## **REPORT OF THE TRUSTEE TO THE UNITHOLDERS FOR THE YEAR ENDED 31ST MARCH, 2009**

Dear Unitholder,

It gives us great pleasure to enclose schemewise audited financials as on 31st March, 2009. This Report is in continuation of the 'Performance and Portfolio of the Schemes' Report as on 31st March, 2009 published by us earlier.

### **1. Scheme Performance, Future Outlook and Operations of the Schemes**

#### **Tata Young Citizens' Fund (TYCF):**

The scheme has outperformed the benchmark and has done well with its unique positioning and stable, diversified portfolio.

#### **Performance at a glance (% as on 31st March, 2009)**

	<b>Last 1 year</b>	<b>Last 3 years</b>	<b>Last 5 years</b>	<b>Since Inception</b>
Tata Young Citizens' Fund	-16.34	-1.09	9.17	12.65 (14/10/95)
Crisil Balanced Fund Index	-21.53	0.89	8.98	NA

#### **Past performance may or may not be sustained in future.**

Return for period upto 1 year is absolute and for more than one year is compounded annualised. Returns are for growth option.

No data for benchmark index is available for the period prior to 30th March, 2002.

#### **The year that was:**

##### **Equity:**

In the Financial Year 2008-09, equity markets witnessed a sharp correction with the Nifty and the Sensex each down by 38% and 36% respectively. It was a very volatile (with a downward bias) ride for markets as well for economic indicators. Global markets performance was worse with MSCI Emerging Market Index falling 46% and the MSCI World Index falling 44% Year on Year, reflecting the fact that the Indian markets were led down, more by global concerns rather than domestic events. On the macro environment, however, the Indian markets ended the fiscal with some positives with a collapse in commodity prices (being a net commodity consumer), fall in interest rates and inflation from highs, and government fiscal and monetary push for growth.

Other than in April'08 and March '09, FIIs were net sellers throughout the year. Global markets were reeling under the impact of the credit crisis leading to significant risk aversion and liquidity contraction. Also, the strong bull market over the last few years and the Indian market out performance could have resulted in some profit booking from this market. For the fiscal, FIIs were net sellers in cash equities to the extent of USD 10.3 billion compared to being net buyers of USD 13.2 billion in the previous year. Slow but sure emergence of Equity as an asset class for Indians could be seen from DII purchases -Domestic Mutual funds were net buyers to the extent of USD 1.6 billion compared to being net buyers of USD 4 billion in the previous year. During the fiscal, large cap(-38%) stocks continued to perform better than mid cap (-54%) and small(-58%) stocks. Barring a lone month of August when there was some improvement in mid caps, the market reflected extreme risk aversion throughout the year and large cap stocks did better. In terms of sectoral performance Auto(-32%),FMCG(-11%), Health Care(-27%), IT (-36%) ,Oil & Gas (-30%) and PSU(30%), indices outperformed the Sensex, while Banking(-42%) ,Consumer Durables(-58%), Capital Goods(-54%), Metals(-59 %),Power(-42%) and Realty(-79 %) lagged the Sensex.

The beginning of FY 08-09 was characterized by the onset of a credit crisis originating in heavily debt laden developed markets like US, UK etc. Tough credit conditions were brought on by Bear Sterns bankruptcy in March 08 which then was exacerbated by oil touching USD 149 per Barrel on 3rd July 08, followed by Lehman Brothers bankruptcy on 15th September 08. In the past year most investable asset classes like crude oil, stocks, real estate, agriculture commodities, metals etc saw extreme volatility. The year started with inflation shooting up and the RBI raising key rates like CRR and Repo rate upto July. Food and Fuel were the main culprits of higher inflation. Influenced by global trends and the slow down in IIP growth, the central bank then started a rate lowering cycle from October onwards. Rupee reflected increased risk aversion and the selling pressure from the FIIs by ending at Rs.50.5 against the dollar- 28% depreciation from Rs.40.10 a year earlier.

