REPORT OF THE TRUSTEE TO THE UNITHOLDERS FOR THE YEAR ENDED 31ST MARCH, 2012

Dear Unitholder,

It gives us great pleasure to enclose schemewise audited financials as on 31st March, 2012. This Report is in continuation of the 'Performance and Portfolio of the Schemes' Report as on 31st March, 2012 published by us earlier.

1. Scheme Performance, Future Outlook and Operations of the Schemes

The year that was:

Equity:

In the Financial Year 2011-2012 (FY 12), global worries on account of European Union sovereign debt crises, and India specific factors like persistent high inflation and slowdown in investments and infrastructure roll out resulted in a cautious and sombre mood in the Indian equity markets. While the European Union sovereign debt crises caused worries on world growth, rising inflation due to fiscal stimulus in the previous years and supply side constraints, limited the level of central bank monetary intervention, stressing monetary policy to its limit at a time when fiscal consolidation is tough to come by.

Indian equity markets ended the FY12 with BSE Sensex down by 10.5% and Nifty down by 9.2%, and overseas investors took a bigger hit since the Indian rupee depreciated by 12.4% against the US dollar. The fall in the indices means that in terms of valuations, BSE Sensex was quoting at around 13-14 times forward earnings by the end of FY12, which is below the long term averages.

We began FY12 with Standards and Poor's reaffirming India's investment grade rating with stable outlook, only to have a negative outlook comment come up in April 2012. On the monetary policy front too we had RBI hike its key policy rates by 1.75% in the fiscal to tackle inflation during the fiscal, a position that was reversed in April 2012 with a cut of 50 bps as outlook for economic growth was threatened.

During the year, large cap stocks underperformed the mid-cap stocks reflecting their greater exposure to global concerns; however liquidity issues caused small-cap stocks to significantly underperform both the other capitalisation indices. Sectorally, investors bought the India domestic consumption story, with sectoral indices like auto, FMCG, health care, consumer durables and software (owing to its currency play angle) outperforming the BSE Sensex, while sectors like banks, capital goods, metal, oil & gas, power, PSU and realty underperformed the BSE Sensex.

The Union Budget for fiscal 2013 (FY13) was presented in the background of fiscal and political constraints. The thrust areas of the budget are giving impetus to growth by focusing on incentivizing investments, fiscal consolidation through widening of tax base and reducing subsidy, financial inclusion and improvement of governance through the unique identification scheme and anti-corruption legislation. The budget targets a fiscal deficit of 5.1% in FY13 from 5.9% in FY12. The budget raised service tax and excise duty each from 10% to 12%, while widening the net of service tax net to include all services except a small negative list. The budget divestment targets are modest, but fuel subsidies seem understated. The budget figures are based on assumption of a 14% nominal GDP growth.

GDP growth for the fourth quarter FY12 was reported at 5.3% YoY (9.2% YoY same period last year). On a yearly basis, analyzing by activity, the GDP grew by 6.5% YoY in FY12; industry posted weaker growth of 3.4% YoY from 7.2% YoY in FY11, and agriculture posted a growth of 2.8% YoY from 7% YoY in FY11, while services sector growth (constituting 59% of GDP) was strong at 8.9% YoY from 9.3% YoY in FY11. On an expenditure basis, investment growth almost halved to 5.5% YoY from 11.1% YoY in FY11. Consumption growth came at 5.4% YoY for FY12 from 8.1% YoY in FY11 due to slow down in both private and public consumption expenditure. Net exports on the other hand posted a deeper contraction of 7.4% YoY in FY12 from contraction of 6% YoY in FY11.

In terms of corporate results for the broad market, thanks to high inflation, the sales of companies in value terms for the first three quarters of FY12 was at 20%+; however in line with slowing economic growth, the sales growth in value terms came down to mid-teens in the 4th quarter of FY12. The operating margins of companies were hurt by rising wage costs and higher raw material/ commodity prices and net profit margins were also hurt by higher interest costs especially for the highly leveraged companies. As a result, the net profit growth for the corporate lagged the sales growth of companies.

Debt:

Fiscal Year 2011-12 (FY 12) was a difficult year. The Index of Industrial Production (IIP) recorded a growth of 2.8 % during FY12 compared to 8.2% in FY11. The mining sector declined by 2%, while the manufacturing sector recorded a growth of 2.9% and electricity sector of 8.2%, as compared to growth of 5.2%, 9% and 5.6% respectively in FY11.

Inflation, measured by the Wholesale Price Index (WPI), remained above 9.0% levels between April-November 2011 but moderated thereafter to end the year at 6.9% in March 2012. Average inflation for FY12 was 8.8% as compared to 9.5% in FY11. The decrease was largely driven by falling inflation in food articles, which declined from 15.8% in FY11 to 7.4% in FY12. Manufactured products inflation initially went up to above 8.0% levels till November 2011, but moderated to 4.9% by March 2012.

During FY12, the repo rate was increased by 175 basis points from 6.75% to 8.50%, with the last increase of 25 basis points effective from October 25, 2011. However, considering the moderation in economic growth and the inflation trajectory, RBI in its mid-quarter monetary policy review in December 2011 paused further tightening of policy rates. In the third quarter monetary policy review announced in January 2012, RBI reduced the cash reserve ratio (CRR) by 50 basis points from 6.0% to 5.50%. CRR was further reduced by 75 basis points in March 2012 to 4.75%. In its annual policy review for fiscal 2013 announced in April 2012, RBI reduced the repo rate by 50 basis points to 8.00%.

Liquidity in the system continued to remain in deficit through FY12, mainly on account of RBI intervention in foreign exchange market to support depreciating rupee. RBI sold over USD 20 billion during the year to support rupee, which further exasperated the liquidity deficit in the system. As compared to an average borrowing by banks under the liquidity adjustment facility (LAF) window of RBI of Rs. 471 billion in FY11, average borrowing increased to Rs. 799 billion in FY12. The liquidity deficit crossed Rs.1.00 trillion from November 2011. The average daily borrowing touched a peak of Rs.1.96 trillion in end-March 2012. In view of the tight liquidity conditions, apart from the reduction in CRR, RBI also injected liquidity through open market operations aggregating around Rs.1.30 trillion between November 2011 and March 2012.

The yields on the benchmark 10 year government securities increased by about 55 basis points to 8.54% at March 30, 2012 from 7.99% at March 31, 2011. The yield on 5 year and 10 year AAA corporate bonds closed the year at 9.55% and 9.51% respectively, from 9.23% and 9.15% at March 31, 2011. Due to tight liquidity conditions, the short term money market rates also moved up significantly during the year. While the 3 month CD rates moved up by 125 bps to close at 10.7% compared to previous year's closing of 9.45%, the 12 month CD rates closed at 10.15%, up 65 bps respectively compared to previous year's close of 9.5%.

Future Outlook:

Equity

In FY12 emerging market economies have been impacted by sluggish growth of developed economies and tightening of monetary policy to control inflation. However, now that their growth is slowing, many emerging markets like Brazil, China, Indonesia, India, Israel and Thailand are increasingly using their greater monetary capacity to cut interest rates/ cost of capital as compared to the developed economies that are already at near zero interest rates, to support economic growth. Debt overhang in the developed nations will take time to work out of the system. Considering these facts we think longer term emerging markets are well placed in terms of future growth prospects vis-à-vis the developed economies.

As per the latest census (2011), India now has a population of 1.2 billion (17.5% of world population) from 1 billion in 2001, marking the slowest decade of population growth since 1951 of 1.6% per annum (2% per annum in the 1991-2000 decade). Urbanization has risen from 27% of population in 2001 to 31% of population in 2011. A young population, rapid urbanization, improving social indicators like literacy, sex ratio etc. indicate towards a secular trend in favour of discretionary consumption like durables, personal products, packaged foods, housing etc. and for services like education which are seen as a means to achieving a better standard of living.

While investors may be concerned about the macro-economic challenges faced by the Indian economy, it may be noted much of these issues have arisen due to supply side bottlenecks on various fronts like infrastructure, energy, minerals and labour. Most of these issues can be addressed through appropriate government policy response to encourage capacity addition and increase the country's growth rate. While the macro headwinds remain challenging currently, it is important to remember that wealth is generated in the equity market by buying superior businesses at reasonable prices in times of such worry. A portfolio made of such businesses is likely to ride out challenging times and generate returns well into the future; though in the near term volatility can be high.

Debt

RBI has projected India's GDP to grow by 7.3% in fiscal 2013 and inflation to be at 6.5% in March 2013. However, given the current macro-economic environment, there is a downside risks to RBI's growth projections. In view of the weak growth scenario, RBI is likely to take further steps towards monetary easing, which will reduce the interest rates significantly during the fiscal 2013.

FUNDS UNDER MANAGEMENT – OPERATIONS

Tata Mutual Fund as on 31st March'2012, manages forty two open ended schemes of which seventeen are equity schemes, two are balanced schemes, twenty two are debt schemes, one is Equity Linked Saving Scheme (ELSS) and forty close ended schemes of which two are equity schemes, thirty five are debt schemes, one is balanced scheme and two are Equity Linked Saving Scheme (ELSS). The average net assets under management were Rs19091.14 crores as on 31.03.2012.

Investment objective, policy and performance of the schemes of Tata Mutual Fund are given in Annexure I.

2. Brief Background of Sponsors, Trust, Trustee Co. and Asset Management Company (AMC).

a) Tata Mutual Fund

Tata Mutual Fund (TMF) was set up as a Trust by the Sponsors and the Settlers, Tata Sons Limited (TSL) and Tata Investment Corporation Limited (TICL) on 9th May, 1995 with Tata Trustee Company Limited as a Trustee in accordance with the provisions of the Indian Trusts Act, 1882 and is duly registered under the Indian Registration Act, 1908. The Trustee has entered into an Investment Management

Agreement dated 9th May, 1995 with Tata Asset Management Limited to function as the Investment Manager for all the Schemes of Tata Mutual Fund (TMF). TMF was registered with SEBI on 30th June, 1995.

The Trustee is the exclusive holder of the Trust Funds and holds the same in trust for the benefit of the unitholders who are the ultimate owners/beneficiaries of the funds. The Trustee has been discharging its duties and carrying out the responsibilities as provided in the Regulations and the Trust Deed. The Trustee seeks to ensure that the Fund and the Schemes floated there under are managed by the AMC in accordance with the Trust Deed, the Regulations, directions and guidelines issued by the SEBI, the Stock Exchanges, the Association of Mutual Funds in India and other regulatory agencies.

Tata Asset Management Limited (TAML) is a company incorporated under the Companies Act, 1956 on 15th March, 1994. TAML has been appointed as the Asset Management Company for Tata Mutual Fund by the Trustee vide Investment Management Agreement (IMA) dated 9th May, 1995, executed between TTCL and TAML.

The Trustee Company has appointed TAML as the Asset Management Company for TMF.

3. Significant Accounting Policies:

Accounting policies are in accordance with the requirements of the Securities Exchange Board of India (Mutual Fund) Regulations 1996.

4. Investor Services

As on 31st March 2012, Tata Mutual Fund is servicing over 13 lacs investor accounts through more than 250 touch points. Tata Mutual Fund also offers online transaction facility for the convenience of the investors. In line with industry recommendations and also as part of improvement process, Tata Mutual Fund has implemented following statutory & self driven initiatives:

- 1) Multiple bank account registration
- 2) Multiple nomination facility (upto three)
- 3) Online status of undelivered brokerage / redemption / dividend warrant
- 4) Access to investor service centre on Sunday through Toll Free Number 1800 209 0101.
- 5) Option to hold units in demat mode
- 6) Go Green initiative by capturing investor contact information through call centre
- 7) Simplifying request for PIN process to transact online
- 8) Intimation to distributors for maturing SIPs

5. Unclaimed Dividend & Redemption:

Details of unclaimed dividend and redemption amount are given in Annexure II

6. Redressal of Complaints received against Mutual Funds (MFs) during 2011-2012:

Details of complaints received and redressed during financial year 2011-12 are given in Annexure III

7. Statutory Information:

- a. The Sponsors are not responsible or liable for any loss resulting from the operation of the Schemes of the Fund beyond their initial contribution (to the extent contributed) of Rs. 1 lakh for setting up the Fund and extant SEBI(Mutual Funds) Regulation, 1996.
- b. The price and redemption value of the units, and income from them, can go up as well as down with fluctuations in the market value of its underlying investments.
- c. Full Annual Report shall be disclosed on the website (www.tatamutualfund.com) and shall be available for inspection at the Head Office of the mutual fund. Present and prospective unit holder can obtain copy of the trust deed, the full Annual Report of the Fund / AMC at a charge.

