PART III- OTHER DETAILS**A. COMPUTATION OF NAV**

Net Asset Value ("NAV") of the Units shall be determined daily as of the close of each Business Day on which the Bombay Stock Exchange (BSE) is open.

NAV shall be calculated in accordance with the following formula:

Market Value of Scheme's Investments + Accrued Income + Receivables + Other Assets - Accrued Expenses - Payables - Other Liabilities

NAV=
$$\frac{\text{Market Value of Scheme's Investments + Accrued Income + Receivables + Other Assets - Accrued Expenses - Payables - Other Liabilities}}{\text{Number of Units Outstanding}}$$

The computation of Net Asset Value, valuation of Assets*, computation of applicable Net Asset Value (related price) for ongoing Sale, Redemption, Switch and their frequency of disclosure shall be based upon a formula in accordance with the Regulations and as amended from time to time including by way of Circulars, Press Releases, or Notifications issued by SEBI or the Government of India to regulate the activities and growth of Mutual Funds. The NAVs of the fund shall be rounded off upto four decimals.

Due to difference in the expense ratio, the NAV of each option of Direct Plan will be different from the NAV of each option of Regular Plan. Similarly due to payout, the NAV of Income Distribution cum capital withdrawal Option will be different from the NAV of Growth option.

The valuation of investments shall be based on the principles of fair valuation specified in the Schedule VIII of the SEBI (Mutual Funds) Regulations, 1996 and guidelines issued by SEBI /AMFI from time to time. * Please refer Para V. of SAI on 'Investment valuation norms for securities & other assets for details.

Each option of the scheme will have a separate NAV.

*The valuation of investments shall be based on the principles of fair valuation specified in the Schedule VIII of the SEBI (Mutual Funds) Regulations, 1996 and guidelines issued by SEBI /AMFI from time to time. * Please refer Para V. of SAI on 'Investment valuation norms for securities & other assets' for details.

Illustration of Calculation of Sale & Repurchase Price:

Assumed NAV Rs. 11.00 per unit

Entry Load: NIL

Exit Load 1%

Sale Price = NAV + (Entry Load(%) * NAV)

Sale Price = 11 + (0% * 11)

Sale Price = 11 + 0

Sale Price = Rs. 11/-

Repurchase Price = NAV – (exit load (%) * NAV)

Repurchase Price = 11 – (1%*11)

Repurchase Price = 11 – 0.11

Repurchase Price = Rs.10.89

In the event NAV cannot be calculated and / or published, such as because of the suspension of RBI Clearing, Bank strikes, during the existence of a state of emergency and / or a breakdown in communications, the Board of Trustees may temporarily suspend determination and / or publication of the NAV of the Units.

Repurchase/ Resale is at Net Asset Value (NAV) related prices with repurchase/ resale loads as applicable (within limits) as specified under SEBI Regulations 1996, While determining the price of the units, the fund will ensure that the repurchase price is not lower than 97 per cent of the Net Asset Value.

I. INTRODUCTION

A. DEFINITIONS/INTERPRETATION

Functional weblink that contains detailed description: Kindly visit <https://www.tatamutualfund.com/statutory-disclosures/other-statutory-disclosures>

B. RISK FACTORS

Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value of the securities in which the scheme invests fluctuate, the value of your investment in the scheme may go up or down.
- Mutual Funds and securities investments are subject to market risks and there can be no assurance and no guarantee that the Scheme will achieve its objective.
- As with any investment in stocks, shares and securities, the NAV of the Units under this Scheme can go up or down, depending on the factors and forces affecting the capital markets.
- Past performance of the previous schemes, the Sponsors or its Group / Affiliates / AMC / Mutual Fund is not indicative of and does not guarantee the future performance of the Scheme.
- The sponsors are not responsible or liable for any loss resulting from the operations of the scheme beyond the initial contribution of Rs. 1 lakh made by them towards setting up of the mutual fund.
- Tata Ethical Fund is only the name of the Scheme and does not in any manner indicate either the quality of the Scheme, its future prospects or the returns. Investors therefore are urged to study the terms of the scheme information document carefully and consult their tax and Investment Advisor before they invest in the Scheme(s).
- Mutual Fund investments are subject to market risks, read all scheme related documents carefully.
- Tata Ethical Fund is not guaranteed or assured return scheme.