In terms of corporate performance the year saw further consolidation with growth slowing down. The initial signs of slow down came in the March '08 quarterly numbers with slight moderation in top line as well as bottom line as rising input costs ate into margins. Profit growth further weakened in the September quarter on the back of high raw material costs and interest rates. The first half of the year saw growth slowing down but the second half pulled down the overall growth. The December quarter saw corporate earnings moving into de-growth following the volatility in input prices and tightness in credit markets. There were several aberrations in the quarter in currency movements, commodity price trends etc which impacted corporate performance adversely.

The severe fall in the equity markets saw valuations going down significantly to sub 10 levels for the Indian market which was at the lower end of the P/E band that the market historically enjoyed. Though valuations were in an attractive zone, uncertainty about the future and the sheer impact of the rapid deterioration would have numbed the best of investors. Since bottoming out in September '08, the markets were range bound for some time and beginning March 09 markets have been rallying with the basic theme that incremental data is less bad than earlier. There was improvement in risk appetite with money moving out of the US Dollar assets to commodities, emerging markets etc. Along with risk appetite which improved due to the signals from various governments that they would infuse liquidity and protect large institutions from a collapse, there also emerged some 'Green Shoots' globally be it in the US, China or in India in terms of economic performance indicators. In May 09 India had more to celebrate, with a game changing electoral verdict, which gave the ruling coalition a stronger mandate to pursue reforms. The new government is expected to facilitate infrastructural development while pushing the inclusive growth agenda further.

#### **Debt:**

In the first half of 2008-09, financial markets suffered the full might of the subprime-crisis that first broke-out in August 2007. World credit markets froze, major banks suffered huge losses and needed re-capitalization and financial markets went for a tail-spin. Global markets witnessed huge volatility until the world governments and central banks came together to stabilize the markets with injection of huge liquidity and aggressive rate cuts, pumping fresh capital in troubled banks and buying out their bad assets. Global economic momentum suffered massive set-back with major economies getting into recession and the emerging countries witnessing significant slowdown in growth rates. A blessing in disguise was sharp correction in commodity and oil prices. In second-half of 2008-09, following the easing of policy rates by major central banks and correction in commodity prices, inflation across the globe eased dramatically and interest rates declined, setting the ground for a massive rally in bond prices. With credit markets also opening back again, corporate spreads also contracted sharply from the multi-decade high that it hit earlier at the peak of the crisis. However, by Q4, the massive government stimulus for banks and economy resulted in higher fiscal deficit and larger government borrowings started to put pressure on long term bond yields.

#### **FUTURE OUTLOOK:**

##### **EQUITY**

In the last four months since mid march, the markets globally have recovered significantly. Between March and May, the Indian market underperformed many of the other emerging markets. However, post the election results, the Indian market out performed most other markets and this strong move has taken India to among the best performing markets globally in this year. Money waiting on the side lines prior to the elections suddenly rushed in which also helped in pushing the market to a higher range very sharply. In terms of valuations the Indian market as mentioned above has done a mean reversion to the long term average which is a P/E around 16x on one year forward earnings. The current valuation is factoring in expectation of higher growth probably in FY'11 as FY'10 may continue with the same trend and is likely to show subdued growth. In predicting a recovery it is possible for the markets to get ahead of reality, as they had in the sell off earlier in FY09.

In the current year the markets are likely to be influenced by global events, data flow and any improvement in corporate performance in the next few quarters especially in the second half of the year which could lead to an upgrade of the earnings growth estimates by the street. Reforms & new initiatives from the government may impact the economy only from the next year onwards. While a recovery or a bounce in equity markets globally and in India was expected, the speed of the rally has taken everyone by surprise. This also probably means that many investors have not participated in this rally and therefore more money could be waiting to get invested including domestic retail money. However, for the market to continue with the same momentum it would need a lot of follow through positive factors from the global and domestic economy. Also since this re-rating of the Indian markets came on the back of a stable government in power, the out performance over other markets going forward would depend on the delivery of reforms and the execution by the government

We feel that over the next few months there could be negative news flow from the global economy and from domestic corporates which could give opportunities to invest. A delayed monsoon would be a worry, but a pick up in latter months should ensure minimal damage to the rural growth story. There are also a lot of expectations from the yet to be presented Finance Budget. However what is most important is that there is a change in the outlook from the last year which was fraught with uncertainty to a more positive future. Given a stable government in India and a recovery, albeit slow, in the global economy over this year and next, declines could now be looked at as buying opportunities with valuations in mind.