For Tata Trustee Company Limited,

S. M. Datta
Chairman

Place : Mumbai

Date : July 20, 2012

Investment Objective, policy and performance of the schemes

* Tata Asset Management Ltd. does not have the intention to participate directly or indirectly in the management of the companies but it will use its influence as the representative of the shareholder amongst others by exercising its voting rights in accordance with the best interest of its scheme's unit holders. However it was felt that during the year the management proposals put up for vote were not inadvertently affecting the interest of the unitholders, hence Tata Asset Management Lt. has refrained or abstained from exercising the voting rights.

AUDITORS' REPORT

**TO THE BOARD OF DIRECTORS OF
TATA TRUSTEE COMPANY LIMITED
TATA MUTUAL FUND - TATA CONTRA FUND**

We have audited the attached Balance Sheet of **Tata Mutual Fund – Tata Contra Fund** (the "Scheme") as at March 31, 2012 and the related Revenue Account for the year ended on that date annexed thereto. These financial statements are the responsibility of the Managements of Tata Trustee Company Limited (the "Trustee Company") and the Tata Asset Management Limited (the "Investment Manager"). Our responsibility is to express an opinion on the financial statements. We report as follows:

- a) Our audit was conducted in accordance with generally accepted auditing standards in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
- b) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- c) The Balance Sheet and the Revenue Account dealt with by this report are in agreement with the books of account of the Scheme.
- d) The Balance Sheet and the Revenue Account dealt with by this report have been prepared in accordance with accounting policies and standards as specified in the Ninth Schedule of the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996.
- e) Non-traded securities have been valued in accordance with the guidelines notified by the Securities and Exchange Board of India. In our opinion, these valuations are fair and reasonable.
- f) Without qualifying our opinion we draw attention to note no. B 1.2 in Schedule VI of the financial statements wherein the Managements of the Trustee Company and the Investment Manager have explained their rationale for regarding Accounting Standards issued by the Institute of Chartered Accountants of India as not being applicable to mutual funds.
- g) In our opinion and to the best of our information and according to the explanations given to us, the said financial statements give the information required by the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 and give a true and fair view:
 - i. in the case of the Balance Sheet, of the state of affairs of the Scheme as at March 31, 2012; and
 - ii. in the case of the Revenue Account, of the surplus of the Scheme for the year ended on that date.

Schedules forming part of the Accounts

Schedule VI Statement of significant accounting policies and notes forming part of the financial statements of Tata Contra Fund as at and for the year ended 31st March, 2012.

A BACKGROUND

TATA CONTRA FUND (the "Scheme") is an open ended scheme of Tata Mutual Fund (the "Fund"). The Fund is registered with the Securities and Exchange Board of India ("SEBI"). The Scheme is managed by Tata Asset Management Limited ("TAML" / the "Investment Manager"), an investment management company registered with SEBI. The investment objective of the Scheme is to provide income distribution and / or medium to long term capital gains while at all times emphasizing the importance of capital appreciation. Contrarian investing refers to buying into fundamentally sound scrips that have been overlooked by the market (for reasons of short term trend) and waiting for the market to give these stocks their real value in course of time. The Scheme is sponsored by Tata Sons Limited ("TSL") and Tata Investment Corporation Limited ("TICL"). Tata Trustee Company Limited ("TTCL" / the "Trustee Company") is the trustee company of the Scheme.

B SIGNIFICANT ACCOUNTING POLICIES

1.1 Basis of Accounting

The Scheme maintains its books of account on an accrual basis.

1.2 Preparation of Financial Statements of the Scheme

The financial statements of the Scheme have been prepared in accordance with the requirements of Securities and Exchange Board of India (Mutual Funds) Regulations, 1996, (the "SEBI Regulations"), the Ninth and Eleventh Schedules of which lay down the accounting policies and standards to be adopted and the disclosures to be made.

The Expert Advisory Committee (the "EAC") of the Institute of the Chartered Accountants of India ("ICAI") have opined that the Accounting Standards on Cash Flow Statement ("AS-3"), Segment Reporting ("AS-17") and Related Party Disclosures ("AS-18") issued by the ICAI are applicable to the financial statements of schemes of mutual funds. The managements of the Investment Manager and the Trustee Company are of the opinion that mutual funds are governed by a self-contained regulatory framework, i.e. the SEBI Regulations, based on which the financial statements have been prepared.

The preparation of financial statements in conformity with the SEBI regulations requires the use of certain critical accounting estimates. It also requires the Board of Directors of the Investment Manager to exercise its judgement in the process of applying the Fund's accounting policies.

1.3 Portfolio Valuation

a. Classification

The Scheme classifies its investments in equity and debt securities, as Non-Traded, Thinly Traded and Traded Securities.

Non-Traded Securities are those equity and equity related securities that have not been traded on any Stock Exchange for a period of thirty days prior to the valuation date or debt securities (not being Government Securities) that have not been traded on any such exchange on the valuation date.

The Thinly Traded Securities category has two sub-categories: thinly traded equity and equity related securities and thinly traded debt securities. When trading in an equity and equity related security (such as convertible debentures, equity warrants, etc.) in a month is less than Rs. 500,000 and the total volume (in all recognised Stock Exchanges) is less than 50,000 shares the security is classified as thinly traded. A debt security (other than a Government Security) is classified as thinly traded if, on the valuation date, there are no individual trades (in the principle or other Stock Exchange) in that security in marketable lots (presently Rs. 5 crore).

Equity or debt securities that do not fall within the Non Traded Securities or Thinly traded Securities are classified as Traded Securities.

b. Recognition, de-recognition and measurement

Regular purchases and sales of investments are recognised on the trade date – i.e. the date on which the Scheme's order of purchase or sale of investment is executed. Investments include contracts for purchase of securities and exclude contracts for sale of securities, for which deliveries are not received/collected.

Investments purchased are initially recognised at cost of acquisition. Cost of acquisition includes transaction costs such as brokerage, stamp charges and other charges customarily included in the brokers note.

Investments are derecognised when the rights to receive cash flows from the investments have expired or the Scheme has transferred substantially all the risks and rewards of ownership.

Bonus shares and rights entitlement are recognised as on the respective ex-dates on the principal stock exchange where the shares are traded.

Subsequent to initial recognition, all investments are measured at fair values reflective of the realisable value of the securities / assets. Gains or losses on sale of investments are determined using the "average cost method" and are recognised in the Revenue Account in the period in which they arise either within "Income" if it is a gain or within "Expenses and Losses" if it is a loss. Changes in the unrealised diminution in the value of investments, if any, between two balance sheet dates is recognised in the Revenue Account as "Provision/(Reversal) for diminution in value of investments". Changes in the unrealised appreciation in the value of investments, if any, between two balance sheet dates is disclosed under appropriation account as "Increase / (Decrease) in unrealised appreciation in the value of investments". Unrealised gain in the value of investment is reduced from distributable income at the time of income distribution.

c. Fair value estimation

Equity and equity related securities:

Traded securities are valued at the last quoted closing price on the principal stock exchange (Bombay Stock Exchange Limited) on which the security is traded on valuation date. If no trade is reported on the principal stock exchange on a particular valuation date, traded securities are valued at the last quoted price on that date on any other recognised stock exchange.

When a security is not traded on any stock exchange on a particular valuation day, the value at which it was traded on the principal stock exchange or any other stock exchange, as the case may be, on the earliest previous day is used provided such date is not more than 30 days prior to the valuation date.

Based on the procedures determined by the Investment Manager and approved by the Trustee Company as on date, the fair values of non-traded and thinly traded equity and equity related securities are determined in each case by appropriately discounting for illiquidity, the average of the net worth per share and the capitalised earning values of those shares determined in accordance with SEBI's Circular No SEBI/ IMD/MC No.2/ 836/2011 dated January 7th, 2011.

Debt securities (including asset backed securities and money market instruments but excluding Government securities and Treasury Bills):

Traded:

Upto 28th July, 2010, traded debt securities were being valued at the last quoted closing price on the principal stock exchange (National Stock Exchange of India Limited) on which the security is traded on the valuation date.

Consequent to SEBI's circular (Ref: SEBI/IMD/CIR No.16/ 193388/2010) dated 2nd February, 2010 (the "SEBI Circular on valuation of Debt Securities and Money Market Instruments"), with effect from 29th July, 2010, such securities are valued at the weighted average price at which they are traded on the particular valuation day on the principal stock exchange (National Stock Exchange of India Limited) on which the security is traded.

Non-traded, thinly-traded:

Based on the procedures determined by the Investment Manager and approved by the Trustee Company, the fair values of thinly traded and non- traded debt securities have been determined as under:

Up to 28th July, 2010, the non – traded/ thinly traded debt securities having maturity over 182 days were categorised by the Investment Manager as "investment grade" and "below investment grade". The values applied by the Investment Manager for "investment grade" debt securities were based on yield derived from the risk free benchmark yield and matrix of spread obtained from CRISIL (the agency being entrusted for the purpose by the Association of Mutual Funds in India ("AMFI")). The Scheme does not have investments in 'below-investment grade' securities.

Non – traded/ thinly traded debt securities with residual maturity of upto 182 days were valued on the basis of amortisation (cost / last valuation price (as applicable) plus the difference between the redemption value and the cost / last valuation price (as applicable) spread uniformly over the remaining maturity period of the instrument).

With effect from 29th July, 2010, non-traded / thinly traded debt securities (including floating rate securities) and Money Market Instruments of over 91 days to maturity are valued based on yields arrived at by using a matrix of spread over the risk free benchmark yield. The risk free benchmark yield and matrix of spread is obtained from CRISIL and ICRA (both agencies being entrusted for the purpose by AMFI), which are aggregated to arrive at the average yield for valuation.

Non-Traded / thinly traded debt securities and Money Market instruments with residual maturity of upto 91 days are valued on an amortisation basis (i.e. at cost / last valuation price (as applicable) plus the difference between the redemption value and cost / last valuation price (as applicable) spread uniformly over the remaining maturity period of the instrument).

In the case of floating rate securities with floor and caps on coupon rate and residual maturity of upto 91 days, the valuation on an amortisation basis is determined taking the floor as the coupon rate.

Government Securities and Treasury Bills:

Upto 31st August, 2010, Government Securities (not being Treasury Bills) were being valued at the prices released by CRISIL, which was the agency approved by AMFI for the purpose.

Consequent to the guidance provided by AMFI, on and from 1st September, 2010, such securities are valued at the average of the prices released by CRISIL and ICRA, which are now the agencies approved by AMFI for the purpose.

Upto 4th August, 2010, Treasury Bills were being valued at the last quoted closing price on the principal stock exchange (National Stock Exchange of India Limited) on which it was traded or at amortised cost (i.e. at cost / last valuation price (as applicable) plus the difference between the redemption value and cost / last valuation price (as applicable) spread uniformly over the remaining maturity period of the instrument), if not traded.

Consequent to guidance provided by AMFI, on and from 5th August, 2010, Treasury Bills are valued at the weighted average price at which they are traded on the particular valuation day on the principal stock exchange (National Stock Exchange of India Limited) on which it is traded. In the absence of such trade, Treasury Bills having a residual maturity greater than 91 days are valued at the average of the prices released by CRISIL and ICRA, the approved agencies for the purpose and Treasury Bills having a residual maturity not exceeding 91 days, are valued on an amortisation basis (i.e. at cost / last valuation price (as applicable) plus the difference between the redemption value and cost / last valuation price (as applicable) spread uniformly over the remaining maturity period of the instrument).

Derivatives:

Derivative contracts are valued at closing market rates on the principal stock exchange on which the security is traded. On an ongoing basis, in the absence of a quoted price on the valuation date for derivatives, the last available quoted price within a period of thirty days prior to valuation date is used for valuation purposes.

The Scheme does not have any derivative contracts which have not been quoted for a period beyond thirty days to the valuation date.

1.4 A) Income Recognition:

- a) Income is recognised when the right of receipt is established and there is a reasonable certainty of collection.
- b) Dividend income is recognised when the right to receive payment is established on ex-dividend dates.
- c) Profit or loss on sale of investments is recognised on trade dates. The cost of investments sold is determined on "weighted average cost basis".
- d) Interest on investments is recognised on an accrual basis.
- e) Discounts / premium on debt securities are amortised on a straight-line basis over the period upto redemption.