Scheme Specific Risk Factors:**Liquidity and Settlement Risks**

The liquidity of the Scheme's investments may be inherently restricted by trading volumes, transfer procedures and settlement periods. From time to time, the Scheme will invest in certain securities of certain companies, industries, sectors, etc. based on certain investment parameters as adopted internally by TAMPL. While at all times the Asset Management Company will endeavour that excessive holding/investment in certain securities of industries, sectors, etc. by the Scheme is avoided, the funds invested by the Scheme in certain securities of industries, sectors, etc. may acquire a substantial portion of the Scheme's investment portfolio and collectively may constitute a risk associated with non-diversification and thus could affect the value of investments. Reduced liquidity in the secondary market may have an adverse impact on market price and the Scheme's ability to dispose of particular securities, when necessary, to meet the Scheme's liquidity needs or in response to a specific economic event or during restructuring of the Scheme's investment portfolio. Furthermore, from time to time, the Asset Management Company, the Custodian, the Registrar, any Associate, any Distributor, Dealer, any Company, Corporate Bodies, Trusts, any Retirement and Employee Benefit Funds or any Associate or otherwise, any scheme / mutual fund managed by the Asset Management Company or by any other Asset Management Company may invest in the Scheme. While at all times the Trustee Company and the Asset Management Company will endeavour that excessive holding of Units in the Scheme among a few Unitholders is avoided, however, the funds invested by these aforesaid persons may acquire a substantial portion of the Scheme's outstanding Units and collectively may constitute a majority unitholder in the Scheme. Redemption of Units held by such persons may have an adverse impact on the value of the Units of the Scheme because of the timing of any such redemptions and this may impact the ability of other Unitholders to redeem their respective Units.

Investment Risks

The value of, and income from, an investment in the Scheme can decrease as well as increase, depending on a variety of factors which may affect the values and income generated by the Scheme's portfolio of securities. The returns of the Scheme's investments are based on the current yields of the securities, which may be affected generally by factors affecting capital markets such as price and volume, volatility in the stock markets, interest rates, currency exchange rates, foreign investment, changes in Government and Reserve Bank of India policy, taxation, political, economic or other developments, closure of the Stock Exchanges etc. Investors should understand that the investment pattern indicated, in line with prevailing market conditions, is only a hypothetical example as all investments involve risk and there is no assurance that the Scheme's investment objective will be attained or that the Scheme be in a position to maintain the model percentage of investment pattern particularly under exceptional circumstances.

Different types of securities in which the scheme would invest in, as mentioned in this SID, carry different levels and types of risk.

The scheme may use certain techniques and instruments (as disclosed in the clause "portfolio turnover") for efficient portfolio management approved by its Shariah Advisor to attempt to manage the risk of such fluctuations. However, these techniques and instruments if imperfectly used have the risk of the scheme incurring losses due to mismatches particularly in a volatile market. The Fund's ability to use these techniques may be limited by market conditions, regulatory limits and tax considerations (if any).

Regulatory Risk

The value of the securities may be affected by uncertainties such as changes in government policies, changes in taxation and other developments in the laws and regulations.

Risk associated with to be listed Securities

Securities which are not quoted on the stock exchanges are inherently liquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to the investors, including the put options. The AMC may choose to invest in to be listed domestic securities if allowed under Shariah principles. This may however increase the risk of the portfolio. Additionally, the liquidity and valuation of the scheme's investments due to its holdings of to be listed securities may be affected if they have to be sold prior to the target date of disinvestment.

Risk Associated with Shariah Compliance

Securities may from time to time be classified as non Shariah compliant. The scheme will invest only in securities which are part of Shariah Compliant Universe. In case of change of Shariah Compliance status of any company post investment by the scheme, the fund manager will exit from the scrip within the time limit permitted by the Shariah advisor. This may restrict the ability of scheme to sell such securities at a desired price.

C. Risk mitigation strategies**Risk Control / Mitigation measures for equity investments and related investments:**

Investment in equity has an inherent market risk which cannot be mitigated generally. Following measures have been implemented with an objective to mitigate /control other risks associated with equity investing:

Nature of Risk	Mitigation Measures
Regulatory Risk	Online monitoring of various exposure limits by the Front Office System. Also, as a backup, manual controls are also implemented.
Poor Portfolio Quality	Pre-approved universe of stocks based on strong fundamental research. New stock addition only with the prior approval of investment committee.
Performance Risk	Periodical review of stock wise profit & loss. Review of scheme performance vis. a vis. Benchmark index as well as peer group.
Liquidity Risk	Periodical review of the liquidity position of each scrip (Market capitalization, average volume in the market vis. a vis. Portfolio Holding)
Concentration Risk	Cap on maximum single sector exposure. Cap on maximum single stock exposure. Exposure to minimum 'X' number of stocks / sectors in a portfolio.