##### **DEBT OUTLOOK**

Un-precedent measures, in recent quarters, by way of fiscal stimulus, re-capitalization, liquidity injection and rate -cuts by world governments and central banks, following the melt down in financial markets post the sub-prime crisis and amidst a sharp slowdown in economic momentum, have begun to bear results. As the economists have been saying, the green shoots are visible all over. Economic data has shown steady improvement and the financial markets have also stabilized. Equity and commodity markets have seen a sharp rally in the past few months demonstrating the optimism that has now replaced the extreme pessimism earlier.

However, one collateral damage of the massive fiscal stimulus has been the sharp spike in fiscal deficit. In India, Fiscal deficit for FY 2008-09 is pegged at 6.2% of GDP against initial budget estimate of 2.5%. Similarly Fiscal deficit for 2009-10 is projected at 5.5% of GDP. Inevitably, resultant larger government borrowing will put upward pressure on bond yields. Benchmark 10 year GOI yield, after hitting a multi year low

below 5% in early Jan'09s has since hardened to hover in 6.75-7% range, a massive correction of 200bps + in a short time. Situation is similar across global market. For example, inspite of lowering the Fed rate to 0-0.25% band and buy-back of treasury securities by Fed, US 10 year treasury yields are currently around 3.75% rebounding from a low of 2.05% in Dec 08.

In India, like elsewhere, this is inspite of a significant easing of inflation (0.48% as of May 23'2009), multiple rate cuts and massive open market operations by RBI and with oil prices remaining low in recent months.

RBI's monetary policy stance remains explicitly accommodative. Liquidity in the system remains high. RBI has successfully blunted the upward pressure on interest rates through large open market operations. Till overseas capital flows resume again, continued RBI intervention and supportive underlying economic and inflationary environment should keep interest rates range bound although markets could be volatile. In the medium to long term, interest rates are likely to be stable with downward bias.

## **FUNDS UNDER MANAGEMENT - OPERATIONS**

Tata Mutual Fund today manages thirty-eight open ended schemes of which fifteen are equity schemes, two are balanced schemes, twenty are debt schemes, one is Equity Linked Saving Scheme (ELSS) and thirteen are close ended schemes of which two are equity scheme, four are balanced schemes, five are debt schemes, and two are Equity Linked Saving Scheme (ELSS). The AMC continues its focus on fund performance and marketing / sales efforts to serve our investors better.

### **2. Brief Background of Sponsors, Trust, Trustee Co. and Asset Management Company (AMC).**

#### **a) Tata Mutual Fund**

Tata Mutual Fund (TMF) was set up as a Trust by the Sponsors and the Settlers, Tata Sons Limited (TSL) and Tata Investment Corporation Limited (TICL) on 9th May, 1995 with Tata Trustee Company Private Limited as a Trustee in accordance with the provisions of the Indian Trust Act, 1882 and is duly registered under the Indian Registration Act, 1908. The Trustee has entered into an Investment Management Agreement dated 9th May, 1995 with Tata Asset Management Limited to function as the Investment Manager for all the Schemes of Tata Mutual Fund (TMF). TMF was registered with SEBI on 30th June, 1995.

#### **b) Tata Trustee Company Private Limited**

The Trustee is the exclusive owner of the Trust Fund and holds the same in trust for the benefit of the unitholders. The Trustee has been discharging its duties and carrying out the responsibilities as provided in the Regulations and the Trust Deed. The Trustee seeks to ensure that the Fund and the Schemes floated there under are managed by the AMC in accordance with the Trust Deed, the Regulations, directions and guidelines issued by the SEBI, the Stock Exchanges, the Association of Mutual Funds in India and other regulatory agencies.

#### **c) Asset Management Company**

Tata Asset Management Limited (TAML) is a company incorporated under the Companies Act, 1956 on 15th March, 1994, having its Registered Office at Fort House, 221 Dr. D. N. Road, Fort, Mumbai 400 001. TAML has been appointed as the Asset Management Company for Tata Mutual Fund by the Trustee vide Investment Management Agreement (IMA) dated 9th May, 1995, and executed between TTCPL and TAML.