1.4 B) Expenses:

Expenses directly attributable and identifiable to particular scheme, are charged to the respective scheme. Investor related expenses viz: Registrar expenses, investor communications, investor meets etc. are allocated to the schemes in proportion to the number of live folios in the schemes. Other expenses, which are not identifiable to specific schemes, are allocated to the schemes in proportion to their net assets.

1.5 Unit Premium Reserve (“UPR”) and Income Equalisation

On issue / repurchase of units, the portion of the premium which is attributable to realised gains is credited / debited to the Revenue Account for the period as Income Equalisation. It is reflected in the Revenue Account after the net surplus / deficit of the scheme is determined. The balance portion of the premium that is not attributable to realised gains is credited / debited to the UPR.

If units are sold at a price lower than the face value the difference is debited to the Revenue Account as Income Equalisation.

The distributable amount is determined by deducting from the balance in the Revenue Reserve as at the end of the period, the net unrealised appreciation in the value of investments as at the end of the period. Credit balance in the UPR is considered to be at par with unit capital and is not taken into account in the determination of the distributable surplus. Dividend is declared only when the Revenue Reserve is positive.

1.6 Load Charges:

Load represents amounts charged to investors at the time of exit from the scheme.

The difference between the NAV and the repurchase price is disclosed as “Accumulated Load” which is not considered for computation of the Net Asset Value.

In compliance with SEBI’s Circular No. SEBI/IMD/CIR No. 4/ 168230/09 dated June 30, 2009, with effect from August 1, 2009:

- The Scheme has not charged any entry load on investments made into it (including additional purchases and switches into the Scheme from other schemes) otherwise than through Systematic Investment Plans (“SIPs”) registered prior to July 31, 2009 (as the circular is applicable to SIPs registered on or after August 1, 2009).

- In terms of SEBI Circular dated 9th March, 2011, the load balance needs to be segregated into two separate accounts in the books of the scheme. One account should reflect load balance as on 31st July, 2009 and the other account should reflect accretions after 31st July, 2009.

Further as per the circular, the utilization of load balance from the load account as of 31st July, 2009 should be restricted to one-third in each of the financial year and the said utilization should be only for meeting marketing and selling expenses including distributor’s / agent’s commissions.

The accretions after 31st July, 2009 can be utilized without any restrictions.

C. Notes attached to and forming part of the financial statements for the year ended 31st March, 2012.

1. The aggregate value of purchases and sales (including redemptions) of investments for the year ended 31st March, 2012 expressed as a percentage of average daily net assets is as under :

Particulars	Year Ended		Year Ended	
	31-Mar-12		31-Mar-11	
	Value* (Rs.)	%	Value* Rs.	%
Aggregate value of Purchases	279,672,220	29.17	306,936,161	26.44
Aggregate value of Sales (including redemptions)	437,042,586	45.59	657,626,756	56.66

* The amounts do not include CBLO and Reverse Repo transactions.

2. Investments made by the schemes of Tata Mutual Fund in companies or their subsidiaries (to the extent of information available) that have invested more than 5% of the net assets of any scheme of the fund, in terms of Regulation 25 (11) (Refer Annexure 1).
3. Statement of Portfolio with industry wise classification as at 31st March, 2012 (Refer Annexure 2).
4. Amount receivable from the Investment Manager Rs.2,718,211/- (previous year Rs.1,137,647/-) is included under “Other receivables” in “Other Current Assets”.
5. In accordance with the SEBI Regulations, Management Fees are paid at the rate of 1.25% of the daily net assets upto Rs.100 crores and 1% of the daily net assets above Rs.100 crores (previous year : 1.25% of the daily net assets upto Rs.100 crores and 1% of the daily net assets above Rs.100 crores) and Trusteeship fees as paid as per the table below:

Current Year			Previous Year		
Dates		% of Daily Net Asset	Dates		% of Daily Net Asset
From	To		From	To	
1-Apr-11	31-Mar-12	0.0500	1-Apr-10	14-Jun-10	0.0100
			15-Jun-10	31-Mar-11	0.0500

6. There are no unit holders holding over 25% of the Net Asset Value of the Scheme as at 31st March,2012 (previous year no unit holders holding over 25% of the Net Asset Value)
7. Other Income includes an amount of Rs.Nil (previous year Rs.1,198,109/-) towards reversal of excess provision of previous year no longer required.
8. **Transactions with Trustees, Investment Manager, their associates and with entities controlled by co-sponsors (in relation to services received by the Scheme).**

As explained above, TSL and TICL are the co-sponsors of the Mutual Fund. The nature of transactions with the Trustees, the Investment Manager, their associates and entities controlled by co-sponsors has been provided hereinafter. For the purpose of making these disclosures, the meanings ascribed to the terms “associates” and “control” by Regulation 2(c) and 2(g) of the SEBI Regulations have been used which have been summarised below:

- i. Associates and entities that exercise control over or are controlled by the Trustee Company and the Investment Manager or whose director, officer or employee is a director, officer or employee of the Investment Manager;
- ii. Control means the ability to exercise not less than 10% of the voting power of an entity or the ability of the board of directors of an entity to exercise control over the Investment Manager.

Investment Manager

The Board of Directors of the Trustee Company has appointed Tata Asset Management Limited as the Investment Manager for the Mutual Fund pursuant to an agreement dated 9th May 1995. The Investment Manager also provides certain secretarial and administrative services to the Mutual Fund. Under the terms of the arrangement, the Scheme pays the Investment Manager a fee not greater than as defined in the Offer Document as a % of the net assets value attributable to the unit holders on each day. The Investment Manager is a subsidiary of TSL.

Broker

The Investment Manager has appointed various brokers for carrying out investment trades on behalf of the Scheme for a brokerage. Entities that have been paid such brokerage include Tata Securities Limited ("TSec"), over which TSL exercises control.

Transactions during the year in relation to services received by the Scheme from the co-sponsors or from entities over which they exercise control and other disclosures required under Regulation 25(8) of the SEBI regulations are contained in Annexure 3.

9. Disclosure under Regulation 25(8) of the SEBI (MF) Regulations 1996 have been made in the table below in respect of other payments made to parties associated with sponsors in which the Investment Manager or its major shareholders have a substantial interest.

Name of the Company	Nature of Payment	Year Ended 31-Mar-12 Rs.	Year Ended 31-Mar-11 Rs.	% equity capital held by the sponsors and its subsidiary / associates as at 31 st March, 2012.
Tata Asset Management Limited	Management Fees	11,990,236	14,103,127	100%*
Tata Trustee Company Limited	Trusteeship Fees	480,680	479,188	100%**

* Tata Sons Limited – 67.90% and Tata Investment Corporation Limited – 32.10%

** Tata Sons Limited – 50.00% and Tata Investment Corporation Limited – 50.00%

10. Investments made in group / associate companies (Refer Annexure 4).

11. Net Asset Value Per Unit (Rs.) :

Particulars	As at 31-Mar-12		As at 31-Mar-11
Face Value Rs.	10		
Net Asset Value Rs.	DIVIDEND	14.8184	15.5825
	GROWTH	17.9766	17.7107

12. Unprovided diminution and unrealised appreciation in the value of investments.

Particulars	As at	As at
	31-Mar-12	31-Mar-11
	Rs.	Rs.
Unrealised appreciation	242,228,902	289,159,236
Unprovided diminution	Nil	Nil

13. **Utilisation of Load charges**

- i. Details of exit load in excess of 1% of redemption value is transferred to "Other Income" in terms of SEBI's Circular No. SEBI/IMD/CIR No.4/ 168230/09 dated 30th June, 2009, with effect from 1st August, 2009. The utilisation of the load reserve is disclosed in "Accumulated Load" account in Schedule II.

Year Ended 31-Mar-12 Rs.	Year Ended 31-Mar-11 Rs.
818	5,321

- ii. During the year, the load charges have been utilised for meeting the marketing and selling expenses, including distributor's / agent's commissions.

Year Ended 31-Mar-12 Rs.	Year Ended 31-Mar-11 Rs.
55,152	247,941

14. Unclaimed redemption/dividend amount, since the inception of the scheme has been invested separately, only in money market instruments and the investors who have claimed their dividend amount have been paid alongwith the appreciation earned on this amount as per SEBI circular MFD / CIR/9/120/2000 dated 24th November, 2000.As at 31st March, 2012 the unclaimed redemption/dividend amount is Rs.Nil (previous year Rs.Nil).
15. In accordance with Regulation 44 (1) of the SEBI (Mutual Funds) Regulations, 1996, securities purchased should be held in the name of the Scheme. Investments in Government Securities and Treasury Bills are held in the name of "Tata Mutual Fund".
16. No provision for income tax has been made since the income of the schemes is exempt u/s 10(23D) of the Income Tax Act 1961.
17. The figures for the previous year have been regrouped and reclassified wherever necessary to conform with the current year's classification.

On behalf of the Board of Directors
of **Tata Trustee Company Limited**

Director

Tata Asset Management Limited

Authorised Signatory

Fund Manager

Schedules forming part of the Accounts

Schedule VIII Statement of significant accounting policies and notes forming part of the financial statements of Tata Service Industries Fund as at and for the year ended 31st March, 2012.

A BACKGROUND

TATA SERVICE INDUSTRIES FUND (the "Scheme") is an open ended scheme of Tata Mutual Fund (the "Fund"). The Fund is registered with the Securities and Exchange Board of India ("SEBI"). The Scheme is managed by Tata Asset Management Limited ("TAML" / the "Investment Manager"), an investment management company registered with SEBI. The investment objective of the Scheme is to provide income distribution and / or medium to long term capital gains by investing predominantly in equity/equity related instrument of the companies in the service sectors. The Scheme is sponsored by Tata Sons Limited ("TSL") and Tata Investment Corporation Limited ("TICL"). Tata Trustee Company Limited ("TTCL" / the "Trustee Company") is the trustee company of the Scheme.

B SIGNIFICANT ACCOUNTING POLICIES

1.1 Basis of Accounting

The Scheme maintains its books of account on an accrual basis.

1.2 Preparation of Financial Statements of the Scheme

The financial statements of the Scheme have been prepared in accordance with the requirements of Securities and Exchange Board of India (Mutual Funds) Regulations, 1996, (the "SEBI Regulations"), the Ninth and Eleventh Schedules of which lay down the accounting policies and standards to be adopted and the disclosures to be made.

The Expert Advisory Committee (the "EAC") of the Institute of the Chartered Accountants of India ("ICAI") have opined that the Accounting Standards on Cash Flow Statement ("AS-3"), Segment Reporting ("AS-17") and Related Party Disclosures ("AS-18") issued by the ICAI are applicable to the financial statements of schemes of mutual funds. The managements of the Investment Manager and the Trustee Company are of the opinion that mutual funds are governed by a self-contained regulatory framework, i.e. the SEBI Regulations, based on which the financial statements have been prepared.

The preparation of financial statements in conformity with the SEBI regulations requires the use of certain critical accounting estimates. It also requires the Board of Directors of the Investment Manager to exercise its judgement in the process of applying the Fund's accounting policies.

1.3 Portfolio Valuation

a. Classification

The Scheme classifies its investments in equity and debt securities, as Non-Traded, Thinly Traded and Traded Securities.

Non-Traded Securities are those equity and equity related securities that have not been traded on any Stock Exchange for a period of thirty days prior to the valuation date or debt securities (not being Government Securities) that have not been traded on any such exchange on the valuation date.

The Thinly Traded Securities category has two sub-categories: thinly traded equity and equity related securities and thinly traded debt securities. When trading in an equity and equity related security (such as convertible debentures, equity warrants, etc.) in a month is less than Rs. 500,000 and the total volume (in all recognised Stock Exchanges) is less than 50,000 shares the security is classified as thinly traded. A debt security (other than a Government Security) is classified as thinly traded if, on the valuation date, there are no individual trades (in the principle or other Stock Exchange) in that security in marketable lots (presently Rs. 5 crore).

Equity or debt securities that do not fall within the Non Traded Securities or Thinly traded Securities are classified as Traded Securities.

b. Recognition, de-recognition and measurement

Regular purchases and sales of investments are recognised on the trade date – i.e. the date on which the Scheme's order of purchase or sale of investment is executed. Investments include contracts for purchase of securities and exclude contracts for sale of securities, for which deliveries are not received/collected.

Investments purchased are initially recognised at cost of acquisition. Cost of acquisition includes transaction costs such as brokerage, stamp charges and other charges customarily included in the brokers note.

Investments are derecognised when the rights to receive cash flows from the investments have expired or the Scheme has transferred substantially all the risks and rewards of ownership.

