option to another plan/option within the Scheme and/or any other scheme of TMF depending upon the circumstances prevailing at any given time. The switchover load may be different for different plans/options and the switchover load may be different from the entry and /or exit load charged for sale and/or repurchase units. The load charged could also be different for different options in the plans of the Scheme at the same time and different as regards the amount/tenor of investment, etc.

As per SEBI circular dt. May 23, 2008, the mutual fund at the time of changing the load structure, the mutual funds may consider the following measures to avoid complaints from investors about investment in the schemes without knowing the loads:

- The addendum detailing the changes may be attached to Scheme Information Documents and Key Information Memorandum. The addendum may be circulated to all the distributors/brokers so that same can be attached to all Scheme Information Documents and Key information memoranda already in stock.
- The investor is requested to check the prevailing load structure of the scheme before investing. For any change in load structure arrangement may be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centers and distributor/ brokers' office.
- The introduction of the exit load/ CDSC along with the details may be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load/CDSC.
- A public notice shall be given in respect of such changed in one English daily newspaper having nationwide circulation as well as in a newspaper publishes in the language of region where the Head office of Mutual Fund is situated.