The Trustee Company has appointed TAML as the Asset Management Company for TMF. The shareholders of TAML are TSL and TICL. TAML has entered into an Investment Management Agreement dated 9th May, 1995 with TTCPL, pursuant to which TAML will run the operations of TMF and manage the assets of TMF's Schemes. TAML, having its registered office at, Fort House, 221 Dr. D. N. Road, Mumbai 400 001 is a Company incorporated under the Companies Act, 1956 on 15th March 1994 and was approved to act as an Asset Management Company for TMF by SEBI on 30th June, 1995. The network of TAML as on May 31, 2009 is approximately about Rs. 100.04 crores. TAML is currently managing thirty-eight open-ended schemes and thirteen close ended schemes.

### **3. Investment Objective of the Scheme**

**TYCF:** An open-ended balanced scheme. To provide long term capital growth along with steady capital appreciation to its unitholders, while at all times emphasizing the importance of capital preservation.

### **4. Significant Accounting Policies:**

Accounting policies are in accordance with Securities Exchange Board of India (Mutual Fund) Regulations 1996.

**5. Unclaimed Dividend & Redemptions:**

Scheme	Unclaimed Dividend		Unclaimed Redemptions		Total	
	Amount (Rs.)	No. of Investors	Amount (Rs.)	No. of Investors	Amount (Rs.)	No. of Investors
TYCF	0	0	4,39,135	57	4,39,135	57

**6. Statutory Information:**

- a. The Sponsors are not responsible or liable for any loss resulting from the operation of the Schemes of the Fund beyond their initial contribution (to the extent contributed) of Rs. 1 lakh for setting up the Fund, and such other accretions / additions to the same.
- b. The price and redemption value of the units, and income from them, can go up as well as down with fluctuations in the market value of its underlying investments.
- c. Full Annual Report shall be disclosed on the website ([www.tatamutualfund.com](http://www.tatamutualfund.com)) and shall be available for inspection at the Head Office of the mutual fund. Present and prospective unit holder can obtain copy of the trust deed, the full Annual Report of the Fund / AMC at a charge from AMC's head office..

Encl. Schemewise Audited Accounts and Auditor's Report

## **AUDITORS' REPORT**

### **TO THE BOARD OF DIRECTORS OF TATA TRUSTEE COMPANY PRIVATE LIMITED**

We have audited the attached Balance Sheet of **TATA MUTUAL FUND – TATA YOUNG CITIZENS' FUND** ("the Fund") as at 31st March 2009 and the Revenue Account of the Fund for the year ended on that date, annexed thereto, and report thereon as follows:

- a) The Balance Sheet and the Revenue Account dealt with by this report have been prepared in accordance with the accounting policies and standards specified in the Ninth Schedule of the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996. These financial statements are the responsibility of the Managements of the Trustee and the Asset Management companies.
- b) Our audit was conducted in accordance with the generally accepted auditing standards in India. These Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and the disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by the Management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
- c) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- d) The Balance Sheet and the Revenue Account dealt with by this report are in agreement with the books of account of the Fund.
- e) Non - traded securities have been valued in accordance with the guidelines notified by the Securities and Exchange Board of India. In our opinion, these valuations are fair and reasonable.
- f) Without qualifying our opinion, we draw attention to Note No. 14 of Schedule VII Part B wherein the Management of the Tata Asset Management Limited has explained its rationale regarding certain Accounting Standards issued by the Institute of Chartered Accountants of India as not being applicable to mutual funds.
- g) In our opinion and to the best of our information and according to the explanations given to us, the said accounts give the information required by the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 and give a true and fair view in conformity with the accounting principles generally accepted in India:
  - (i) in the case of the Balance Sheet, of the state of affairs of the Fund as at 31st March, 2009 and
  - (ii) in the case of the Revenue Account, of the surplus of the Fund for the year ended on that date.