Bonus shares and rights entitlement are recognised as on the respective ex-dates on the principal stock exchange where the shares are traded.

Subsequent to initial recognition, all investments are measured at fair values reflective of the realisable value of the securities / assets. Gains or losses on sale of investments are determined using the “average cost method” and are recognised in the Revenue Account in the period in which they arise either within “Income” if it is a gain or within “Expenses and Losses” if it is a loss. Changes in the unrealised diminution in the value of investments, if any, between two balance sheet dates is recognised in the Revenue Account as “Provision/(Reversal) for diminution in value of investments”. Changes in the unrealised appreciation in the value of investments, if any, between two balance sheet dates is disclosed under appropriation account as “Increase / (Decrease) in unrealised appreciation in the value of investments”. Unrealised gain in the value of investment is reduced from distributable income at the time of income distribution.

c. **Fair value estimation**

Equity and equity related securities:

Traded securities are valued at the last quoted closing price on the principal stock exchange (Bombay Stock Exchange Limited) on which the security is traded on valuation date. If no trade is reported on the principal stock exchange on a particular valuation date, traded securities are valued at the last quoted price on that date on any other recognised stock exchange.

When a security is not traded on any stock exchange on a particular valuation day, the value at which it was traded on the principal stock exchange or any other stock exchange, as the case may be, on the earliest previous day is used provided such date is not more than 30 days prior to the valuation date.

Based on the procedures determined by the Investment Manager and approved by the Trustee Company as on date, the fair values of non-traded and thinly traded equity and equity related securities are determined in each case by appropriately discounting for illiquidity, the average of the net worth per share and the capitalised earning values of those shares determined in accordance with SEBI's Circular No SEBI/ IMD/MC No.2/ 836/2011 dated January 7th, 2011.

Debt securities (including asset backed securities and money market instruments but excluding Government securities and Treasury Bills):

Traded:

Upto 28th July, 2010, traded debt securities were being valued at the last quoted closing price on the principal stock exchange (National Stock Exchange of India Limited) on which the security is traded on the valuation date.

Consequent to SEBI's circular (Ref: SEBI/IMD/CIR No.16/ 193388/2010) dated 2nd February, 2010 (the “SEBI Circular on valuation of Debt Securities and Money Market Instruments”), with effect from 29th July, 2010, such securities are valued at the weighted average price at which they are traded on the particular valuation day on the principal stock exchange (National Stock Exchange of India Limited) on which the security is traded.

Non-traded, thinly-traded:

Based on the procedures determined by the Investment Manager and approved by the Trustee Company, the fair values of thinly traded and non- traded debt securities have been determined as under:

Up to 28th July, 2010, the non – traded/ thinly traded debt securities having maturity over 182 days were categorised by the Investment Manager as “investment grade” and “below investment grade”. The values applied by the Investment Manager for “investment grade” debt securities were based on yield derived from the risk free benchmark yield and matrix of spread obtained from CRISIL (the agency being entrusted for the purpose by the Association of Mutual Funds in India ("AMFI")). The Scheme does not have investments in 'below-investment grade' securities.

Non – traded/ thinly traded debt securities with residual maturity of upto 182 days were valued on the basis of amortisation (cost / last valuation price (as applicable) plus the difference between the redemption value and the cost / last valuation price (as applicable) spread uniformly over the remaining maturity period of the instrument).

With effect from 29th July, 2010, non-traded / thinly traded debt securities (including floating rate securities) and Money Market Instruments of over 91 days to maturity are valued based on yields arrived at by using a matrix of spread over the risk free benchmark yield. The risk free benchmark yield and matrix of spread is obtained from CRISIL and ICRA (both agencies being entrusted for the purpose by AMFI), which are aggregated to arrive at the average yield for valuation.

Non-Traded / thinly traded debt securities and Money Market instruments with residual maturity of upto 91 days are valued on an amortisation basis (i.e. at cost / last valuation price (as applicable) plus the difference between the redemption value and cost / last valuation price (as applicable) spread uniformly over the remaining maturity period of the instrument).

In the case of floating rate securities with floor and caps on coupon rate and residual maturity of upto 91 days, the valuation on an amortisation basis is determined taking the floor as the coupon rate.

Government Securities and Treasury Bills:

Upto 31st August, 2010, Government Securities (not being Treasury Bills) were being valued at the prices released by CRISIL, which was the agency approved by AMFI for the purpose.

Consequent to the guidance provided by AMFI, on and from 1st September, 2010, such securities are valued at the average of the prices released by CRISIL and ICRA, which are now the agencies approved by AMFI for the purpose.

Upto 4th August, 2010, Treasury Bills were being valued at the last quoted closing price on the principal stock exchange (National Stock Exchange of India Limited) on which it was traded or at amortised cost (i.e. at cost / last valuation price (as applicable) plus the difference between the redemption value and cost / last valuation price (as applicable) spread uniformly over the remaining maturity period of the instrument), if not traded.

Consequent to guidance provided by AMFI, on and from 5th August, 2010, Treasury Bills are valued at the weighted average price at which they are traded on the particular valuation day on the principal stock exchange (National Stock Exchange of India Limited) on which it is traded. In the absence of such trade, Treasury Bills having a residual maturity greater than 91 days are valued at the average of the prices released by CRISIL and ICRA, the approved agencies for the purpose and Treasury Bills having a residual maturity not exceeding 91 days, are valued on an amortisation basis (i.e. at cost / last valuation price (as applicable) plus the difference between the redemption value and cost / last valuation price (as applicable) spread uniformly over the remaining maturity period of the instrument).

Derivatives:

Derivative contracts are valued at closing market rates on the principal stock exchange on which the security is traded. On an ongoing basis, in the absence of a quoted price on the valuation date for derivatives, the last available quoted price within a period of thirty days prior to valuation date is used for valuation purposes.

The Scheme does not have any derivative contracts which have not been quoted for a period beyond thirty days to the valuation date.

1.4 A) Income Recognition:

- a) Income is recognised when the right of receipt is established and there is a reasonable certainty of collection.
- b) Dividend income is recognised when the right to receive payment is established on ex-dividend dates.
- c) Profit or loss on sale of investments is recognised on trade dates. The cost of investments sold is determined on "weighted average cost basis".
- d) Interest on investments is recognised on an accrual basis.
- e) Discounts / premium on debt securities are amortised on a straight-line basis over the period upto redemption.

1.4 B) Expenses:

Expenses directly attributable and identifiable to particular scheme, are charged to the respective scheme. Investor related expenses viz: Registrar expenses, investor communications, investor meets etc. are allocated to the schemes in proportion to the number of live folios in the schemes. Other expenses, which are not identifiable to specific schemes, are allocated to the schemes in proportion to their net assets.

1.5 Unit Premium Reserve (“UPR”) and Income Equalisation

On issue / repurchase of units, the portion of the premium which is attributable to realised gains is credited / debited to the Revenue Account for the period as Income Equalisation. It is reflected in the Revenue Account after the net excess / deficit of the scheme is determined. The balance portion of the premium that is not attributable to realised gains is credited / debited to the UPR.

If units are sold at a price lower than the face value the difference is debited to the Revenue Account as Income Equalisation.

The distributable amount is determined by deducting from the balance in the Revenue Reserve as at the end of the period, the net unrealised appreciation in the value of investments as at the end of the period. Credit balance in the UPR is considered to be at par with unit capital and is not taken into account in the determination of the distributable surplus. Dividend is declared only when the Revenue Reserve is positive.

1.6 Load Charges:

Load represents amounts charged to investors at the time of exit from the scheme.

The difference between the NAV and the repurchase price is disclosed as “Accumulated Load” which is not considered for computation of the Net Asset Value.

In compliance with SEBI’s Circular No. SEBI/IMD/CIR No. 4/ 168230/09 dated June 30, 2009, with effect from August 1, 2009:

- The Scheme has not charged any entry load on investments made into it (including additional purchases and switches into the Scheme from other schemes) otherwise than through Systematic Investment Plans (“SIPs”) registered prior to July 31, 2009 (as the circular is applicable to SIPs registered on or after August 1, 2009).
- In terms of SEBI Circular dated 9th March, 2011, the load balance needs to be segregated into two separate accounts in the books of the scheme. One account should reflect load balance as on 31st July, 2009 and the other account should reflect accretions after 31st July, 2009. Further as per the circular, the utilization of load balance from the load account as of 31st July, 2009 should be restricted to one-third in each of the financial year and the said utilization should be only for meeting marketing and selling expenses including distributor’s / agent’s commissions. The accretions after 31st July, 2009 can be utilized without any restrictions.

C. Notes attached to and forming part of the financial statements for the year ended 31st March, 2012.

1. The aggregate value of purchases and sales (including redemptions) of investments for the year ended 31st March, 2012 expressed as a percentage of average daily net assets is as under :

Particulars	Year Ended 31-Mar-12		Year Ended 31-Mar-11	
	Value* (Rs.)	%	Value* Rs.	%
Aggregate value of Purchases	203,154,160	21.57	578,836,742	45.26
Aggregate value of Sales (including redemptions)	341,056,841	36.21	866,868,641	67.79

* The amounts do not include CBLO and Reverse Repo transactions.

2. Investments made by the schemes of Tata Mutual Fund in companies or their subsidiaries (to the extent of information available) that have invested more than 5% of the net assets of any scheme of the fund, in terms of Regulation 25 (11) (Refer Annexure 1).
3. Statement of Portfolio with industry wise classification as at 31st March, 2012 (Refer Annexure 2).
4. Amount receivable from the Investment Manager Rs.1,338,912/- (previous year Rs.Nil) is included under“Other receivables” in “Other Current Assets”.
5. In accordance with the SEBI Regulations, Management Fees are paid at the rate of 1.25% of the daily net assets upto Rs.100 crores and 1% of the daily net assets above Rs.100 crores (previous year : 1.25% of the daily net assets upto Rs.100 crores and 1% of the daily net assets above Rs.100 crores) and Trusteeship fees as paid as per the table below:

Current Year			Previous Year		
Dates		% of Daily Net Asset	Dates		% of Daily Net Asset
From	To		From	To	
1-Apr-11	31-Mar-12	0.0500	1-Apr-10	14-Jun-10	0.0100
			15-Jun-10	31-Mar-11	0.0500

6. Contingent liabilities as at 31st March, 2012 are Rs.Nil (previous year Rs. Nil).
7. Other income includes an amount of Rs.Nil (previous year Rs.233,790/-) towards excess provision of previous year no longer required.
8. **Transactions with Trustees, Investment Manager, their associates and with entities controlled by co-sponsors (in relation to services received by the Scheme).**
As explained above, TSL and TICL are the co-sponsors of the Mutual Fund. The nature of transactions with the Trustees, the Investment Manager, their associates and entities controlled by co-sponsors has been provided hereinafter. For the purpose of making these disclosures, the meanings ascribed to the terms “associates” and “control” by Regulation 2(c) and 2(g) of the SEBI Regulations have been used which have been summarised below:
- Associates and entities that exercise control over or are controlled by the Trustee Company and the Investment Manager or whose director, officer or employee is a director, officer or employee of the Investment Manager;
 - Control means the ability to exercise not less than 10% of the voting power of an entity or the ability of the board of directors of an entity to exercise control over the Investment Manager.

Investment Manager

The Board of Directors of the Trustee Company has appointed Tata Asset Management Limited as the Investment Manager for the Mutual Fund pursuant to an agreement dated 9th May 1995. The Investment Manager also provides certain secretarial and administrative services to the Mutual Fund. Under the terms of the arrangement, the Scheme pays the Investment Manager a fee not greater than as defined in the Offer Document as a % of the net assets value attributable to the unit holders on each day. The Investment Manager is a subsidiary of TSL.

Broker

The Investment Manager has appointed various brokers for carrying out investment trades on behalf of the Scheme for a brokerage. Entities that have been paid such brokerage include Tata Securities Limited ("TSec"), over which TSL exercises control.

Transactions during the year in relation to services received by the Scheme from the co-sponsors or from entities over which they exercise control and other disclosures required under Regulation 25(8) of the SEBI regulations are contained in Annexure 3.

9. Disclosure under Regulation 25(8) of the SEBI (MF) Regulations 1996 have been made in the table below in respect of other payments made to parties associated with sponsors in which the Investment Manager or its major shareholders have a substantial interest.