Compliance under Foreign Account Tax Compliance Act (FATCA) regulations:

United States of America (US) has introduced chapter no. 4 in the US Internal Revenue Code as a part of the Hiring Incentives to Restore Employment (HIRE) Act, which was enacted by the US legislature to create employment opportunities in US. The HIRE Act includes Foreign Account Tax Compliance Act (FATCA), which now forms a part of the US-IR Code. The regulations for FATCA have undergone revision since 2010 and the final regulations make the FATCA provisions effective from July 1, 2014.

The objective of FATCA is to detect "US Persons", who evade US taxes by using financial account maintained outside US. The US persons are defined as those who have either US citizenship or US residency. The FATCA stipulates reporting on -

- US taxpayers about certain foreign financial accounts and offshore assets.
- Foreign Financial Institutions (FFIs) about financial accounts with them of US tax-payers or foreign entities in which US taxpayers hold substantial ownership interest.

FFIs (including mutual funds in India) are required to periodically report information on accounts of US persons, who maintain balances above a threshold. In the event of a default in the reporting of information on accounts of US taxpayers, a withholding of 30% of the payment made from US sources will be imposed on the recalcitrant account holders and non-participating Financial Institutions. SEBI vide its circular no. CIR/MIRSD/2/2014 dated June 30, 2014, has advised that Government of India and US Government have reached an agreement in substance on the terms of an Inter-Governmental Agreement (IGA) to implement FATCA and India is now treated as having an IGA in effect from April 11, 2014. Tata Asset Management Private Limited (TAMPL) is classified as a Foreign Financial Institution (FFI) under the FATCA provisions and in accordance therewith, the AMC would be required to comply with the rules & regulations of FATCA, from time to time.

In order to ensure compliance with FATCA and other rules / directions / notifications as may be issued by Government of India or other regulatory authority, Mutual Funds are required to institute a process to identify US Person investors and report the same.

Applicants are required to refer to the "FATCA information" section in the application and mandatorily fill/sign off on the same. Applications without this information / declaration being filled/signed off will be deemed as incomplete and are liable to be rejected. Investors are requested to provide information required by the regulatory authority and may undergo changes on receipt of communication / guidelines from Government of India or AMFI or SEBI or any other regulatory authority.

Common Reporting Standard (CRS)

On similar lines of FATCA, the Organization of Economic Development (OECD), along with the G 20 countries, of which India is a member, has released a 'Standard for Automatic Exchange of Financial Account Information in Tax matters'. In order to combat the problem of offshore tax evasion and avoidance and stashing of unaccounted money abroad, the G 20 & OECD countries have together developed a common reporting standard (CRS) on automatic exchange of information (AEOI). On June 3, 2015 India has joined the Multilateral Competent Authority Agreement (MCAA) on AEOI. The CRS on AEOI requires the financial institutions of the 'source' jurisdiction to collect and report information to their tax authorities about account holders 'resident' in other countries. The information

	to be exchanged relates not only to individuals, but also to shell companies and trusts having beneficial ownership or interest in the 'resident' countries. In view of India's commitment to implement the CRS on AEOI and also the IGA with USA and with a view to provide information to other countries necessary legislative changes has already been made in Finance Act & by inserting Rules 114F to 114H and Form 61B to provide a legal basis for the Reporting Financial Institutions (RFIs) for maintaining and reporting information about the reportable accounts. Applicants are required to refer to the "FATCA/CRS information" section in the application and mandatorily fill/sign off on the same. Applications without this information / declaration being filled/signed off will be deemed as incomplete and are liable to be rejected. Investors are requested to note that the contents of the information to be provided/ declaration in the application form may undergo a change on receipt of communication / guidelines from Government of India or AMFI or SEBI or any other regulatory authority. With the change in guidelines, investors may be called for additional information required by the law. Investors are requested to keep Mutual Fund updated with change in information already submitted by them with Mutual Fund. FATCA provisions are relevant not only at on-boarding stage of investor(s)/unit holder(s) but also throughout the life cycle of investment with the Fund/the AMC. In view of this, Investors should immediately intimate to the Fund/the AMC, in case of any change in their status with respect to FATCA/CRS related declaration provided by them previously. Investors(s)/Unit holder(s) should consult their own tax advisors to understand the implications of FATCA/CRS provisions /requirements. Sale Price = Rs. 11/-

Repurchase Price

Repurchase Price = NAV – (exit load (%) * NAV)

Repurchase Price = 11 – (1%*11)

Repurchase Price = 11 – 0.11

Repurchase Price = Rs.10.89