**Schedule VII - Statement of significant accounting policies of Tata Young Citizens' Fund (TYCF) and Notes forming part of the Accounts for the year ended 31<sup>st</sup> March, 2009.**

**A. SIGNIFICANT ACCOUNTING POLICIES**

**1. INCOME RECOGNITION:**

- a) Dividend income is accounted on ex-dividend dates.
- b) Profit or loss on sale of investments is recognised on trade dates. The cost of investments sold is determined on "weighted average cost basis".
- c) Interest on investments is accounted on an accrual basis. Interest on an investment that is past due for three months is accrued and a full provision is made against all outstanding interest on that investment.
- d) Discounts / premiums to redemption value on fixed income securities are amortised on a straight-line basis over the period upto redemption.
- e) Other income of a miscellaneous nature is accounted when it is received on grounds of prudence.

**2. EXPENSES:**

- a) All expenses are accounted on an accrual basis.
- b) Expenses not identifiable with any particular scheme are generally allocated to the schemes in proportion to their net assets. With effect from 1<sup>st</sup> October, 2008 Registrar's fees and expenses have been allocated to the schemes in proportion to the number of live folios in the schemes.

**3. INVESTMENTS:**

- a) Purchase and sale of investments are recorded on the date of the transaction, at cost and sale price respectively, after considering brokerage, commission, stamp charges and any charge customarily included in the broker note.
- b) Rights entitlement pending formal allotment is accounted as investments at issue price plus acquisition cost, if any.
- c) Bonus entitlement is recognised on ex-bonus dates.

**4. PORTFOLIO VALUATION FOR NAV CALCULATION**

**i. Traded Securities (Other than Floating Rate Debt Securities) :**

Traded Securities are valued at year-end closing market rates on the principal stock exchange on which the security is traded (excluding accrued interest, if any, which is accounted separately).

In the absence of a quoted price on the valuation date for debt securities (other than Government Securities), the last available quoted price within a period of fifteen days prior to the valuation date is used for valuation purposes.

In the absence of a quoted price on the valuation date for equity instruments, the last available quoted price within a period of thirty days prior to the valuation date is used for valuation purposes.

**ii. Thinly Traded Securities (Other than Floating Rate Debt Securities) :**

Thinly traded equity / equity related securities are those securities whose trade in a month, are both less than Rs.5 lacs and the total volume is less than 50,000 shares. These have been valued on the basis of valuation principles laid down by The Securities and Exchange Board of India (SEBI) for the same.

Debt securities (other than Government Securities) are considered as thinly traded if on the valuation date, there are no individual trades in those securities in marketable lots (presently Rs.5 crores) on the principal stock exchange or any other stock exchange. These have been valued on the basis of valuation principles laid down by SEBI for the same.

**iii. Non-Traded Securities :**

- a. Non-Traded/Thinly Traded Debt Securities / Asset Backed Securities (other than Floating Rate Debt Securities) of over 182 days to maturity are valued in good faith on a yield to maturity basis by Tata Asset Management Limited (TAML).

The non – traded debt securities have been classified by TAML as “investment grade” and “below investment grade” as at 31<sup>st</sup> March, 2009. The values applied by TAML for “investment grade” debt securities are on the basis of valuation yields determined by Credit Rating Information Services of India Limited (CRISIL). In the opinion of TAML, these yields determine fair and reasonable values and such basis of valuation is approved by the Tata Trustee Company Private Limited.

These securities have been valued on the basis of valuation principles laid down by SEBI for the same.

Non – traded debt securities with residual maturity of upto 182 days are valued on the basis of amortisation (cost plus accrued interest till the beginning of the day plus the difference between the redemption value (inclusive of interest) and the cost spread uniformly over the remaining maturity period of the instrument).

This basis of valuation is in accordance with SEBI guidelines.

- b. Valuation of non traded/thinly traded debt securities with floating rate of interest upto 182 Days to the Interest Reset Date/Maturity Date :**

The non-traded / thinly traded floating rate debt securities with a residual maturity / next reset date upto 182 days are valued on the basis of amortisation (cost plus accrued interest till the beginning of the day plus the difference between the redemption value and the cost spread uniformly over the remaining maturity / interest reset period of the instruments) in the absence of any other standard benchmarks in the market.