Name of the Company	Nature of Payment	Year Ended 31-Mar-12 Rs.	Year Ended 31-Mar-11 Rs.	% equity capital held by the sponsors and its subsidiary / associates as at 31 st March, 2012.
Tata Asset Management Limited	Management Fees	11,768,569	15,288,939	100%*
Tata Trustee Company Limited	Trusteeship Fees	472,251	525,705	100%**

* Tata Sons Limited – 67.90% and Tata Investment Corporation Limited – 32.10%

** Tata Sons Limited – 50.00% and Tata Investment Corporation Limited – 50.00%

10. Investments made in group / associate companies (Refer Annexure 4).

11. Net Asset Value Per Unit (Rs.) :

Particulars	As at 31-Mar-12		As at 31-Mar-11
Face Value Rs.	10		
Net Asset Value Rs.	DIVIDEND	16.1809	17.1570
	GROWTH	21.6925	23.0019

12. Unprovided diminution and unrealised appreciation in the value of investments.

Particulars	As at 31-Mar-12 Rs.	As at 31-Mar-11 Rs.
Unrealised appreciation	163,913,202	214,283,887
Unprovided diminution	Nil	Nil

13. **Utilisation of Load charges**

- i. Details of exit load in excess of 1% of redemption value is transferred to "Other Income" in terms of SEBI's Circular No.SEBI/IMD/CIR No.4/ 168230/09 dated 30th June, 2009, with effect from 1st August,2009. The utilisation of the load reserve is disclosed in "Accumulated Load" account in Schedule II.

Year Ended 31-Mar-12 Rs.	Year Ended 31-Mar-11 Rs.
466	10,755

- ii. During the year, the load charges have been utilised for meeting the marketing and selling expenses, including distributor's / agent's commissions.

Year Ended 31-Mar-12 Rs.	Year Ended 31-Mar-11 Rs.
544,712	27,580

14. Unclaimed redemption/dividend amount, since the inception of the scheme has been invested separately, only in money market instruments and the investors who have claimed their dividend amount have been paid alongwith the appreciation earned on this amount as per SEBI circular MFD / CIR / 9 / 120 / 2000 dated 24th November, 2000. As at 31st March,2012 the unclaimed redemption amount is Rs. 77,978/- for 6 investors (previous year Rs.77,978/- for 6 investors) and the unclaimed dividend amount is Rs.Nil for Nil investors (previous year Rs.Nil for Nil investors).
15. There are no unit holders holding over 25% of the Net Asset Value of the Scheme as at 31st March,2012 (previous year no unit holders holding over 25% of the Net Asset Value)
16. In accordance with Regulation 44 (1) of the SEBI (Mutual Funds) Regulations, 1996, securities purchased should be held in the name of the Scheme. Investments in Government Securities and Treasury Bills are held in the name of "Tata Mutual Fund".
17. No provision for income tax has been made since the income of the schemes is exempt u/s 10(23D) of the Income Tax Act 1961.
18. The figures for the previous year have been regrouped and reclassified wherever necessary to conform with the current year's classification.

On behalf of the Board of Directors
of **Tata Trustee Company Limited**

Director

Tata Asset Management Limited

Authorised Signatory

Fund Manager

Schedules forming part of the Accounts

Schedule VIII Statement of significant accounting policies and notes forming part of the financial statements of Tata Retirement Savings Fund - Progressive Plan as at 31st March, 2012 and for the period from 7th October, 2011 to 31st March, 2012.

A BACKGROUND

TATA RETIREMENT SAVINGS FUND -PROGRESSIVE PLAN (the "Scheme") is an open ended scheme of Tata Mutual Fund (the "Fund"). The Fund is registered with the Securities and Exchange Board of India ("SEBI"). The Scheme is managed by Tata Asset Management Limited ("TAML" / the "Investment Manager"), an investment management company registered with SEBI. The objective of the Fund is to provide a financial planning tool for long term financial security for investors based on their retirement planning goals. The Scheme is sponsored by Tata Sons Limited ("TSL") and Tata Investment Corporation Limited ("TICL"). Tata Trustee Company Limited ("TTCL" / the "Trustee Company") is the trustee company of the Scheme.

B SIGNIFICANT ACCOUNTING POLICIES

1.1 Basis of Accounting

The Scheme maintains its books of account on an accrual basis.

1.2 Preparation of Financial Statements of the Scheme

The financial statements of the Scheme have been prepared in accordance with the requirements of Securities and Exchange Board of India (Mutual Funds) Regulations, 1996, (the "SEBI Regulations"), the Ninth and Eleventh Schedules of which lay down the accounting policies and standards to be adopted and the disclosures to be made.

The Expert Advisory Committee (the "EAC") of the Institute of the Chartered Accountants of India ("ICAI") have opined that the Accounting Standards on Cash Flow Statement ("AS-3"), Segment Reporting ("AS-17") and Related Party Disclosures ("AS-18") issued by the ICAI are applicable to the financial statements of schemes of mutual funds. The managements of the Investment Manager and the Trustee Company are of the opinion that mutual funds are governed by a self-contained regulatory framework, i.e. the SEBI Regulations, based on which the financial statements have been prepared.

The preparation of financial statements in conformity with the SEBI regulations requires the use of certain critical accounting estimates. It also requires the Board of Directors of the Investment Manager to exercise its judgement in the process of applying the Fund's accounting policies.

1.3 Portfolio Valuation

a. Classification

The Scheme classifies its investments in equity and debt securities, as Non-Traded, Thinly Traded and Traded Securities.

Non-Traded Securities are those equity and equity related securities that have not been traded on any Stock Exchange for a period of thirty days prior to the valuation date or debt securities (not being Government Securities) that have not been traded on any such exchange on the valuation date.

The Thinly Traded Securities category has two sub-categories: thinly traded equity and equity related securities and thinly traded debt securities. When trading in an equity and equity related security (such as convertible debentures, equity warrants, etc.) in a month is less than Rs. 500,000 and the total volume (in all recognised Stock Exchanges) is less than 50,000 shares the security is classified as thinly traded. A debt security (other than a Government Security) is classified as thinly traded if, on the valuation date, there are no individual trades (in the principle or other Stock Exchange) in that security in marketable lots (presently Rs. 5 crore).

Equity or debt securities that do not fall within the Non Traded Securities or Thinly traded Securities are classified as Traded Securities.

b. Recognition, de-recognition and measurement

Regular purchases and sales of investments are recognised on the trade date – i.e. the date on which the Scheme's order of purchase or sale of investment is executed. Investments include contracts for purchase of securities and exclude contracts for sale of securities, for which deliveries are not received/collected.

Investments purchased are initially recognised at cost of acquisition. Cost of acquisition includes transaction costs such as brokerage, stamp charges and other charges customarily included in the brokers note.

Investments are derecognised when the rights to receive cash flows from the investments have expired or the Scheme has transferred substantially all the risks and rewards of ownership.

Bonus shares and rights entitlement are recognised as on the respective ex-dates on the principal stock exchange where the shares are traded.

Subsequent to initial recognition, all investments are measured at fair values reflective of the realisable value of the securities / assets. Gains or losses on sale of investments are determined using the "average cost method" and are recognised in the Revenue Account in the period in which they arise either within "Income" if it is a gain or within "Expenses and Losses" if it is a loss. Changes in the unrealised diminution in the value of investments, if any, between two balance sheet dates is recognised in the Revenue Account as "Provision/(Reversal) for diminution in value of investments". Changes in the unrealised appreciation in the value of investments, if any, between two balance sheet dates is disclosed under appropriation account as "Increase / (Decrease) in unrealised appreciation in the value of investments". Unrealised gain in the value of investment is reduced from distributable income at the time of income distribution.

c. Fair value estimation

Equity and equity related securities:

Traded securities are valued at the last quoted closing price on the principal stock exchange (Bombay Stock Exchange Limited) on which the security is traded on valuation date. If no trade is reported on the principal stock exchange on a particular valuation date, traded securities are valued at the last quoted price on that date on any other recognised stock exchange.

When a security is not traded on any stock exchange on a particular valuation day, the value at which it was traded on the principal stock exchange or any other stock exchange, as the case may be, on the earliest previous day is used provided such date is not more than 30 days prior to the valuation date.

Based on the procedures determined by the Investment Manager and approved by the Trustee Company as on date, the fair values of non-traded and thinly traded equity and equity related securities are determined in each case by appropriately discounting for illiquidity, the average of the net worth per share and the capitalised earning values of those shares determined in accordance with SEBI's Circular No SEBI/ IMD/MC No.2/ 836/2011 dated January 7th, 2011.

Debt securities (including asset backed securities and money market instruments but excluding Government securities and Treasury Bills):

Traded:

Traded debt securities are valued at the weighted average price at which they are traded on the particular valuation day on the principal stock exchange (National Stock Exchange of India Limited) on which the security is traded.

Non-traded, thinly-traded:

Based on the procedures determined by the Investment Manager and approved by the Trustee Company, the fair values of thinly traded and non-traded debt securities have been determined as under:

Non-traded / thinly traded debt securities (including floating rate securities) and Money Market Instruments of over 91 days to maturity are valued based on yields arrived at by using a matrix of spread over the risk free benchmark yield. The risk free benchmark yield and matrix of spread is obtained from CRISIL and ICRA (both agencies being entrusted for the purpose by AMFI), which are aggregated to arrive at the average yield for valuation.

Non-Traded / thinly traded debt securities and Money Market instruments with residual maturity of upto 91 days are valued on an amortisation basis (i.e. at cost / last valuation price (as applicable) plus the difference between the redemption value and cost / last valuation price (as applicable) spread uniformly over the remaining maturity period of the instrument).

In the case of floating rate securities with floor and caps on coupon rate and residual maturity of upto 91 days, the valuation on an amortisation basis is determined taking the floor as the coupon rate.

Government Securities and Treasury Bills:

Government securities are valued at the average of the prices released by CRISIL and ICRA, which are now the agencies approved by AMFI for the purpose.

Treasury Bills are valued at the weighted average price at which they are traded on the particular valuation day on the principal stock exchange (National Stock Exchange of India Limited) on which it is traded. In the absence of such trade, Treasury Bills having a residual maturity greater than 91 days are valued at the average of the prices released by CRISIL and ICRA, the approved agencies for the purpose and Treasury Bills having a residual maturity not exceeding 91 days, are valued on an amortisation basis (i.e. at cost / last valuation price (as applicable) plus the difference between the redemption value and cost / last valuation price (as applicable) spread uniformly over the remaining maturity period of the instrument).

Derivatives:

Derivatives contracts are valued at closing market rates on the principal stock exchange on which the security is traded. On an ongoing basis, in the absence of a quoted price on the valuation date for derivatives, the last available quoted price within a period of thirty days prior to valuation date is used for valuation purposes.

The Scheme does not have any derivative contracts which have not been quoted for a period beyond thirty days to the valuation date.

1.4 A) Income Recognition:

- a) Income is recognised when the right of receipt is established and there is a reasonable certainty of collection.
- b) Dividend income is recognised when the right to receive payment is established on ex-dividend dates.
- c) Profit or loss on sale of investments is recognised on trade dates. The cost of investments sold is determined on “weighted average cost basis”.
- d) Interest on investments is recognised on an accrual basis.
- e) Discounts / premium on debt securities are amortised on a straight-line basis over the period upto redemption.

1.4 B) Expenses:

Expenses directly attributable and identifiable to particular scheme, are charged to the respective scheme. Investor related expenses viz: Registrar expenses, investor communications, investor meets etc. are allocated to the schemes in proportion to the number of live folios in the schemes. Other expenses, which are not identifiable to specific schemes, are allocated to the schemes in proportion to their net assets.

1.5 Unit Premium Reserve (“UPR”) and Income Equalisation

On issue / repurchase of units, the portion of the premium which is attributable to realised gains is credited / debited to the Revenue Account for the period as Income Equalisation. It is reflected in the Revenue Account after the net surplus / deficit of the scheme is determined. The balance portion of the premium that is not attributable to realised gains is credited / debited to the UPR.

If units are sold at a price lower than the face value the difference is debited to the Revenue Account as Income Equalisation.

The distributable amount is determined by deducting from the balance in the Revenue Reserve as at the end of the period, the net unrealised appreciation in the value of investments as at the end of the period. Credit balance in the UPR is considered to be at par with unit capital and is not taken into account in the determination of the distributable surplus. Dividend is declared only when the Revenue Reserve is positive.

1.6 Load Charges:

Load represents amounts charged to investors at the time of exit from the scheme.

The difference between the NAV and the repurchase price is disclosed as “Accumulated Load” which is not considered for computation of the Net Asset Value.

