FUND OVERVIEW

Tata Short Term Bond Fund is an open-ended short-term debt scheme investing in instruments such that the Macaulay duration of portfolio is between 1 year and 3 years. The fund aims to create a liquid portfolio to provide reasonable returns and liquidity to investors. The investment objective of the fund is to generate regular income over the short to medium term.

INVESTMENT PHILOSOPHY

The fund invests in a portfolio of corporate debt, money market instruments and government securities to gain accruals over the short term with a focus on safety and liquidity. The portfolio is biased towards instruments with moderate credit and high interest rate risk.

Safety

Accrual

Investor Suitability

Safety Focus: The fund portfolio is predominantly comprised of debt instruments issued by PSU companies and with highly rated corporates.

Accrual Focus: The fund seeks to generate returns predominantly through accruals from high quality bonds and from government securities.

Investor Suitability: The fund is suitable for investors looking for regular income/appreciation over a short-term period.