- c. Floating Rate Debt Securities with Put/Call options :**

The floating rate debt securities with put/call options shall be valued in terms of the Valuation Guidelines specified above taking into consideration the next interest rate reset date instead of the final maturity date in the absence of any other guidelines from SEBI.

The aggregate fair value of these non-traded “investment grade” debt securities as at 31<sup>st</sup> March, 2009 is Rs. 494,432,005/- (previous year Rs. 542,130,840/-). The scheme does not invest in “below investment grade” debt securities. These balances exclude redemption proceeds due but not received and fully provided Rs.Nil (previous year Rs.Nil).

**iv. Money Market Securities :**

Money Market instruments which are not traded are valued on the basis of amortisation (cost plus accrued interest till the beginning of the day plus the difference uniformly amortised over the remaining maturity period of the instrument).

For Money Market Instruments which are traded, the difference between the traded price and the cost plus accrued interest is booked as unrealised gain or loss on that day and from the next day the unrealised gain or loss is amortised over the remaining period to maturity in such a manner that on the maturity date, the value of security matches the face value.

**v. CBLO Investment :**

CBLO investments are valued at cost.

**vi. Reverse Repo Investment :**

Investment bought on 'repo' basis are valued at cost .

**vii. Unrealised Gain / Loss in value of Investments :**

Following the issue of the Guidance Note on Accounting for Investments in the Financial Statements of Mutual Funds by the Institute of Chartered Accountants of India, the appreciation / diminution in investments is worked out on individual basis. The value of diminution as at the year end is reflected in the Revenue Account. Unrealised appreciation as at the year end is also routed through the Revenue Account but is reduced from the distributable income at the time of income distribution.

**5. INCOME EQUALISATION RESERVE :**

Income Equalisation Reserve is being maintained by crediting / (debiting) the equalisation account in respect of sale / (repurchase) of units by an appropriate amount which represents the distributable income at the time of sale / (repurchase). It is reflected in the Revenue Account after the net excess / deficit of the scheme is determined.

**6. UNIT PREMIUM RESERVE AND ACCUMULATED LOAD :**

On repurchase / redemption / resale of units, the difference between the unit face value and the NAV (after adjusting income equalisation reserve) is disclosed as "Unit Premium Reserve", while the difference between the NAV and the repurchase / resale price is disclosed as "Accumulated Load" which is not considered for computation of the Net Asset Value. The accumulated load of Rs Nil (previous year Rs. Nil) is utilised by the Fund to cover the cost of raising / redeeming units on a continuous basis by way of providing redemption / distribution related services to the Fund relating to the sale, promotion and marketing of the scheme and costs associated with liquidating the Fund's investment securities, including payments for postage, application processing, disseminating NAV related information etc. and also payments to brokers for their services in connection with the distribution / redemption of the units. The utilisation of the load reserve is disclosed in "Accumulated Load" account in Schedule II.

**B. Notes attached to and forming part of the accounts for the year ended 31<sup>st</sup> March, 2009**

1. Details of Illiquid Securities are as follows :

<b>Particulars</b>	<b>As at 31-03-09</b>	<b>As at 31-03-08</b>
Total value of illiquid securities (Equity shares in Kripa Chemicals Ltd.) Rs.	438	438
Average Net Assets Rs.	1,366,885,416	1,672,815,937
% of Total value of illiquid securities to Avg. Net Assets	0.00	0.00

2. The aggregate value of purchases and sales of investments for the year ended 31<sup>st</sup> March, 2009, expressed as a percentage of average daily net assets is as under :

Particulars	As at 31-3-09		As 31-3-08	
	Value* Rs.	%	Value* Rs.	%
Aggregate value of Purchases	2,087,406,988	152.71	9,631,749,184	575.78
Aggregate value of Sales	2,159,612,016	158.00	926,603,296	55.39