In compliance with SEBI’s Circular No. SEBI/IMD/CIR No. 4/ 168230/09 dated June 30, 2009 :

- The Scheme has not charged any entry load on investments made into it (including additional purchases and switches into the Scheme from other schemes) .

C. Notes attached to and forming part of the financial statements for the period ended 31st March, 2012.

1. The aggregate value of purchases and sales (including redemptions) of investments for the period ended 31st March, 2012 expressed as a percentage of average daily net assets is as under :

Particulars	Period Ended 31-Mar-12	
	Value* (Rs.)	%
Aggregate value of Purchases	111,002,735	132.69
Aggregate value of Sales (including redemptions)	15,828,236	18.92

* The amounts do not include CBLO and Reverse Repo transactions.

2. Investments made by the schemes of Tata Mutual Fund in companies or their subsidiaries (to the extent of information available) that have invested more than 5% of the net assets of any scheme of the fund, in terms of Regulation 25 (11) (Refer Annexure 1).
3. Statement of Portfolio with industry wise classification as at 31st March, 2012 (Refer Annexure 2).
4. Amount receivable from the Investment Manager Rs.2,203,941/- is included under "Other receivables" in "Other Current Assets".
5. In accordance with the SEBI Regulations, Management Fees are paid at the rate of 1.25% of the daily net assets upto Rs.100 crores and 1% of the daily net assets above Rs.100 crores and Trusteeship fees are paid at the rate of 0.05% daily net assets with effect from 3-Nov-11.
6. Contingent liabilities as at 31st March, 2012 are Rs.Nil (previous year Rs. Nil).
7. There are no unit holders holding over 25% of the Net Asset Value of the Scheme as at 31st March, 2012.
8. **Transactions with Trustees, Investment Manager, their associates and with entities controlled by co-sponsors (in relation to services received by the Scheme).**

As explained above, TSL and TICL are the co-sponsors of the Mutual Fund. The nature of transactions with the Trustees, the Investment Manager, their associates and entities controlled by co-sponsors has been provided hereinafter. For the purpose of making these disclosures, the meanings ascribed to the terms "associates" and "control" by Regulation 2(c) and 2(g) of the SEBI Regulations have been used which have been summarised below:

- i. Associates and entities that exercise control over or are controlled by the Trustee Company and the Investment Manager or whose director, officer or employee is a director, officer or employee of the Investment Manager;
- ii. Control means the ability to exercise not less than 10% of the voting power of an entity or the ability of the board of directors of an entity to exercise control over the Investment Manager.

Investment Manager

The Board of Directors of the Trustee Company has appointed Tata Asset Management Limited as the Investment Manager for the Mutual Fund pursuant to an agreement dated 9th May 1995. The Investment Manager also provides certain secretarial and administrative services to the Mutual Fund. Under the terms of the arrangement, the Scheme pays the Investment Manager a fee not greater than as defined in the Offer Document as a % of the net assets value attributable to the unit holders on each day. The Investment Manager is a subsidiary of TSL.

Broker

The Investment Manager has appointed various brokers for carrying out investment trades on behalf of the Scheme for a brokerage. Entities that have been paid such brokerage include Tata Securities Limited (“TSec”), over which TSL exercises control.

Transactions during the year in relation to services received by the Scheme from the co-sponsors or from entities over which they exercise control and other disclosures required under Regulation 25(8) of the SEBI regulations are contained in Annexure 3.

9. Disclosure under Regulation 25(8) of the SEBI (MF) Regulations 1996 have been made in the table below in respect of other payments made to parties associated with sponsors in which the Investment Manager or its major shareholders have a substantial interest.

Name of the Company	Nature of Payment	Period Ended	% equity capital held by the sponsors and its subsidiary / associates as at 31 st March, 2012.
		31-Mar-12 Rs.	
Tata Asset Management Limited	Management Fees	429,748	100%*
Tata Trustee Company Limited	Trusteeship Fees	17,190	100%**

* Tata Sons Limited – 67.90% and Tata Investment Corporation Limited – 32.10%

** Tata Sons Limited – 50.00% and Tata Investment Corporation Limited – 50.00%

10. Investments made in group / associate companies (Refer Annexure 4).

11. Net Asset Value Per Unit (Rs.) :

Particulars	As at 31-Mar-12	
Face Value Rs.	10	
Net Asset Value Rs.	GROWTH	10.7890

12. Unprovided diminution and unrealised appreciation in the value of investments.

Particulars	As at
	31-Mar-12
	Rs.
Unrealised appreciation	6,540,635
Unprovided diminution	Nil

13. **Utilisation of Load charges**

- i. Details of exit load in excess of 1% of redemption value is transferred to “Other Income” in terms of SEBI’s Circular No. SEBI/IMD/CIR No.4/ 168230/09 dated 30th June, 2009, with effect from 1st August, 2009. The utilisation of the load reserve is disclosed in “Accumulated Load” account in Schedule II.

Period Ended
31-Mar-12
Rs.
36,663

- ii. During the year, the load charges have been utilised for meeting the marketing and selling expenses, including distributor’s / agent’s commissions.

Period Ended
31-Mar-12
Rs.
11,489

14. Unclaimed redemption/dividend amount, since the inception of the scheme has been invested separately, only in money market instruments and the investors who have claimed their dividend amount have been paid alongwith the appreciation earned on this amount as per SEBI circular MFD / CIR/9/120/2000 dated 24th November, 2000. As at 31st March, 2012 the unclaimed redemption/dividend amount is Rs.Nil for Nil investors.
15. In accordance with Regulation 44 (1) of the SEBI (Mutual Funds) Regulations, 1996, securities purchased should be held in the name of the Scheme. Investments in Government Securities and Treasury Bills are held in the name of "Tata Mutual Fund".
16. No provision for income tax has been made since the income of the schemes is exempt u/s 10(23D) of the Income Tax Act 1961.
17. The scheme was launched on 7th October, 2011 and hence there are no comparative figures.

On behalf of the Board of Directors
of **Tata Trustee Company Limited**

Director

Tata Asset Management Limited

Authorised Signatory Fund Manager

Schedules forming part of the Accounts

Schedule VIII Statement of significant accounting policies and notes forming part of the financial statements of Tata Retirement Savings Fund - Moderate Plan as at 31st March, 2012 and for the period from 7th October, 2011 to 31st March, 2012.

A BACKGROUND

TATA RETIREMENT SAVINGS FUND -MODERATE PLAN (the "Scheme") is an open ended balanced scheme of Tata Mutual Fund (the "Fund"). The Fund is registered with the Securities and Exchange Board of India ("SEBI"). The Scheme is managed by Tata Asset Management Limited ("TAML" / the "Investment Manager"), an investment management company registered with SEBI. The objective of the Fund is to provide a financial planning tool for long term financial security for investors based on their retirement planning goals. However, there can be no assurance that the investment objective of the fund will be realized, as actual market movements may be at variance with anticipated trends. The Scheme is sponsored by Tata Sons Limited ("TSL") and Tata Investment Corporation Limited ("TICL"). Tata Trustee Company Limited ("TTCL" / the "Trustee Company") is the trustee company of the Scheme.

B SIGNIFICANT ACCOUNTING POLICIES

1.1 Basis of Accounting

The Scheme maintains its books of account on an accrual basis.

1.2 Preparation of Financial Statements of the Scheme

The financial statements of the Scheme have been prepared in accordance with the requirements of Securities and Exchange Board of India (Mutual Funds) Regulations, 1996, (the "SEBI Regulations"), the Ninth and Eleventh Schedules of which lay down the accounting policies and standards to be adopted and the disclosures to be made.

The Expert Advisory Committee (the "EAC") of the Institute of the Chartered Accountants of India ("ICAI") have opined that the Accounting Standards on Cash Flow Statement ("AS-3"), Segment Reporting ("AS-17") and Related Party Disclosures ("AS-18") issued by the ICAI are applicable to the financial statements of schemes of mutual funds. The managements of the Investment Manager and the Trustee Company are of the opinion that mutual funds are governed by a self-contained regulatory framework, i.e. the SEBI Regulations, based on which the financial statements have been prepared.

The preparation of financial statements in conformity with the SEBI regulations requires the use of certain critical accounting estimates. It also requires the Board of Directors of the Investment Manager to exercise its judgement in the process of applying the Fund's accounting policies.

1.3 Portfolio Valuation

a. Classification

The Scheme classifies its investments in equity and debt securities, as Non-Traded, Thinly Traded and Traded Securities.

Non-Traded Securities are those equity and equity related securities that have not been traded on any Stock Exchange for a period of thirty days prior to the valuation date or debt securities (not being Government Securities) that have not been traded on any such exchange on the valuation date.

The Thinly Traded Securities category has two sub-categories: thinly traded equity and equity related securities and thinly traded debt securities. When trading in an equity and equity related security (such as convertible debentures, equity warrants, etc.) in a month is less than Rs. 500,000 and the total volume (in all recognised Stock Exchanges) is less than 50,000 shares the security is classified as thinly traded. A debt security (other than a Government Security) is classified as thinly traded if, on the valuation date, there are no individual trades (in the principle or other Stock Exchange) in that security in marketable lots (presently Rs. 5 crore).

Equity or debt securities that do not fall within the Non Traded Securities or Thinly traded Securities are classified as Traded Securities.

b. Recognition, de-recognition and measurement

Regular purchases and sales of investments are recognised on the trade date – i.e. the date on which the Scheme's order of purchase or sale of investment is executed. Investments include contracts for purchase of securities and exclude contracts for sale of securities, for which deliveries are not received/collected.

Investments purchased are initially recognised at cost of acquisition. Cost of acquisition includes transaction costs such as brokerage, stamp charges and other charges customarily included in the brokers note.

Investments are derecognised when the rights to receive cash flows from the investments have expired or the Scheme has transferred substantially all the risks and rewards of ownership.

Bonus shares and rights entitlement are recognised as on the respective ex-dates on the principal stock exchange where the shares are traded.

Subsequent to initial recognition, all investments are measured at fair values reflective of the realisable value of the securities / assets. Gains or losses on sale of investments are determined using the “average cost method” and are recognised in the Revenue Account in the period in which they arise either within “Income” if it is a gain or within “Expenses and Losses” if it is a loss. Changes in the unrealised diminution in the value of investments, if any, between two balance sheet dates is recognised in the Revenue Account as “Provision/(Reversal) for diminution in value of investments”. Changes in the unrealised appreciation in the value of investments, if any, between two balance sheet dates is disclosed under appropriation account as “Increase / (Decrease) in unrealised appreciation in the value of investments”. Unrealised gain in the value of investment is reduced from distributable income at the time of income distribution.

c. Fair value estimation

Equity and equity related securities:

Traded securities are valued at the last quoted closing price on the principal stock exchange (Bombay Stock Exchange Limited) on which the security is traded on valuation date. If no trade is reported on the principal stock exchange on a particular valuation date, traded securities are valued at the last quoted price on that date on any other recognised stock exchange.

When a security is not traded on any stock exchange on a particular valuation day, the value at which it was traded on the principal stock exchange or any other stock exchange, as the case may be, on the earliest previous day is used provided such date is not more than 30 days prior to the valuation date.

Based on the procedures determined by the Investment Manager and approved by the Trustee Company as on date, the fair values of non-traded and thinly traded equity and equity related securities are determined in each case by appropriately discounting for illiquidity, the average of the net worth per share and the capitalised earning values of those shares determined in accordance with SEBI's Circular No SEBI/ IMD/MC No.2/ 836/2011 dated January 7th, 2011.

Debt securities (including asset backed securities and money market instruments but excluding Government securities and Treasury Bills):

Traded:

Traded debt securities are valued at the weighted average price at which they are traded on the particular valuation day on the principal stock exchange (National Stock Exchange of India Limited) on which the security is traded.

Non-traded, thinly-traded:

Based on the procedures determined by the Investment Manager and approved by the Trustee Company, the fair values of thinly traded and non-traded debt securities have been determined as under:

Non-traded / thinly traded debt securities (including floating rate securities) and Money Market Instruments of over 91 days to maturity are valued based on yields arrived at by using a matrix of spread over the risk free benchmark yield. The risk free benchmark yield and matrix of spread is obtained from CRISIL and ICRA (both agencies being entrusted for the purpose by AMFI), which are aggregated to arrive at the average yield for valuation.

Non-Traded / thinly traded debt securities and Money Market instruments with residual maturity of upto 91 days are valued on an amortisation basis (i.e. at cost / last valuation price (as applicable) plus the difference between the redemption value and cost / last valuation price (as applicable) spread uniformly over the remaining maturity period of the instrument).

In the case of floating rate securities with floor and caps on coupon rate and residual maturity of upto 91 days, the valuation on an amortisation basis is determined taking the floor as the coupon rate.

Government Securities and Treasury Bills:

Government securities are valued at the average of the prices released by CRISIL and ICRA, which are now the agencies approved by AMFI for the purpose.

Treasury Bills are valued at the weighted average price at which they are traded on the particular valuation day on the principal stock exchange (National Stock Exchange of India Limited) on which it is traded. In the absence of such trade, Treasury Bills having a residual maturity greater than 91 days are valued at the average of the prices released by CRISIL and ICRA, the approved agencies for the purpose and Treasury Bills having a residual maturity not exceeding 91 days, are valued on an amortisation basis (i.e. at cost / last valuation price (as applicable) plus the difference between the redemption value and cost / last valuation price (as applicable) spread uniformly over the remaining maturity period of the instrument).

Derivatives:

Derivatives contracts are valued at closing market rates on the principal stock exchange on which the security is traded. On an ongoing basis, in the absence of a quoted price on the valuation date for derivatives, the last available quoted price within a period of thirty days prior to valuation date is used for valuation purposes.

The Scheme does not have any derivative contracts which have not been quoted for a period beyond thirty days to the valuation date.

1.4 A) Income Recognition:

- a) Income is recognised when the right of receipt is established and there is a reasonable certainty of collection.
- b) Dividend income is recognised when the right to receive payment is established on ex-dividend dates.
- c) Profit or loss on sale of investments is recognised on trade dates. The cost of investments sold is determined on “weighted average cost basis”.
- d) Interest on investments is recognised on an accrual basis.
- e) Discounts / premium on debt securities are amortised on a straight-line basis over the period upto redemption.

1.4 B) Expenses:

Expenses directly attributable and identifiable to particular scheme, are charged to the respective scheme. Investor related expenses viz: Registrar expenses, investor communications, investor meets etc. are allocated to the schemes in proportion to the number of live folios in the schemes. Other expenses, which are not identifiable to specific schemes, are allocated to the schemes in proportion to their net assets.

1.5 Unit Premium Reserve (“UPR”) and Income Equalisation

On issue / repurchase of units, the portion of the premium which is attributable to realised gains is credited / debited to the Revenue Account for the period as Income Equalisation. It is reflected in the Revenue Account after the net surplus / deficit of the scheme is determined. The balance portion of the premium that is not attributable to realised gains is credited / debited to the UPR.

If units are sold at a price lower than the face value the difference is debited to the Revenue Account as Income Equalisation.

The distributable amount is determined by deducting from the balance in the Revenue Reserve as at the end of the period, the net unrealised appreciation in the value of investments as at the end of the period. Credit balance in the UPR is considered to be at par with unit capital and is not taken into account in the determination of the distributable surplus. Dividend is declared only when the Revenue Reserve is positive.

1.6 Load Charges:

Load represents amounts charged to investors at the time of exit from the scheme.

The difference between the NAV and the repurchase price is disclosed as “Accumulated Load” which is not considered for computation of the Net Asset Value.

In compliance with SEBI’s Circular No. SEBI/IMD/CIR No. 4/ 168230/09 dated June 30, 2009 :

- The Scheme has not charged any entry load on investments made into it (including additional purchases and switches into the Scheme from other schemes) .

C. Notes attached to and forming part of the financial statements for the period ended 31st March, 2012.

1. The aggregate value of purchases and sales (including redemptions) of investments for the period ended 31st March, 2012 expressed as a percentage of average daily net assets is as under :

Particulars	Period Ended 31-Mar-12	
	Value* (Rs.)	%
Aggregate value of Purchases	49,220,397	98.78
Aggregate value of Sales (including redemptions)	7,190,960	14.43

* The amounts do not include CBLO and Reverse Repo transactions.

2. Investments made by the schemes of Tata Mutual Fund in companies or their subsidiaries (to the extent of information available) that have invested more than 5% of the net assets of any scheme of the fund, in terms of Regulation 25 (11) (Refer Annexure 1).
3. Statement of Portfolio with industry wise classification as at 31st March, 2012 (Refer Annexure 2).
4. Amount receivable from the Investment Manager Rs.229,295/- is included under "Other receivables" in "Other Current Assets".
5. In accordance with the SEBI Regulations, Management Fees are paid at the rate of 1.25% of the daily net assets upto Rs.100 crores and 1% of the daily net assets above Rs.100 crores and Trusteeship fees are paid at the rate of 0.05% daily net assets with effect from 3-Nov-11.
6. Contingent liabilities as at 31st March, 2012 are Rs.Nil.
7. There are no unit holders holding over 25% of the Net Asset Value of the Scheme as at 31st March, 2012.
8. **Transactions with Trustees, Investment Manager, their associates and with entities controlled by co-sponsors (in relation to services received by the Scheme).**

As explained above, TSL and TICL are the co-sponsors of the Mutual Fund. The nature of transactions with the Trustees, the Investment Manager, their associates and entities controlled by co-sponsors has been provided hereinafter. For the purpose of making these disclosures, the meanings ascribed to the terms "associates" and "control" by Regulation 2(c) and 2(g) of the SEBI Regulations have been used which have been summarised below:

- i. Associates and entities that exercise control over or are controlled by the Trustee Company and the Investment Manager or whose director, officer or employee is a director, officer or employee of the Investment Manager;
- ii. Control means the ability to exercise not less than 10% of the voting power of an entity or the ability of the board of directors of an entity to exercise control over the Investment Manager.

Investment Manager

The Board of Directors of the Trustee Company has appointed Tata Asset Management Limited as the Investment Manager for the Mutual Fund pursuant to an agreement dated 9th May 1995. The Investment Manager also provides certain secretarial and administrative services to the Mutual Fund. Under the terms of the arrangement, the Scheme pays the Investment Manager a fee not greater than as defined in the Offer Document as a % of the net assets value attributable to the unit holders on each day. The Investment Manager is a subsidiary of TSL.

Broker

The Investment Manager has appointed various brokers for carrying out investment trades on behalf of the scheme for a brokerage. Entities that have been paid such brokerage include Tata Securities Limited ("TSec"), over which TSL exercises control.

Transactions during the year in relation to services received by the Scheme from the co-sponsors or from entities over which they exercise control and other disclosures required under Regulation 25(8) of the SEBI regulations are contained in Annexure 3.

9. Disclosure under Regulation 25(8) of the SEBI (MF) Regulations 1996 have been made in the table below in respect of other payments made to parties associated with sponsors in which the Investment Manager or its major shareholders have a substantial interest.

Name of the Company	Nature of Payment	Period Ended	% equity capital held by the sponsors and its subsidiary / associates as at 31 st March, 2012.
		31-Mar-12 Rs.	
Tata Asset Management Limited	Management Fees	255,965	100%*
Tata Trustee Company Limited	Trusteeship Fees	10,239	100%**

* Tata Sons Limited – 67.90% and Tata Investment Corporation Limited – 32.10%

** Tata Sons Limited – 50.00% and Tata Investment Corporation Limited – 50.00%

10. Investments made in group / associate companies (Refer Annexure 4).

11. Net Asset Value Per Unit (Rs.) :

Particulars	As at 31-Mar-12	
Face Value Rs.	10	
Net Asset Value Rs.	GROWTH	10.7174

12. Unprovided diminution and unrealised appreciation in the value of investments.

Particulars	As at
	31-Mar-12
	Rs.
Unrealised appreciation	3,180,844
Unprovided diminution	Nil

13. **Utilisation of Load charges**

- i. Details of exit load in excess of 1% of redemption value is transferred to "Other Income" in terms of SEBI's Circular No.SEBI/IMD/CIR No.4/ 168230/09 dated 30th June, 2009, with effect from 1st August,2009. The utilisation of the load reserve is disclosed in "Accumulated Load" account in Schedule II.

Period Ended
31-Mar-12
Rs.
5,640

- ii. During the year, the load charges have been utilised for meeting the marketing and selling expenses, including distributor's / agent's commissions.

Period Ended
31-Mar-12
Rs.
1,410

14. Unclaimed redemption/dividend amount, since the inception of the scheme has been invested separately, only in money market instruments and the investors who have claimed their dividend amount have been paid alongwith the appreciation earned on this amount as per SEBI circular MFD / CIR/9/120/2000 dated 24th November, 2000. As at 31st March, 2012 the unclaimed redemption/dividend amount is Rs.Nil for Nil investors.
15. In accordance with Regulation 44 (1) of the SEBI (Mutual Funds) Regulations, 1996, securities purchased should be held in the name of the Scheme. Investments in Government Securities and Treasury Bills are held in the name of "Tata Mutual Fund".
16. No provision for income tax has been made since the income of the schemes is exempt u/s 10(23D) of the Income Tax Act 1961.
17. The scheme was launched on 7th October, 2011 and hence there are no comparative figures.

On behalf of the Board of Directors
of **Tata Trustee Company Limited**

Tata Asset Management Limited

Authorised Signatory

Fund Manager

Schedules forming part of the Accounts

Schedule VII Statement of significant accounting policies and notes forming part of the financial statements of Tata Retirement Savings Fund - Conservative Plan as at 31st March, 2012 and for the period from 7th October, 2011 to 31st March, 2012.

A BACKGROUND

TATA RETIREMENT SAVINGS FUND -CONSERVATIVE PLAN (the "Scheme") is an open ended scheme of Tata Mutual Fund (the "Fund"). The Fund is registered with the Securities and Exchange Board of India ("SEBI"). The Scheme is managed by Tata Asset Management Limited ("TAML" / the "Investment Manager"), an investment management company registered with SEBI. The objective of the Fund is to provide a financial planning tool for long term financial security for investors based on their retirement planning goals. The Scheme is sponsored by Tata Sons Limited ("TSL") and Tata Investment Corporation Limited ("TICL"). Tata Trustee Company Limited ("TTCL" / the "Trustee Company") is the trustee company of the Scheme.

B SIGNIFICANT ACCOUNTING POLICIES

1.1 Basis of Accounting

The Scheme maintains its books of account on an accrual basis.

1.2 Preparation of Financial Statements of the Scheme

The financial statements of the Scheme have been prepared in accordance with the requirements of Securities and Exchange Board of India (Mutual Funds) Regulations, 1996, (the "SEBI Regulations"), the Ninth and Eleventh Schedules of which lay down the accounting policies and standards to be adopted and the disclosures to be made.

The Expert Advisory Committee (the "EAC") of the Institute of the Chartered Accountants of India ("ICAI") have opined that the Accounting Standards on Cash Flow Statement ("AS-3"), Segment Reporting ("AS-17") and Related Party Disclosures ("AS-18") issued by the ICAI are applicable to the financial statements of schemes of mutual funds. The managements of the Investment Manager and the Trustee Company are of the opinion that mutual funds are governed by a self-contained regulatory framework, i.e. the SEBI Regulations, based on which the financial statements have been prepared.

The preparation of financial statements in conformity with the SEBI regulations requires the use of certain critical accounting estimates. It also requires the Board of Directors of the Investment Manager to exercise its judgement in the process of applying the Fund's accounting policies.

1.3 Portfolio Valuation

a. Classification

The Scheme classifies its investments in equity and debt securities, as Non-Traded, Thinly Traded and Traded Securities.

Non-Traded Securities are those equity and equity related securities that have not been traded on any Stock Exchange for a period of thirty days prior to the valuation date or debt securities (not being Government Securities) that have not been traded on any such exchange on the valuation date.

The Thinly Traded Securities category has two sub-categories: thinly traded equity and equity related securities and thinly traded debt securities. When trading in an equity and equity related security (such as convertible debentures, equity warrants, etc.) in a month is less than Rs. 500,000 and the total volume (in all recognised Stock Exchanges) is less than 50,000 shares the security is classified as thinly traded. A debt security (other than a Government Security) is classified as thinly traded if, on the valuation date, there are no individual trades (in the principle or other Stock Exchange) in that security in marketable lots (presently Rs. 5 crore).

Equity or debt securities that do not fall within the Non Traded Securities or Thinly traded Securities are classified as Traded Securities.

b. Recognition, de-recognition and measurement

Regular purchases and sales of investments are recognised on the trade date – i.e. the date on which the Scheme's order of purchase or sale of investment is executed. Investments include contracts for purchase of securities and exclude contracts for sale of securities, for which deliveries are not received/collected.

Investments purchased are initially recognised at cost of acquisition. Cost of acquisition includes transaction costs such as brokerage, stamp charges and other charges customarily included in the brokers note.