\* The amounts do not include reverse repo transactions

3. Investments made in group / associate companies.  
(Refer Annexure 1).
4. Investments made by the schemes of Tata Mutual Fund in companies or their subsidiaries (to the extent of information available) that have invested more than 5% of the net assets as at 31<sup>st</sup> March, 2009 of any scheme of the fund, in terms of Regulation 25 (11).  
(Refer Annexure 2).
5. Statement of Portfolio with industry wise classification as at 31<sup>st</sup> March, 2009.  
(Refer Annexure 3).
6. In accordance with the Rules and Regulations of the scheme, Management Fees are paid at the rate of 1.25% of the daily net assets upto Rs.100 crores and 1% of the daily net assets above Rs.100 crores (previous year : 1.25% of the daily net assets upto Rs.100 crores and 1% of the daily net assets above Rs.100 crores) and Trusteeship Fees are paid at the rate of 0.0100% of the daily net assets (previous year : 0.0100% of the daily net assets).
7. Contingent liabilities as at 31<sup>st</sup> March, 2009 are Rs.Nil (previous year Rs.Nil).
8. Disclosure under Regulation 25(8) of the SEBI Regulation have been made in the table below in respect of amounts paid to parties associated with sponsors in which the Asset Management Company or its major shareholders have a substantial interest.

Name of the Company	Nature of Payment	2008-2009 Rs.	2007-2008 Rs.	% equity capital held by the sponsors and its subsidiary / associates as at 31 <sup>st</sup> March, 2009
Tata Securities Private Limited	Selling Commission	217,173	320,294	#
Tata Investment Corporation Limited	Selling Commission	0	78,098	#
TML Financial Services Limited	Selling Commission	11,650	751,185	#

Tata Securities Private Limited	Brokerage on Securities Transactions	17,000	0	#
Tata Asset Management Limited	Management Fees	16,169,237	19,281,328	100%*
Tata Trustee Company Private Limited	Trusteeship Fees	136,698	167,751	100%**

# Extent of holding by principal shareholders of the sponsors and its subsidiary / associates not available.

\* Tata Sons Limited – 67.90% and Tata Investment Corporation Limited – 32.10%

\*\* Tata Sons Limited – 50.00% and Tata Investment Corporation Limited – 50.00%

9. Net Asset Value Per Unit (Rs.) :

Particulars	As at 31-3-09	As at 31-3-08
Face Value	10.0000	10.0000
Net Asset Value	13.2684	15.8630

10. Unprovided diminution and unrealised appreciation in the value of investments.

Particulars	2008 – 2009 Rs.	2007 – 2008 Rs.
Unrealised appreciation	118,380,463	379,075,623
Unprovided diminution		0

11. There are no unit holders holding over 25% of the Net Asset Value of the Scheme as at 31<sup>st</sup> March, 2009.

12. Unclaimed redemption/dividend amount, since the inception of the scheme has been invested separately, only in money market instruments and the investors who have claimed their redemption amount have been paid along with the appreciation earned on this amount as per SEBI circular MFD / CIR / 9 / 120 / 2000 dated 24 November, 2000. As at 31<sup>st</sup> March, 2009 the unclaimed redemption amount is Rs.439,135/- for 57 investors (previous year Rs.456,976/- for 60 investors) and the unclaimed dividend amount is Rs. Nil (previous year Rs. Nil).

13. In accordance with Regulation 44 (1) of the SEBI (Mutual Funds) Regulations, 1996, securities purchased should be held in the name of the scheme. As at 31 March 2009 reverse repos aggregating to Rs. 117,153,942/- (previous year Rs. 55,794,453/-) and equity securities aggregating to Rs.438/- (previous year Rs.438/-), are held in the name of Tata Trustee Company Private Limited A/c Tata Mutual Fund.

14. The Expert Advisory Committee (EAC) of the Institute of Chartered Accountants of India (ICAI) has opined that the Accounting Standards on Cash Flow Statement (AS-3), Segment Reporting (AS-17) and Related Party Disclosures (AS-18) issued by the ICAI are applicable to financial statements of schemes of mutual funds. The Management of Tata Asset Management Limited (AMC) is of the view that mutual funds are governed by a self contained regulatory framework, i.e. the SEBI Regulations, the Ninth and Eleventh Schedules of which lay down the specific Accounting Policies and Standards to be adopted and the disclosures to be made. Accordingly, the financial statements have been prepared on the basis of the SEBI Regulations.

15. The figures for the previous year have been regrouped and reclassified wherever necessary.