Investments are derecognised when the rights to receive cash flows from the investments have expired or the Scheme has transferred substantially all the risks and rewards of ownership.

Bonus shares and rights entitlement are recognised as on the respective ex-dates on the principal stock exchange where the shares are traded.

Subsequent to initial recognition, all investments are measured at fair values reflective of the realisable value of the securities / assets. Gains or losses on sale of investments are determined using the “average cost method” and are recognised in the Revenue Account in the period in which they arise either within “Income” if it is a gain or within “Expenses and Losses” if it is a loss. Changes in the unrealised diminution in the value of investments, if any, between two balance sheet dates is recognised in the Revenue Account as “Provision/(Reversal) for diminution in value of investments”. Changes in the unrealised appreciation in the value of investments, if any, between two balance sheet dates is disclosed under appropriation account as “Increase / (Decrease) in unrealised appreciation in the value of investments”. Unrealised gain in the value of investment is reduced from distributable income at the time of income distribution.

c. Fair value estimation

Equity and equity related securities:

Traded securities are valued at the last quoted closing price on the principal stock exchange (Bombay Stock Exchange Limited) on which the security is traded on valuation date. If no trade is reported on the principal stock exchange on a particular valuation date, traded securities are valued at the last quoted price on that date on any other recognised stock exchange.

When a security is not traded on any stock exchange on a particular valuation day, the value at which it was traded on the principal stock exchange or any other stock exchange, as the case may be, on the earliest previous day is used provided such date is not more than 30 days prior to the valuation date.

Based on the procedures determined by the Investment Manager and approved by the Trustee Company as on date, the fair values of non-traded and thinly traded equity and equity related securities are determined in each case by appropriately discounting for illiquidity, the average of the net worth per share and the capitalised earning values of those shares determined in accordance with SEBI’s Circular No SEBI/ IMD/MC No.2/ 836/2011 dated January 7th, 2011.

Debt securities (including asset backed securities and money market instruments but excluding Government securities and Treasury Bills):

Traded:

Traded debt securities are valued at the weighted average price at which they are traded on the particular valuation day on the principal stock exchange (National Stock Exchange of India Limited) on which the security is traded.

Non-traded, thinly-traded:

Based on the procedures determined by the Investment Manager and approved by the Trustee Company, the fair values of thinly traded and non-traded debt securities have been determined as under:

Non-traded / thinly traded debt securities (including floating rate securities) and Money Market Instruments of over 91 days to maturity are valued based on yields arrived at by using a matrix of spread over the risk free benchmark yield. The risk free benchmark yield and matrix of spread is obtained from CRISIL and ICRA (both agencies being entrusted for the purpose by AMFI), which are aggregated to arrive at the average yield for valuation.

Non-Traded / thinly traded debt securities and Money Market instruments with residual maturity of upto 91 days are valued on an amortisation basis (i.e. at cost / last valuation price (as applicable) plus the difference between the redemption value and cost / last valuation price (as applicable) spread uniformly over the remaining maturity period of the instrument).

In the case of floating rate securities with floor and caps on coupon rate and residual maturity of upto 91 days, the valuation on an amortisation basis is determined taking the floor as the coupon rate.

Government Securities and Treasury Bills:

Government securities are valued at the average of the prices released by CRISIL and ICRA, which are now the agencies approved by AMFI for the purpose.

Treasury Bills are valued at the weighted average price at which they are traded on the particular valuation day on the principal stock exchange (National Stock Exchange of India Limited) on which it is traded. In the absence of such trade, Treasury Bills having a residual maturity greater than 91 days are valued at the average of the prices released by CRISIL and ICRA, the approved agencies for the purpose and Treasury Bills having a residual maturity not exceeding 91 days, are valued on an amortisation basis (i.e. at cost / last valuation price (as applicable) plus the difference between the redemption value and cost / last valuation price (as applicable) spread uniformly over the remaining maturity period of the instrument.

Derivatives:

Derivatives contracts are valued at closing market rates on the principal stock exchange on which the security is traded. On an ongoing basis, in the absence of a quoted price on the valuation date for derivatives, the last available quoted price within a period of thirty days prior to valuation date is used for valuation purposes.

The Scheme does not have any derivative contracts which have not been quoted for a period beyond thirty days to the valuation date.

1.4 A) Income Recognition:

- a) Income is recognised when the right of receipt is established and there is a reasonable certainty of collection.
- b) Dividend income is recognised when the right to receive payment is established on ex-dividend dates.
- c) Profit or loss on sale of investments is recognised on trade dates. The cost of investments sold is determined on “weighted average cost basis”.
- d) Interest on investments is recognised on an accrual basis.
- e) Discounts / premium on debt securities are amortised on a straight-line basis over the period upto redemption.

1.4 B) Expenses:

Expenses directly attributable and identifiable to particular scheme, are charged to the respective scheme. Investor related expenses viz: Registrar expenses, investor communications, investor meets etc. are allocated to the schemes in proportion to the number of live folios in the schemes. Other expenses, which are not identifiable to specific schemes, are allocated to the schemes in proportion to their net assets.

1.5 Unit Premium Reserve (“UPR”) and Income Equalisation

On issue / repurchase of units, the portion of the premium which is attributable to realised gains is credited / debited to the Revenue Account for the period as Income Equalisation. It is reflected in the Revenue Account after the net surplus / deficit of the scheme is determined. The balance portion of the premium that is not attributable to realised gains is credited / debited to the UPR.

If units are sold at a price lower than the face value the difference is debited to the Revenue Account as Income Equalisation.

The distributable amount is determined by deducting from the balance in the Revenue Reserve as at the end of the period, the net unrealised appreciation in the value of investments as at the end of the period. Credit balance in the UPR is considered to be at par with unit capital and is not taken into account in the determination of the distributable surplus. Dividend is declared only when the Revenue Reserve is positive.

1.6 Load Charges:

Load represents amounts charged to investors at the time of exit from the scheme.

The difference between the NAV and the repurchase price is disclosed as “Accumulated Load” which is not considered for computation of the Net Asset Value.

In compliance with SEBI’s Circular No. SEBI/IMD/CIR No. 4/ 168230/09 dated June 30, 2009 :

- The Scheme has not charged any entry load on investments made into it (including additional purchases and switches into the Scheme from other schemes) .

C. Notes attached to and forming part of the financial statements for the period ended 31st March, 2012.

1. The aggregate value of purchases and sales (including redemptions) of investments for the period ended 31st March, 2012 expressed as a percentage of average daily net assets is as under :

Particulars	Period Ended 31-Mar-12	
	Value* (Rs.)	%
Aggregate value of Purchases	6,103,564	34.38
Aggregate value of Sales (including redemptions)	1,062,049	5.98

* The amounts do not include CBLO and Reverse Repo transactions.

2. Investments made by the schemes of Tata Mutual Fund in companies or their subsidiaries (to the extent of information available) that have invested more than 5% of the net assets of any scheme of the fund, in terms of Regulation 25 (11) (Refer Annexure 1).
3. Statement of Portfolio with industry wise classification as at 31st March, 2012 (Refer Annexure 2).
4. Amount receivable from the Investment Manager Rs.86,328/- is included under "Other receivables" in "Other Current Assets".
5. In accordance with the SEBI Regulations, Management Fees are paid at the rate of 1.25% of the daily net assets upto Rs.100 crores and 1% of the daily net assets above Rs.100 crores and Trusteeship fees are paid at the rate of 0.05% daily net assets with effect from 3-Nov-11.
6. Contingent liabilities as at 31st March, 2012 are Rs.Nil.
7. There are no unit holders holding over 25% of the Net Asset Value of the Scheme as at 31st March, 2012.
8. **Transactions with Trustees, Investment Manager, their associates and with entities controlled by co-sponsors (in relation to services received by the Scheme).**

As explained above, TSL and TICL are the co-sponsors of the Mutual Fund. The nature of transactions with the Trustees, the Investment Manager, their associates and entities controlled by co-sponsors has been provided hereinafter. For the purpose of making these disclosures, the meanings ascribed to the terms "associates" and "control" by Regulation 2(c) and 2(g) of the SEBI Regulations have been used which have been summarised below:

- i. Associates and entities that exercise control over or are controlled by the Trustee Company and the Investment Manager or whose director, officer or employee is a director, officer or employee of the Investment Manager;
- ii. Control means the ability to exercise not less than 10% of the voting power of an entity or the ability of the board of directors of an entity to exercise control over the Investment Manager.

Investment Manager

The Board of Directors of the Trustee Company has appointed Tata Asset Management Limited as the Investment Manager for the Mutual Fund pursuant to an agreement dated 9th May 1995. The Investment Manager also provides certain secretarial and administrative services to the Mutual Fund. Under the terms of the arrangement, the Scheme pays the Investment Manager a fee not greater than as defined in the Offer Document as a % of the net assets value attributable to the unit holders on each day. The Investment Manager is a subsidiary of TSL.

Broker

The Investment Manager has appointed various brokers for carrying out investment trades on behalf of the Scheme for a brokerage. Entities that have been paid such brokerage include Tata Securities Limited ("TSec"), over which TSL exercises control.

Transactions during the year in relation to services received by the Scheme from the co-sponsors or from entities over which they exercise control and other disclosures required under Regulation 25(8) of the SEBI regulations are contained in Annexure 3.

9. Disclosure under Regulation 25(8) of the SEBI (MF) Regulations 1996 have been made in the table below in respect of other payments made to parties associated with sponsors in which the Investment Manager or its major shareholders have a substantial interest.

Name of the Company	Nature of Payment	Period Ended	% equity capital held by the sponsors and its subsidiary / associates as at 31 st March, 2012.
		31-Mar-12 Rs.	
Tata Asset Management Limited	Management Fees	91,205	100%*
Tata Trustee Company Limited	Trusteeship Fees	730	100%**

* Tata Sons Limited – 67.90% and Tata Investment Corporation Limited – 32.10%

** Tata Sons Limited – 50.00% and Tata Investment Corporation Limited – 50.00%

10. Investments made in group / associate companies (Refer Annexure 4).

11. Net Asset Value Per Unit (Rs.) :

Particulars	As at 31-Mar-12	
Face Value Rs.	10	
Net Asset Value Rs.	GROWTH	10.4321

12. Unprovided diminution and unrealised appreciation in the value of investments.

Particulars	As at

13. **Utilisation of Load charges**

- i. Details of exit load in excess of 1% of redemption value is transferred to “Other Income” in terms of SEBI’s Circular No.SEBI/IMD/CIR No.4/ 168230/09 dated 30th June, 2009, with effect from 1st August,2009. The utilisation of the load reserve is disclosed in “Accumulated Load” account in Schedule II.

Period Ended
31-Mar-12
Rs.
51

- ii. During the year, the load charges have been utilised for meeting the marketing and selling expenses, including distributor's / agent's commissions.

Period Ended
31-Mar-12
Rs.
15

14. Unclaimed redemption/dividend amount, since the inception of the scheme has been invested separately, only in money market instruments and the investors who have claimed their dividend amount have been paid alongwith the appreciation earned on this amount as per SEBI circular MFD / CIR/9/120/2000 dated 24th November, 2000. As at 31st March, 2012 the unclaimed redemption/dividend amount is Rs.Nil for Nil investors.
15. In accordance with Regulation 44 (1) of the SEBI (Mutual Funds) Regulations, 1996, securities purchased should be held in the name of the Scheme. Investments in Government Securities and Treasury Bills are held in the name of “Tata Mutual Fund”.
16. No provision for income tax has been made since the income of the schemes is exempt u/s 10(23D) of the Income Tax Act 1961.
17. The scheme was launched on 7th October, 2011 and hence there are no comparative figures.

On behalf of the Board of Directors
of **Tata Trustee Company Limited**

Director

Tata Asset Management Limited

Authorised Signatory

Fund Manager

ANNEXURE 1

Market Value of investments made in each companies which have invested more than 5% of the net assets of a scheme and investments made by that or any other scheme of Tata Mutual Fund in such companies or its subsidiaries within one year of the latter investment calculated on either side in terms of regulation 25 (11) as on 31st March, 2012 :

COMPANY WHICH HAS INVESTED	SCHEMES IN WHICH COMPANIES HAVE INVESTED MORE THAN 5% OF THE NET ASSETS	SCHEMES WHICH HAVE INVESTED	AGGREGATE COST OF ACQUISITION DURING THE PERIOD ENDED 31ST MARCH, 2012 (RS.)	OUTSTANDING AS AT 31ST MARCH, 2012 AT FAIR / MARKET VALUE (RS.)
